Date 14th January 2026

FRAMEWORK AGREEMENT

(BASED ON NEC4 FRAMEWORK CONTRACT)

June 2017

Between

NORTH EAST LINCOLNSHIRE BOROUGH COUNCIL

And

NORTH LINCONSHIRE COUNCIL

And

J MCCANN & CO LIMITED

Docusign Envelope ID: 886659D4-2231-44A6-B627-3B2F71797D1A

THIS AGREEMENT is made the 14th day of January 2026 2025

BETWEEEN

(1) NORTH EAST LINCOLNSHIRE COUNCIL whose address is Municipal Offices, Town Hall Square, Grimsby, North East Lincolnshire, DN31 1HU ("**NELC**");

(2) NORTH LINCOLNSHIRE COUNCIL whose address is Church Square House 30-40 High Street, Scunthorpe DN15 6NL ("**NLC**"); and

together "**the *Clients***".

(3) J MCCANN & CO LIMITED (Company Number 08326109) whose registered office is at Mccann House, 110 Nottingham Road, Chilwell, Nottinghamshire, England, NG9 6DQ ("***Supplier***")

together "**the Parties**".

BACKGROUND

(A) The *Clients* have selected the *Supplier* as the framework *Supplier* for the Lots and Geographic Regions stated in the *framework scope.*

(B) The *Clients* and the *Supplier* have agreed to enter into this Framework Agreement, which incorporates the conditions of the NEC4 Framework Agreement. For ease of reference, the NEC4 Framework Agreement conditions have been replicated with additional and modified clauses incorporated to form this consolidated framework agreement.

(C) The *Client* may instruct the *Supplier* under Work Orders in accordance with the terms of the Framework Agreement. Work Orders may be instructed in accordance with the *quotation procedure* under any one of the following NEC4 forms of contract, incorporating the relevant Z-clauses specified within the *quotation procedure*:

(a) NEC 4 Term Service Contract with optional Z clauses.

Conditions of Contract

Actions	**10**	
	10.1	The Parties and the *Clients' Representative* shall act as stated in this Framework Agreement.
	10.2	The Parties and the *Clients' Representative* act in a spirit of mutual trust and co-operation.
Identified and defined terms	**11**	

	11.1	In these *conditions of contract*, terms identified in the Contract Data in italics and defined terms have capital initials.
	11.2	(1) A Corrupt Act is: • the offering, promising, giving, accepting or soliciting of an advantage as an inducement for an action which is illegal, unethical or a breach of truest or • abusing any entrusted power for private gain • any offence under the Bribery Act 2010 in connection with this Framework Agreement or any other contract with the *Clients*. This includes any commission paid as an inducement which was not declared to the *Clients* before ethe date this Framework Agreement came into existence. (2) Framework Information is information which specifies how the Parties work together and is in the document which the Contract Data states it is in. (3) The Parties are the *Clients* and the *Supplier*. (4) A Work Order is a contract to carry out work within the *framework scope*. (5) Affiliate is in relation to a party, any entity that directly or indirectly controls, is controlled by, or is under common control with that party from time to time. (6) Applicable Data Protection Laws are • To the extent UK GDPR applies, the law of the United Kingdom or of a part of the United Kingdom which relates to the protection of personal data, and • To the extent the EU GDPR applies, the law of the European Union or any member state of the European Union to which the *Supplier* is subject, which relates to the protection of personal data. (7) Applicable Laws is all laws, statutes, regulations and codes from time to time in force that relate to this agreement and/or any Work Order under this Framework Agreement.

		(8) Control has the meaning given in Schedule 1124 of the Corporation Tax Act 2010. (9) Default Contract Data has the meaning stated in the *quotation procedure*. (10) Emergency Procurement Criteria is where, due to urgent or emergency circumstances, including risk to loss of life, risk of injury to person and/or risk to material disruption to port operations, the *Client* reasonably considers it advantageous to instruct an Other *Supplier* to supply services or undertake works that would otherwise fall within the Primary *Framework scope* (or, where applicable to a framework agreement with an Other *Supplier*, the Secondary *Framework scope*). (11) EU GDPR is the General Data Protection Regulation ((EU) 2016/679), as it has effect in EU law. (12) Framework Key Performance Indicators (or KPIs) are the key performance indicators that the *Supplier* commits to achieve in performance of its obligations under this Framework Agreement and the Work Orders instructed under it, as stated in the Framework Information. (13) Geographic Region has the meaning ascribed to it in the *framework scope*. (14) Lot has the meaning ascribed to it in the *framework scope*. (15) Other Framework User is an Affiliate of the *Clients* and any Affiliate of such Affiliate of the *Clients*. (16) Other *Supplier* is a *Supplier* other than the *Supplier* engaged by the *Clients* to provide works, goods and/or services, that fall within the *framework scope*. (17) Primary *Framework scope* has the meaning stated in the *framework scope.* (18) Scope Document has the meaning stated in the Framework Information. (19) Secondary *Framework scope* has the meaning stated in the *framework scope.* (20) Work Order Conditions has the meaning stated in the *quotation procedure.* (21) Work Order Particulars are the Work Order Conditions and Default Contract Data selected by the *Client's representative* from those stated in the

		quotation procedure that are to apply to a Work Order (if instructed) (22) Work Order Key Performance Indicators (or KPIs) are the key performance indicators that the *Supplier* commits to achieve under a Work Order, as stated in the Framework Information and to be incorporated into the Work Orders instructed thereunder.
Communications	**13**	
	13.1	Each communication which the contract requires is communicated in a form which can be read, copied and recorded.
	13.2	A communication has effect when it is received at the last address notified by the recipient for receiving communications or, if none is notified, at the address of the recipient stated in the Contract Data.
The *Client's representative*	**14**	
	14.1	The *Clients* may replace the *Clients Representative* after notifying the *Supplier* of the name of the replacement.
Other Framework Users and Third Party Rights	**15**	
	15.1	Any Other Framework User may instruct a Work Order under this Framework Agreement as if they were the *Clients*, provided they comply with the obligations of the *Clients* under clause 23 in respect of the same.
	15.2	The rights under clause 15.1 shall be conferred upon the Other Framework Users under the Contract (Rights of Third Parties) Act 1999.
	15.3	Save as provided under clause 15.1 and 15.2, this Framework Agreement does not give rise to any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Framework Agreement.
Assignment	**16**	
	16.1	The *Supplier* shall not assign, transfer, mortgage, charge, subcontract, delegate, declare a trust over or

		deal in any other manner with any of its rights and obligations under this Framework Agreement.
	16.2	The *Clients* may at any time assign, mortgage, charge, delegate, declare a trust over or deal in any other manner with any or all of its rights under this Framework Agreement.
Variation	**17**	
	17.1	No variation of this Framework Agreement shall be effective unless it is in writing and signed by the parties (or their authorised representatives).
Corrupt Acts	**18**	
	18.1	The *Supplier* does commit any Corrupt Act.
	18.2	The *Supplier* procures that none of its Affiliates and that no subcontractor engaged by it in relation to any Work Order commits any Corrupt Act.
	18.3	The *Supplier* notifies the *Clients* forthwith if it has knowledge of, or has reasonable grounds to suspect the occurrence of, the commission of a Corrupt Act by it, any of its Affiliates and/or any of its subcontractors. Such notice shall include details of the known or suspected Corrupt Act and, if applicable, the grounds for suspicion. The *Supplier* co-operates with the *Client* in the investigation of any such Corrupt Act or suspected Corrupt Act.
	18.4	The *Supplier's* obligations under this clause 18 shall survive the termination (for any reason) of this Framework Agreement.
Interpretation	19	
	19.1	This Framework Agreement shall be binding on, and ensure to the benefit of, the parties to it and their respective personal representatives, successors and permitted assigns, and references to any party shall include that party's personal representatives, successors and permitted assigns.
	19.2	A reference to any agreement or document (including this agreement) is a reference to such agreement or document, as varied or novated from time to time.

	19.3	Any words following “including”, “include”, “in particular”, “for example” or any similar expression shall be construed as illustrative and shall not limit the sense of the words, description, definition, phrase or term preceding those terms.
Waiver	19A	
	19A.1	A waiver of any right or remedy under this Framework Agreement or by law is only effective if given in writing and shall not be deemed a waiver of any subsequent right or remedy.
	19A.2	A failure or delay by a party to exercise any right or remedy provided under this Framework Agreement or by law shall not constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict any further exercise of that or any other right or remedy. No single or partial exercise of any right or remedy provided under this agreement or by law shall prevent or restrict the further exercise of that or any other right or remedy
Rights and remedies	19B	
	19B.1	The rights and remedies provided under this Framework Agreement are in addition to, and not exclusive of, any rights or remedies provided by law.
Severance	19C	
	19C.1	If any provision or part-provision of this Framework Agreement is or becomes invalid, illegal or unenforceable, it shall be deemed deleted, but that shall not affect the validity and enforceability of the rest of this Framework Agreement.
	19C.2	If any provision or part-provision of this Framework Agreement is deemed deleted under clause 19C.1 the parties shall negotiate in good faith to agree a replacement provision that, to the greatest extent possible, achieves the intended commercial result of the original provision
Entire Agreement	19D	
	19D.1	This Framework Agreement constitutes the entire agreement between the parties and supersedes and extinguishes all previous agreements, promises,

		assurances, warranties, representations and understandings between them, whether written or oral, relating to its subject matter.
	19D.2	Each party agrees that it shall have no remedies in respect of any statement, representation, assurance or warranty (whether made innocently or negligently) that is not set out in this Framework Agreement. Each party agrees that it shall have no claim for innocent or negligent misrepresentation based on any statement in this Framework Agreement
No partnership or agency	19E	
	19E.1	Nothing in this Framework Agreement is intended to, or shall be deemed to, establish any partnership or joint venture between any of the parties, constitute any party the agent of another party, or authorise any party to make or enter into any commitments for or on behalf of any other party.
	19E.2	Each party confirms it is acting on its own behalf and not for the benefit of any other person
Counterparts	19F	
	19F.1	This Framework Agreement may be executed in any number of counterparts, each of which shall constitute a duplicate original, but all the counterparts shall together constitute the one agreement.
Governing law and jurisdiction	19G	
	19G.1	This Framework Agreement and any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with it or its subject matter or formation shall be governed by and construed in accordance with the law of England and Wales.
	19G.2	Each party irrevocably agrees that the courts of England and Wales shall have exclusive jurisdiction to settle any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with this Framework Agreement or its subject matter or formation.

The Parties' obligations	**20**	
	20.1	The *Supplier* obeys an instruction which is in accordance with the Framework Agreement and is given by the *Clients' Representative*.
	20.2	The *Supplier* attends meetings with the *Clients' Representative* and others as stated in the Framework Information.
	20.3	The *Supplier* does not do any work until it has received a Work Order for that work.
	20.4	The Parties comply with their respective obligations as stated in the Framework Information.
	20.5	The *Supplier* provides details of its performance against the Framework KPIs as stated in the Framework Information.
	20.6	The *Supplier* provides details of its performance against Work Order KPIs in respect of each uncompleted Work Order as stated in the Framework Information.
	20.7	The *Client* has no obligation to, gives no guarantee to, and makes no representation that it will, instruct the *Supplier* under any Work Order or otherwise instruct any amount of work or services to the *Supplier* under this Framework Agreement.
	20.8	The *Supplier* allows the *Clients* (or its professional advisers) to access the *Supplier's* premises, personnel, systems and relevant records to verify that any sums charged to the *Client* under any Work Order are accurate. The *Clients* and its professional advisers shall have the right to take copies of any records which they reasonably require and remove such copies and the *Supplier* shall provide the necessary facilities to assist in copying free of charge.
	20.9	The *Supplier* complies with the Applicable Data Protection Laws and any additional data protection requirements stated in the Framework Information.

Clause not used	**21**	
Clause not used	**22**	
Quotation	**23**	
	23.1	If the *Supplier* is to be considered for a proposed Work Order, the *Client's representative* provides: • the Scope, including any Work Order KPIs that apply, • the Site Information, • the pricing document, • the Work Order Particulars and any additional information within Contract Data Part One, in each case as applicable for the work, and instructs the *Supplier* to provide a quotation.
	23.2	The *Supplier* provides a quotation in accordance with the *quotation procedure* and submits details of its assessment with the quotation. The *Supplier's* assessment is made using the *quotation information*.
	23.3	The *Clients' Representative* assesses the *Supplier's* quotation in accordance with the *quotation procedure*.
	23.4	The *Clients' Representative* replies to the submission within the period stated in the Contract Data. The reply is • the issue of a Work Order accepting the quotation in accordance with clause 23.6, • an instruction to submit a revised quotation or • a notification that the proposed Work Order will not be issued to the *Supplier*.
	23.5	If a revised quotation is instructed, the *Clients' Representative* advises the *Supplier* of the reasons for not accepting the quotation. The *Supplier* submits a revised quotation within the period stated in the instruction.
	23.6	Where the *Clients' Representative* issues a Work Order accepting a quotation, the Work Order incorporates the

		information provided by the *Client Representative* under clause 23.1and • the *Supplier's* quotation (subject to the *quotation procedure)* • and any other conditions, data or documentation agreed by the Parties prior to entering into the Work Order and is executed by both party as a deed and no Work Order shall come into effect until it is executed as a deed in accordance with this clause 23.6.
	23.7	The *Clients' Representative* may (at its sole discretion) obtain quotations from any Other *Supplier*(s) in respect of any proposed Work Order for which it instructs the *Supplier* to provide a quotation.
	23.8	The *Clients' Representative* may (at its sole discretion) instruct any Other *Supplier* to undertake work that falls within the *framework scope* (including both Primary *Framework scope* and Secondary *Framework scope*), including any work that was subject of a proposed Work Order for which it instructed the *Supplier* to provide a quotation.
Confidentiality	**24**	
	24.1	Each party does not, until at least six years after termination or expiry of this Framework Agreement, disclose to any person any confidential information concerning the business, affairs, *Client*s or *Supplier*s of the other party, except as permitted by clause 24.2.
	24.2	Each party may disclose the other party's confidential information: • to its employees, officers, representatives, *Supplier*s, sub-contractors or advisers who need to know such information for the purposes of exercising the party's rights or carrying out its obligations under or in connection with this agreement. Each party shall ensure that its employees, officers, representatives, *Supplier*s, sub-contractors or advisers to whom it discloses the other party's confidential information comply with this clause 15; and

		• as may be required by law, a court of competent jurisdiction or any governmental or regulatory authority.
	24.3	No party shall use any other party's confidential information for any purpose other than to exercise its rights and perform its obligations under or in connection with this Framework Agreement or under any Work Order instructed hereunder.
Completion	**30**	
	30.1	After the *end date*, • the *Clients' Representative* does not issue a Work Order and • the *Supplier* completes work under Work Orders issued before the *end date*.
	30.2	The *Client* may at its sole discretion extend the *end date* by 12 months on four occasions only, provided the *Clients* provide written notice of the extension to the *Supplier* at least one month before the *end date* and provided that the maximum term of this Framework Agreement (as extended) shall be eight years.
Termination	**90**	
	90.1	The *Client* may (at its sole discretion) forthwith terminate both Party's obligations under the Framework Agreement at any time by notifying the *Supplier*. Termination under this clause takes effect upon the *Client* giving notice to the *Supplier*.
	90.2	Upon termination taking effect, • the *Clients' Representative* does not issue a Work Order and • the *Supplier* completes work under Work Orders issued before the notification.
	90.3	Without prejudice to the generality of clause 90.1, the Clients' right to terminate under clause 90.1 shall be exercisable where any of the provisions of paragraph 78 (2) of the Procurement Act 2023 apply.

NL 25,436 Illuminated Units

- 24,031 Lighting Columns

- 1223 Signs
- 74 Beacons
- 108 Bollards

1.1.4. The Supplier will be responsible for the following Asset activity within the public highway:

- Street and Car Park Lighting
- Festive and feature Lighting – provision, installation, removal and maintenance of Summer and Christmas Illuminations and assistance with official switch on occasions
- Illuminated and non-illuminated bollards
- Traffic Signs and Posts
- CCTV Masts
- Feeder pillars, cabling and power supply equipment
- Emergency Call-Out (ECO) service, including Out of Hours and accident damage remedial works in the event of unsafe occurrences
- Improvement and general works of street lighting, both planned and reactive maintenance of street lighting equipment, illuminated/electrified street furniture, including lamp columns, road signs, bollards, traffic monitoring equipment, duct/cable laying, electrical fittings, etc.
- Bulk Lamp change
- Night time scouting and reporting of defective/non lit equipment
- Lighting Central Management System (CMS)
- Testing of electrical equipment on the public highway
- Testing of structural integrity and fitness for purpose of lamp columns.
- Works may include professional services in additional to physical, construction works to support Minor and Major highways and transport schemes

1.2. **Aims**

1.2.1. The procurement of the Framework Agreement will primarily contribute to the Client's priority of North East Lincolnshire residents should 'Live in a safe environment'.

1.3. **Scope**

1.3.1. Each Client is seeking to establish a Framework Agreement with a suitably qualified and experienced supplier of "Street Lighting Term Maintenance" Services.

1.3.2. The two separate lot requirements are as described below:

Lot 1 – North East Lincolnshire Council

The Works consist of the installation and maintenance of street and car park lighting, illuminated signs and bollards along with the installation and maintenance of seasonal illuminations and other works as required across the borough in North East Lincolnshire (NEL).

The Supplier will be required to provide:

General Maintenance:
Repair of outages to street lights, footpath lights, car park lighting, illuminated traffic signs and bollards, Bulk lamp change, cleaning and maintenance of illuminated traffic signs and bollards and undertake any other programmed maintenance.

Additional Maintenance:
Minor improvement works and electrical safety testing;
Provision and removal of temporary advance works signs and sign plates for pending Highways schemes.

Seasonal Illuminations:
Provision, installation, removal and maintenance of both Summer and Christmas Illuminations and assistance with official switch-on occasions.

Road Safety:
Provision of services associated with the installation, maintenance and re-location of Speed Activated signs and Driver Feed Back Signs.

Emergency attendance, in the event of unsafe occurrences.

Night time scouting and reporting of defective/non-lit equipment.

The Supplier may also be required to support during the contract:

Capital Works Schemes:
Renew defective road lighting columns and improvements to public lighting, Improve/ renew road lighting in conjunction with major highway maintenance schemes.

Section 38 and 278 Works:
Provision of services associated with the installation of Road Lighting equipment related to works required by developers.

Lot 2 - North Lincolnshire Council

The Works consist of the installation and maintenance of street and car park lighting, illuminated signs and bollards along with the installation and maintenance of seasonal illuminations and other works as required across the borough in North Lincolnshire (NL).

The Supplier will be required to provide, as required:

General Maintenance:
Repair of outages to street lights, footpath lights, car park lighting, illuminated traffic signs and bollards, Bulk lamp change, cleaning and maintenance of illuminated traffic signs and bollards and undertake any other programmed maintenance.

Additional Maintenance:
Minor improvement works and electrical safety testing;
Provision and removal of temporary advance works signs and sign plates for pending Highways schemes.

Seasonal Illuminations:
Provision, installation, removal and maintenance of both Summer and Christmas Illuminations and assistance with official switch-on occasions.

Road Safety:
Provision of services associated with the installation, maintenance and re-location of Speed Activated signs and Driver Feed Back Signs.

Emergency attendance, in the event of unsafe occurrences.

Night time scouting and reporting of defective/non-lit equipment.

The Supplier may also be required to support during the contract:

Capital Works Schemes

Renew defective road lighting columns and improvements to public lighting, Improve/ renew road lighting in conjunction with major highway maintenance schemes.

Section 38 and 278 Works
Provision of services associated with the installation of Road Lighting equipment related to works required by developers.

1.3.3. One Supplier will be appointed for each lot. Tenderers can bid for one lot or both lots.

2. Requirements

2.1. Tenderers should read this document in conjunction with the following documents listed below:

ITT Section B - Part B Scope – NELC

ITT Section B - Part C Scope – NLC

Appendix A – Background – NELC

Appendix B – Background - NLC

3. Contract Term

3.1. The Framework Agreement is expected to commence for each Client on

01 ece e 2025 for a period of 4 years and will expire on 31 e e 2029.

3.2. The end date is four years from the date of the contract, subject to any extension or earlier termination under this Framework Agreement.

3.3. The Client may at its sole discretion extend the end date by 12 months on four occasions only, provided the Clients provide written notice of the extension to the Supplier at least three month's before the end date and provided that the maximum term of this Framework Agreement (as extended) shall be eight years.

3.4. Either Client reserves the right to terminate the Framework Agreement at Years 5,6,7 and or 8 based on the performance of the Framework Agreement. The Client may include the KPI data identified in Schedule 1 and or 2 of this document and Performance Requirements returns as part of the termination review. However, the Client's decision shall not be limited to this in0formation, and any other relevant information may be taken into account.

3.5. If, at any point, the framework is no longer viable or proving value for money each Client reserves the right to give ninety (90) days-notice in writing to inform Suppliers of their intention to terminate or re-procure.

3.6. The Framework Agreement will not in any legal manner whatsoever constitute a contract between each Client and the Supplier. Any order placed by either Client with the Supplier under the framework arrangement, shall become a separate and independent contract in its own right, once accepted by the Supplier. In each and every such case, the terms of the framework arrangement and the conditions therein shall govern the services procured.

4. Call off Arrangements

4.1. The Call Off Arrangements for this Framework Agreement will utilise NEC 4 Term Service Contract 2017 with a Schedule of Amendments**.**

4.2. **North East Lincolnshire Council**

The Client will enter into the NEC 4 Term Service Contract 2017 with a Schedule of Amendments Call of Contract. Work Orders will be issued by the Client's Service Manager(s).

4.3. **North Lincolnshire Council**

The Client will issue a Job Request Form (Appendix C) and a Client Purchase Order as instructions to undertake the works.

4.4. **Collateral Warranty for Design Works**

4.4.1. "A collateral warranty is an agreement given by a Supplier's Subcontractor or consultant to an interested third party (e.g., funder, purchaser, tenant) to give that party a contractual right to pursue the warrantor if it suffers loss due to the warrantor breaching its obligations under the underlying contract" (LexisNexis 2023).

4.4.2. From time to time the Supplier may be required to undertake elements of works that include design responsibility. The design responsibility and or disciplines will be defined in the Scope Documentation issued by the Client, alongside the professional liability level to be held. It is the Suppliers' responsibility for ensuring that their supply chain hold these requirements. When the Supplier's is approaching their supply chain for quotations, they should be advising of any insurance requirements/accreditations that they should hold. These requirements are stated in the Scope Documentation issued by the Client, and forms part of the Supplier's contract.

4.4.3. If the Supplier or any other Subcontractor in the chain is unable to provide the level of cover/accreditation required, this should be communicated to the Supplier, who then should raise a written quey with the Service Manager. If the amend is rejected during the quotation period by the Client, it will be suggested that, if the Supplier or the Subcontractor is unable to amend the main policy, a separate policy is taken out specifically for that element of the project. The cost should then be included in the Subcontractor's quotation to the Supplier.

4.4.4. The Supplier shall, when requested by the Client, within 14 days of such request, execute and deliver to the Client, including other beneficiaries a deed or deeds of collateral warranty in favor of Client, and or other beneficiaries.

4.4.5. If the Supplier does not provide the warranties within 14 days of the Client's request, the Client will be entitled to issue in writing to the

Supplier a notice of breach of contract. If such breach is not rectified by the Supplier within 14 days after issue of such notice, then the Client shall not be liable to pay any amount in respect of the elements of the works to which the default relates while such breach remains to be rectified.

5. Contract Management

5.1. Mobilisation/Implementation

5.1.1. The Supplier will be required to attend a Contract Mobilisation meeting, and provide a draft Mobilisation Plan, which will be agreed between the Supplier and each Client prior to the commencement of the Framework Agreement.

5.1.2. During the mobilisation period, each Client's Service Manager will confirm to the Supplier the requirements and frequency of the Scope Requirements to take place from the Contract Date for the first year of service.

5.1.3. During the mobilisation period the Supplier will undertake a site risk assessment for each site.

5.1.4. The Supplier will submit their Quality Plan and all supporting documentation 1 month following the contract commencement date to the Client's Service Manager(s) for review.

5.1.5. The Supplier within 3 months following the contract commencement date have a Quality Management System in place for the delivery of the contract.

5.2. Progress Meetings

5.2.1. The Supplier will be required to attend with the Client's Service Manager(s) progress meetings to discuss the overall management of the Works.

5.2.2. The progress meetings will be held at the Supplier's Depot every two months.

5.2.3. The Client's Service Manager will notify the Supplier 7 days prior to the propose meeting date. The Supplier is to inform any nominated or other sub-contractors when their attendance is required.

5.3. Bi Annual Review

5.3.1. The Supplier will be required to attend bi -monthly progress meetings. The Service Manager will arrange and chair the meetings. The Supplier is to inform any nominated or other sub-contractors when their attendance is required. The Service Manager will be responsible for the

production and circulation of Minutes of Meetings. Where practicable the meetings will be held at the Service Manager's offices with online meetings being held as necessary. Other meetings may be held as and when required by the Service Manager.

5.3.2. The bi-monthly progress meeting will be held with the Supplier to review the Supplier's performance over the previous six months in accordance with the Key Performance Indicators. The Supplier is to submit a progress report to the Service Manager 7 days prior to each progress meeting.

5.4. **Service Delivery**

5.4.1. The Supplier is expected to work in close co-operation with the Client and Others and adopt a positive and flexible approach in delivering the service to help achieve the Client's declared aims. The Supplier should promote a positive image within both boroughs and carry out all activities in a professional and customer focussed manner.

5.4.2. The Supplier during the contract should where possible strive to maintain the same key personnel. If the Supplier is required to amend any key personnel the Supplier will be required to notify the Client's Service Manager(s) in writing within 30 calendar days.

5.4.3. The Supplier will need to ensure succession planning is in place to ensure there is no disruption to service delivery whereby a change to key personnel occurs.

5.5. **Innovation, Efficiency and Value Engineering proposals**

5.5.1. The Supplier will continually review and identify where possible innovation or efficiency and or value engineering proposals to the Work Orders during the contract that contribute to the following:

- Measures that can be implemented at zero additional cost to the Client and/or Supplier;
- Measures that can be implemented that may reduce the costs to the Client and/or Supplier
- Measures that can be implemented that may give rise to an additional cost to the Client and/or Supplier.
- Provide the same level of service at a lower cost to the Client;
- Provide an increased level of service for the same, or lower, cost to the Client;
- Improve the performance levels at a potential increased cost to the Client;
- Reduce longer term expenditure and or an overall cost benefit of its serviceable life. (This may result in a higher initial cost but reduced

long term maintenance and removal/demolition/decommissioning cost.)

5.5.2. The Supplier's proposals will include a rough order of magnitude of the overall benefits. If the Client's Service Manager(s) requires a detailed proposal, they will request this in writing from the Supplier.

5.5.3. Whereby the Supplier proposal results in a benefit in terms of costs or improved timescales the cost will be shared 50/50 between the Supplier and the Client after a level of Supplier costs (if any) which have been agreed between both parties have been deducted.

5.6. **Schedule of Rates Uplift**

5.6.1. The costs identified in the schedule of rates will be reviewed annually with any increase agreed at no greater than the appropriate indices for Highways.

5.6.2. The Supplier will be reissued with a new schedule of rates, which they will need to verify, sign and return. This will be undertaken 1 month prior to November each year.

5.6.3. Whereby a Client Software System is used the new rates will be updated by the Client's Service Manager(s).

5.7. **Performance Measurement and Assessment**

5.7.1. As part of this contract, the following Key Performance Indicators (KPI's) located in Schedule 1 and Schedule 2 of this document for each Client are to be achieved by the Supplier. These will be measured by the method of measurement stated within each Appendix and will form part of each Client's Framework Agreement.

5.7.2. The Supplier must also:

- Deliver the Social Value and Carbon Reduction outcomes during the lifetime of the contract term that was committed within their tender submission.
- Evidence progress, impact made and achieved outcomes in a performance report to be emailed to the Client's Service Manager one week in advance of each Bi Annual Contract Management meeting.

5.7.3. The Performance report shall include:

1. A summary of the Social Value and Carbon Reduction activities undertaken during the reporting period.
2. Data and metrics demonstrating the impact of the activities.

3. Any challenges encountered in delivering the Social Value and Carbon Reduction outcomes and outputs.

6. Supplier's Employees

6.1. The Supplier is required to adhere to the following Code of Conduct when working on the Public Highway:

- The Supplier /subcontractors shall be polite and courteous and respond quickly and effectively to Service Manager complaints.
- The Supplier /subcontractors must be suitably dressed (preferably displaying the name of the company that they are working for).
- Supplier subcontractors must not remove any base layer clothing at any time while on site.
- Supplier/subcontractors must always have suitable identification with them (preferably a company id badge with a picture).
- The Supplier should not smoke, vape, work under the influence of alcohol, use bad language, play music, display offensive material of a pornographic, racist, sexist or political nature.
- The Supplier shall ensure that all the Public Highway and the Asset are left in the same condition as they were at the start of the works.
- Where the works are incomplete at the end of a working day the Supplier shall ensure that the working area is secure, and does not impact and or cause a hazard on the Public Highway or to the general public.

6.2. The Supplier shall be required to maintain a log of all incidents of violence towards Supplier's staff and Subcontractors from members of the public whilst undertaking works on behalf of the Client. These incidents must be notified to the Client's Service Manager within 24 hours.

- All other incidents (non-violent), that affect the works must be notified to the Client's Service Manager as soon as reasonably practicable.
- The Client does not expect the Supplier's staff to tolerate abuse or threats – and are actively encouraged to remove themselves to a safe place and not return for as long as necessary until the threat has suitably passed.

7. Sub-Contractors

7.1. The Supplier will not sub-contract the performance of any of the services of this Contract without the either Client's express prior written consent. The Supplier will be responsible for any services it sub-contracts to a third party as if it had performed those.

7.2. The Supplier will ensure that any subcontractor that is engaged for the services of this Framework Agreement shall be suitably qualified and competent for the work they have been engaged to provide and adhere to the terms of the Framework Agreement.

7.3. The Supplier and any subcontracted parties must adhere to all relevant standard and best practices identified throughout this document and all supporting appendices.

8. Assets - North East Lincolnshire Council

8.1. The Supplier will provide one handheld mobile/tablet device to aid the delivery of Lot 1.

8.2. The Supplier will be liable to cover the cost of any damage, and or loss of the device, and any other associated equipment whilst in their care. If the device is stolen the Supplier is to report this to Client's Service Manager(s) immediately.

8.3. The device must be kept up to date with manufacturer or network provided patches. As a minimum patches should be checked for weekly and applied at least once a month.

8.4. The device must not be "jailbroken" or have any software/firmware installed which is designed to gain access to functionality not intended to be exposed to the Supplier

8.5. The Supplier must not load pirated software or illegal content onto their devices.

8.6. Applications must only be installed from official platform-owner approved sources. Installation of code from un-trusted sources is forbidden.

8.7. The Anti-Virus software pre-installed on the device must be kept up to date.

8.8. The device must not be used in any form that may bring disrepute to the Client, in doing so the Supplier will understand that they will be liable for any proceedings and consequential disciplinary actions.

8.9. The device and any peripherals issued are to be kept in a locked secure environment whilst not in use.

9. Permits and Permissions

9.1. The Supplier will be required to apply for and manage the Street Work's permit process via the Client's Street Works Manager (s) for planning and managing works, using the approved forms.

9.2. The Supplier should obtain any permits or permissions and ensure they remain in place for the full contract term as necessary. This includes but not limited to any consents necessary for:

- Planning permission.
- Permits to work.
- Highway Authority requirements.

9.3. The Supplier will ensure when creating all Street Works notices, the notices shall include appropriate timescales with site start dates and finish dates, and shall apply for variations and extensions, as necessary.

9.4. Both Client's operates a permit scheme, and the Supplier shall comply with all relevant sections of the relevant legislation and directions.

9.5. The Supplier should be aware they are liable for Fixed Penalty Notices for not complying with the Street Works Permit regulations.

10. Construction Design and Management (CDM) Regulations 2015

10.1. The purpose of the Framework Agreement is to enable a mechanism to undertake the routine maintenance of street lighting installations, which, under the Construction (Design and Management) Regulations 2015 (the Regulations), is defined as not being construction work and, as such, does not fall within the requirements of the Regulations. It is anticipated that the majority of Work Orders issued under the Framework Agreement will be for works falling within this definition.

10.2. However, it is possible that there will be Work Orders which will be of such a nature and size that they will be subject to the requirements of the Regulations.

10.3. In this event, it will be the Principal Contactor's (Supplier's) responsibility to inform the Client (s) that the Regulations apply. Accordingly, the Client (s) will appoint a CDM Coordinator specifically for the works covered by the Work Order.

10.4. The items detailed in the following sections which specifically relate to the requirements of the Regulations will only apply to those works which have been identified as coming within the requirements of the Regulations.

10.5. For the purposes of the application of the Construction (Design and Management) Regulations 2015, the following organisations will undertake the stated roles:

The Client (s):	North East Lincolnshire Council Municipal Offices, Town Hall square, Grimsby, North East Lincolnshire DN31 1HU North Lincolnshire Council Church Square House, 30-40 High Street, Scunthorpe, North Lincolnshire, DN15 6NL.
The Designer:	The Client (s) or the Principal Contractor (Supplier)
The CDM Coordinator:	To be advised
The Principal Contractor (Supplier):	The successful Tenderer for the construction and completion of the Whole of the Works comprised in the main contract.
Contractors:	Any other contractor or sub-contractor appointed by the Client (s) or the Principal Contractor (Supplier) to undertake Work comprised in the main contract. Where additional contractors are appointed by the Client (s) these will be notified to the Principal Contractor (Supplier).

11. Social Value and Carbon Reduction - North East Lincolnshire Council

10.1. Social Value

10.1.1. North East Lincolnshire Council's Social Value Policy aims to ensure a 'social return' from its investment by securing social value from:

- doing responsible business and being a good employer
- regeneration, housing and planning activity
- business, economic growth/skills and work activity
- internal providers, mutuals and joint venture partnerships

10.1.2. They look to secure better outcomes through:

- new procedures and processes for acquiring Social Value in construction, goods and services
- ensuring new developments bring public benefits (for example affordable housing/public realm)
- embedding social value throughout the commissioning process

10.1.3. As a guide, the types of suggested outputs the Client will consider to be positive Social Value outcomes are (but not limited to):

- Recruitment of local apprentices from across the diverse communities of the city; proactively reaching out to under-represented groups in your workforce.
- Working with local colleges and educational institutions to support apprenticeship schemes and provide students with apprenticeships and/or work placement opportunities,
- Provide staff with Employer-supported volunteering opportunities.
- Ensure any, and all practises equating to or associated with modern slavery are strictly prohibited.
- Ensure high quality health and safety standards.
- Ensure effective measures are in place to prevent child labour; additionally, procedures are readily in place to help children who are found to be working for them.
- Ensure sound and legal employment terms.
- Ensure fair and equal treatment in the workplace and evidence of working to employment and equality legislation.
- Ensure that their part of the supply chain is subject to continued renewal.
- Ensure responsible and ethical procurement is undertaken within the supply chain.

10.2. Carbon Reduction

10.2.1. The Supplier will be encouraged to implement carbon reducing approaches to meet the North East Lincolnshire Council's Carbon Reduction objectives, of working towards achieving carbon net zero by 2050. Supported by the governments ambition of carbon net zero by 2050, and the recently adopted policy to end the sale of petrol or diesel cars by 2035.

10.2.2. North East Lincolnshire Council's Net Zero Carbon Roadmap explains how the Client will achieve the targets and mitigate the impact of climate change. The Net Zero Carbon Roadmap sets out six workstreams the Client must complete to reach net zero by 2030.

10.2.3. As a guide, the types of suggested outputs that the Client will consider to be positive carbon reducing approaches to meet the both Client's Carbon reduction objectives by:

- delivering, promoting and supporting a sustainable equipment life cycle from design and material selection through to the end-of-life disposal and recycling.
- increase the share of materials reused and recycled and reduce the share of materials sent to landfill and incineration over time, through product/service innovation.
- prevent pollution to air, land and water from hazardous materials and materials with persistent organic pollutants and monitor the types and amount of waste that has been reused, recycled, sent for incineration and landfill during the delivery of the contract term.
- where suitably practical reduce the use of any petrol and diesel vehicles used in its operation over the course of the contract term.

10.2.4. The Client welcomes innovative outputs beyond those suggested in section 10.1.3 and 10.2.3.

11. Social Value and Carbon Reduction - North Lincolnshire Council

11.1.1. **North Lincolnshire Council** recognises that measuring and delivering Social Value requires flexibility and a collaborative approach. Agreed Social Value commitments may require a certain amount of refinement as a result. A key requirement is the willingness of the contracting partner to work openly and transparently with the Client whilst bearing in mind that the overall value of Social Value commitments made must be delivered by the successful Tenderer during the initial term of the contract.

11.1.2. Social Value offers should be appropriate to the local area. For the Client, 'local' is defined as being within the North Lincolnshire Council area, as

detailed in the map in Appendix B Background - NLC. For assurance review the postcode checker to guarantee that your Social Value offer is within the North Lincolnshire area https://www.royalmail.com/find-a-postcode.

11.1.3. Tenderers are free to make a commitment against any measure described within Appendix D – NLC Social Value Guidance document. Tenderers are required to submit a Social Value offer against 5 of the measures detailed in Appendix D against those that Tenderers consider their organisation is best placed to offer given the nature of the contract.

11.1.4. Please refer to the Social Value Guidance Document before completing Social Value method statement contained within ITT Section D, Tender Reply Form 4.

12. Exit Strategy

12.1. The Supplier must provide an Exit Plan for each Client six months prior to the expiry or termination of the Contract term, setting out how the Term Maintenance Services and any Stock will be transferred to a new Supplier

12.2. The Exit Plan should define the following but not be limited to:

- Handover of all related Stock, data, software, manuals and the like
- how the Supplier will ensure all Assets are within safe and working order, as defined within the Scope documentation that forms part of this tender.
- Handover of all and any relevant documentation.
- Transfer of the benefit of any applicable 3rd party warranties and guarantees.
- Provision and Processes for the Transfer of Staff

12.3. On the expiry of the contract term:

- All equipment and or Assets must be in good working order and available for use when transferred to the new Supplier. No additional cost for these activities will be borne by either Client.

13. Modification Of The Contract

13.1. While no further modifications are anticipated at this time, the Client reserves the right to modify the contract at any point within its term, in line with Section 74 of the Procurement Act 2023 in any of the following ways:

Have the ability to terminate the Contract at Year 5,6,7 and or 8

There is a possibility that due to local government reorganisation this contract will need to be novated to another public body carrying out the same functions as the Client's.

Schedule 1 North East Lincolnshire Council KPI's

KPI Ref	KPI Type	Metric	Who	SLA Target
KPI 1	Customer Service	Average time taken to repair a faulty Street Light (for definition see BVI.215a)	Supplier	Within 2 days
KPI 2		% of Emergency Call Outs attended within 2 hours of receiving notification		100%
KPI 3	Serviceability	% of lights working as planned based on an adaptation of the redundant BVPI.98	Supplier	99%
KPI 4	Health and Safety covered under Chapter 8	Category A – Routine Inspections 5% of all live works will be technically inspected by the Client's Service Manager(s) monthly. The Client's Streetworks inspectors will inspect up to 100% of all work.	Supplier	The failure rate shall not exceed 5% of Category A technical inspections carried out monthly throughout the contract
		Category B Routine Inspections 5% of all works will be technically inspected by the Client's Service Manager(s) monthly for compliance with the Specification for Reinstatement of Openings (SROH) The Client's Streetworks inspectors will inspect up to 100% of all work.		The failure rate shall not exceed 5% of Category A technical inspections carried out within the 6 month liability period of the reinstatement.
		Category C Routine Inspections 5% of all works will be technically inspected by the Client's Service Manager(s) monthly for		The failure rate shall not exceed 5% of Category A technical inspections carried out within the 2 year liability period of the reinstatement.

		compliance with the Specification for Reinstatement of Openings (SROH) The Client's Streetworks inspectors will inspect up to 100% of all work.		
		Site Inspection A minimum of 1 live site inspections will be undertaken with the Supplier by the Client's Service Manager's. This may involve unannounced visits.	Client/ Supplier	Pass

Schedule 2 North Lincolnshire Council KPI's

KPI Ref	KPI Type	Metric	Who	SLA Target
KPI 1	Road Work covered under Chapter 8	Category A routine inspections: The Client's Streetworks Inspectors will inspect up to 100% of all Live sites to assess compliance with the relevant Codes of Practice i.e., Safety at Streetworks and SROH	Supplier	The failure rate shall not exceed 5% of Category A inspections carried out monthly throughout the contract
		Category B routine inspections: The Client's Streetworks inspectors will inspect up to 100% of all completed permitted works within the highway to assess compliance with the Specification for Reinstatement of Openings (SROH)		The failure rate shall not exceed 5% of Category inspections carried out within the 6 month liability period of the reinstatement.
		Category C – routine inspections: The Client's Streetworks inspectors will inspect up to 100% of all completed permitted works within the highway to assess compliance with the Specification for Reinstatement of Openings (SROH)		The failure rate shall not exceed 5% of Category A inspections carried out within the 2 year guarantee / liability period of the reinstatement.
		Site Inspection A minimum of 1 live site inspections will be undertaken with the Supplier by the Client's	Client/ Supplier	Pass

		Service Manager's. This may involve unannounced visits.		
KPI 2	Customer Services	No. of complaints from members of the public, elected members and or other stakeholders	Supplier	0
KPI 3	Health and Safety	Annual Health and Safety Inspections - Site Audits up to two per calendar month	Client/ Supplier	Pass
KPI 4	Compliance	Provide calibration certificates for any electrical test instruments Provide calibration certificates for any safety equipment such as CAT scanner, safety harness. Provide copy of LOLER certificates Provide assessment reports from governing body to show electrical	Client/ Supplier	Pass

Invitation to Tender - Appendix A – Background NELC

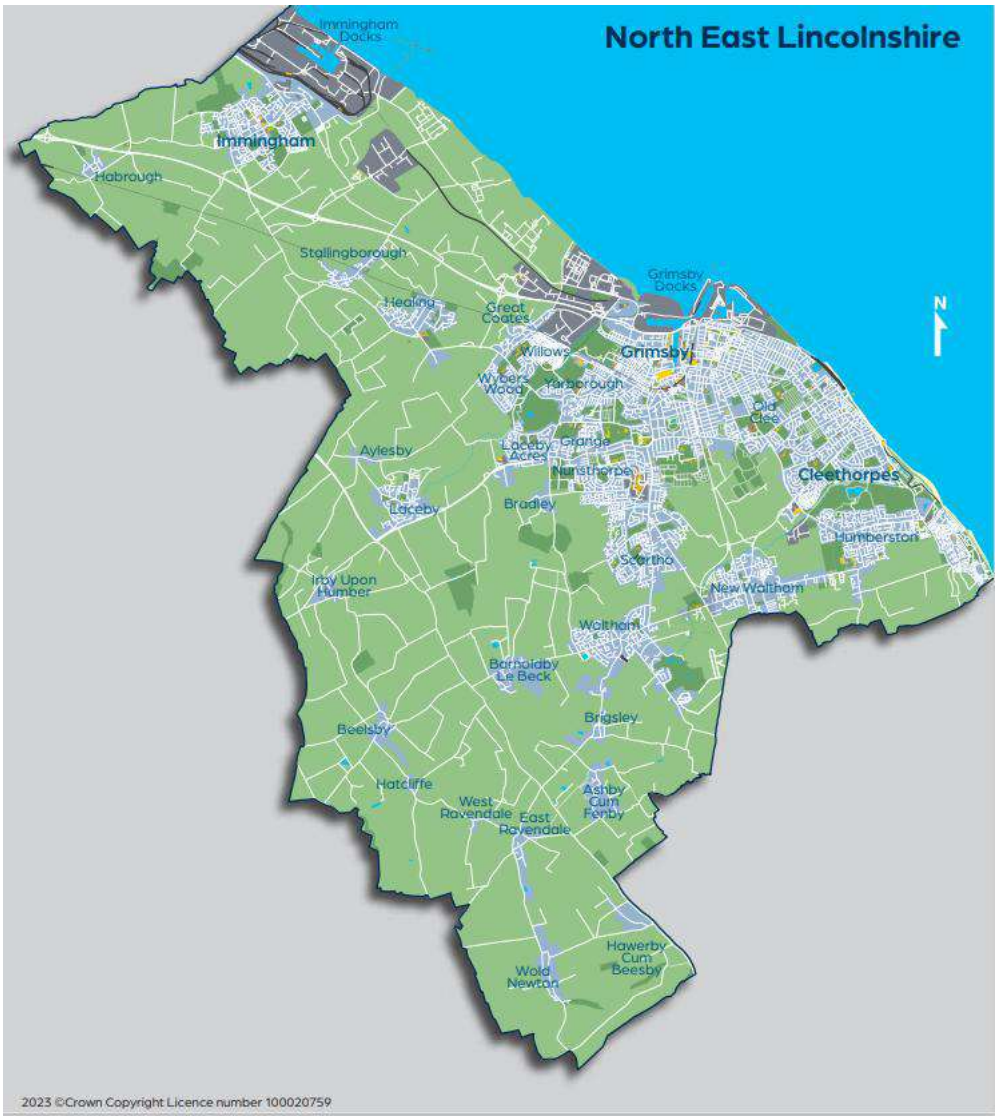
Framework for the Installation and Maintenance of Road Lighting, Traffic Signs and Bollards for North East and North Lincolnshire Councils

YORtender Reference: 100182 FTS Reference: 2025/S 000-031840

1. BACKGROUND

1.1. North East Lincolnshire

1.1.1. North East Lincolnshire is situated on the east coast of England, south of the Humber estuary where it meets the North Sea, and borders North Lincolnshire to the west and Lincolnshire to the south. North East Lincolnshire includes the port towns of Grimsby and Immingham, and the coastal resort of Cleethorpes, occupies a land area of approximately 192 square kilometres, with a resident population of just under 157,000 people according to the 2021 Census.



1.1.2. The port of Immingham attracts industrial investment and is the UK's largest port by tonnage. Grimsby has rich heritage and is known as Europe's food town, with the area being home to many food related companies and having one of the largest concentrations of food manufacturing, innovation, storage, and distribution companies in Europe. Tourists are attracted to the seaside resort of Cleethorpes, with visitors coming to enjoy the beach, the coastal nature reserve, or the more traditional resort offers.

1.1.3. North East Lincolnshire has significant economic opportunities since it is uniquely positioned to be at the centre of the growth in offshore wind and green energy industries due to factors such as its existing port infrastructure and its strategic location on the Humber estuary. Many businesses are based in the area including major national and international companies from a wide range of sectors, such as ports and logistics, renewable energy, chemical processing, food processing and manufacturing, health and care, the visitor economy, and services and retail. A wide range of programmes are in place to drive forward business and economic development locally, for instance Grimsby was the first town in the UK to secure a "Town Deal" with the Government.

1.1.4. The area is easily accessed by road being served by a comprehensive road network. A regular railway service operates into both Grimsby and Cleethorpes train stations. Humberside International Airport is only around 15 miles away and this offers frequent flights to other parts of the UK and to European centres.

1.1.5. For further statistics regarding North East Lincolnshire please visit the Authority's data observatory Link to the Data Observatory.

1.1.6. North East Lincolnshire priorities are: 'Stronger economy and stronger communities', in line with the Council Plan .

Invitation to Tender - Appendix B – Background NLC

Framework for the Installation and Maintenance of Road Lighting, Traffic Signs and Bollards for North East and North Lincolnshire Councils

YORtender Reference: 100182 FTS Reference: 2025/S 000-031840

Background

1. About North Lincolnshire

North Lincolnshire is a fantastic place to live and work. Home to just under 170,000 people, our population is set to grow by a further 4,000 over the next 20 years. 37,000 children and young people live in North Lincolnshire, who benefit from highly rated nurseries and schools as well as outstanding support.

The area has 76,000 homes situated across 86 settlements, from the busy urban centre of Scunthorpe to tranquil rural hamlets. There is a diverse range of housing with prices well below the national average.

Residents and visitors can enjoy extensive footpaths, cycleways, open spaces and 66 public gardens and parks. There are a wide range of sport and leisure facilities as well as cultural venues promoting local history and creativity.

Benefitting from fast and easily accessed transport networks, 5,800 businesses have set up in North Lincolnshire. Unemployment is low and 54% of local jobs are highly skilled. The area is also benefitting from Towns Fund investment that has already delivered improved access to gigabit broadband, a new urban park and solar panels for schools.

Life expectancy is improving, and our older population is growing faster than the national average. Over the next 20 years, we expect a 76 per cent rise in the number

of residents aged 85 and over. Our older residents that need support can expect high quality residential and home care provision.

The Council - We are a public body elected to serve the whole of North Lincolnshire. Currently the Council consists of:

- 43 elected members, representing 19 electoral wards across North Lincolnshire.
- Conservatives 27 seats.
- Labour 16 seats.

The role of North Lincolnshire Council is to work with you and our partners to:

- Lead the place of North Lincolnshire.
- Promote prosperity and wellbeing.
- Prevent harm.
- Protect the most vulnerable.

From social care to education, highways to waste collection and planning to trading standards, the work of the Council touches the lives of everybody, every day.

To achieve better outcomes for the people and place of North Lincolnshire we:

- Directly provide hundreds of essential local services.
- Jointly provide services with our partners.
- Buy support from organisations that have the right skills to provide on our behalf.

Strong Partnerships, Better Outcomes

As a leader of place, the council works alongside our partners to ensure we achieve our ambition.

- We work with the local NHS and social care services to promote good health and wellbeing for our residents and reduce health inequalities across North Lincolnshire.
- We collaborate with safeguarding agencies to make sure vulnerable adults and children are protected and feel safe.
- We join forces with parents, teachers and schools to raise educational standards and champion inclusion.
- We work with Humberside Police and probation partners to reduce crime and help people in North Lincolnshire stay safe.
- We work with businesses and housing providers to promote economic and housing growth in our area.
- We partner with local employers and training providers to ensure people have the skills they need to pursue their desired career paths.
- We work alongside the Environment Agency and water companies to manage flood risks and increase resilience to flooding.

Our values and culture

We maximise our impact by staying true to our values:

- Equality of opportunity so everyone can have a good quality of life
- Striving for excellence and high standards
- Using our resources wisely and with integrity
- Promoting self-responsibility and people having choice and control over their own lives.

Our organisational goals are to be:

- Progressive and enabling in our approach
- Financially and environmentally sustainable.

Priorities and Outcomes

North Lincolnshire **Council Plan** outlines our priorities and outcomes and provides a strong framework that guides activity across the Council.

Priority 1 – Keeping people safe and well

Priority 2 – Enabling resilient and flourishing communities

Priority 3 – Enabling economic growth and renewal

Priority 4 – Providing value for money for local taxpayers

Social Value Guidance Document

Appendix D

Introduction

North Lincolnshire Council (The Authority) is committed to a performance and evidence-based approach to Social Value. This approach enables meaningful direct action to be steered both by local need and by the overarching strategic aims of the council, for example, responsible organisations should consider demonstrating commitment in the following areas: implementing a fostering friendly scheme, being disability confident employers, corporate parenting to support looked after children, supporting volunteering, providing educational visits, offering work experience, employment opportunities and apprenticeships.

Within this tender process Tenderers are required to propose credible targets against our Themes, Outcomes and Measures (TOMs, Table 1), which reflects the council's plan vision and social value charter's priorities. None of the Social Value measures are mandatory and the proposal must be proportional to the overall contract value. This document outlines the Guidance and Evidence Requirements for all measures considered by the council.

Social Value offers should be made available to the local area. For the Authority, 'local' is defined as being within the North Lincolnshire Council area, as detailed in the map (ITT Section A, Section 1 Background). For assurance review the postcode checker to guarantee that your Social Value offer is within the North Lincolnshire area find local Council

Please review Table 1 below which outlines the Council's Themes, Outcomes and Measures examples which may contribute to those outcomes. Please choose 5 **outcomes** and identify the appropriate **measures** that your organisation is best placed to offer given the nature and value of the contract. Tenderers are not required to submit a Social Value offer against each **outcome,** only the first 5 of your submission will be evaluated. Please refer to ITT Section A for further instructions.

These **measures** are included in the tender since the Authority will request the successful Tenderer to submit social value delivery progress and reporting during the contract term.

The Authority recognises that measuring and delivering Social Value requires flexibility and a collaborative approach. As a result, agreed Social Value commitments may require a certain amount of refinement. A key requirement is the willingness of the contracting partner to work openly and transparently with the Authority, whilst bearing in mind that the overall value of Social Value commitments made must be delivered by the successful Tenderer during the initial term of the contract.

Tenderers are to make sure that they follow the guidance set out in this document including several Dos and Don'ts that apply to Social Value qualitative offers.

The Dos and Don’ts of how to submit a good Social Value offer.

Do report on Social Value activities/offers that will be delivered as a result of this contract.

Do ensure that Social Value targets are relevant and proportionate to this contract and are not based on any other projects, initiatives, or wider Corporate Social Responsibility.

Do ensure that you deliver locally. The definition of ‘Local’ has been set up as being within the Authority boundary. For assurance review the postcode checker to guarantee that your Social Value offer is within the North Lincolnshire area find local Council

Do ensure that you only include committed local spend in your supply chain. In committing to spending locally, you must only include spending that will result from being awarded this contract and can be influenced by the supply chains own spending decisions.

Do provide good descriptions and any relevant evidence of how you will deliver your Social Value offers. When making your Social Value offers you should include a description of how you intend to deliver this and any relevant evidence to support your target.

Do enter your Social Value offer for the initial term of the contract only i.e., not including any potential extension periods.

Do not double count. Delivery can only be evidenced through one measure.

Do not overclaim. Only report what is proportional and only capture your own contributions to a measure.

Do not include core requirements of the contract or “Business as Usual” as these cannot be counted as Social Value.

Do not over commit on your Social Value submission as the Authority will contractualise your commitments.

Table 1 Select 5 Outcomes and identify appropriate measures to support the outcomes

Themes	Outcomes	Measures
Enable all residents to benefit from growth and realise their full potential.	Young people and adults achieve their full potential, and their wellbeing is enhanced.	Improving skills and enhancing employment pathways.
	Health and wellbeing of residents is enhanced.	Enabling health and wellbeing improvement.
Create strong, proud, independent, cohesive and resilient communities.	Individuals and communities are stronger, more independent, cohesive and resilient.	Increasing the number of community groups, community engagement, participation and volunteering.
	Businesses have a more skilled workforce.	Increasing access to training opportunities.
	Pay and wider inequalities are reduced.	Addressing pay and other inequalities.
Make North Lincolnshire healthier, greener, cleaner and more sustainable.	A greener, cleaner, and more sustainable area.	Reducing waste and carbon emissions.
		Providing innovative measures to safeguard the environment and respond to the climate emergencies.
	Easier, safer, and sustainable transport.	Supporting North Lincolnshire Council environmental responsibilities.
Enhance the independence and wellbeing of vulnerable people.	Vulnerable people achieve their full potential, and their health, wellbeing and independence are enhanced.	Improving opportunities for vulnerable people.
	Carers are supported and their wellbeing and capacity for caring are enhanced.	Supporting carers.
	Care leavers are supported, and their wellbeing is enhanced.	Supporting care leavers.

Invitation to Tender

Section B – Scope Part B NELC

Framework for the Installation and Maintenance of Road Lighting, Traffic Signs and Bollards for North East and North Lincolnshire Councils

APPENDIX 0/0 – PREAMBLE TO THE SPECIFICATION FOR HIGHWAY WORKS

The Specification for Highway Works shall be further modified and extended by:-

i. For the purpose of this document Supplier will be defined as Contractor and Client's Service Manager(s) will be defined as Engineer.

ii. Appendix 0/1: Contract-specific Additional, Substitute and Cancelled Clauses and Tables;

iii. Appendix 0/2: Contract-specific minor alterations to existing Clauses and Tables

iv. The Numbered Appendices listed in Appendix 0/3;;

v. Appendix 0/5: Special national alterations of the Overseeing Department of Scotland, Wales or Northern Ireland.

3. The relevant publication date of each page of the Specification for Highway Works is given in the Schedule of Pages for Relevant Publication Dates.

4. An Additional Clause, as indicated by a suffix 'A' in Appendix 0/5 is an alteration originating from the Overseeing Department of Scotland, Wales or Northern Ireland. An Additional Clause as indicated by the suffix 'AR' in Appendix 0/1 is a Contract-specific alteration.

5. A Substitute Clause, as indicated by suffix 'S' in Appendix 0.5 is an alteration originating from the Overseeing Department of Scotland, Wales or Northern Ireland. A Substitute Clause as indicated by the suffix 'SR' in Appendix 0/1 is a Contract-specific alteration.

6. A Cancelled Clause, as indicated by suffix 'C' in Appendix 0.5 is an alteration originating from the Overseeing Department of Scotland, Wales or Northern Ireland. A Cancelled Clause as indicated by the suffix 'CR' in Appendix 0/1 is a Contract-specific alteration.

7. Insofar as any of the Numbered Appendices may conflict or be inconsistent with any provision of the Specification for Highway Works the Numbered Appendices shall always prevail. Additionally, Numbered Appendices 0/1 and 0/2 shall take precedence over Numbered Appendix 0/5.

8. Any reference in the Contract to a Clause number or Appendix shall be deemed to refer to the corresponding Substitute Clause number or Appendix listed in Appendix 0/1, 0/2 or 0.5.

9. Where a Clause is altered any original Table referred to in the Clause shall apply unless the Table is also altered. Where a Table is altered any reference in a Clause to the original Table shall apply to the altered Table.

10. Where a Clause in the Specification for Highway Works relates to work goods or materials which are not required for the Works it shall be deemed not to apply.

11. Any Appendix referred to in the Specification for Highway Works which is not used shall be deemed not to apply.

12. Where a Clause in the Specification for Highway Works is prefixed by an # this indicates that this particular Clause has a substitute National Alteration for one or more of the Overseeing Organisations of Scotland, Wales or Northern Ireland. Substitute or additional National Clauses shall be used within countries to which they specifically apply, and they are deemed to replace corresponding Clauses in the main text of the Specification for

Highway Works as appropriate. The substitute National Clauses are located at the end of the relevant Series together with the additional National Clauses of the Overseeing Organisations.

13. Other than where references to the Overseeing Organisation are made in the context of the Overseeing Organisation granting statutory or type approvals, the roles and functions of the Overseeing Organisation shall be undertaken by the Engineer.

Where the Specification for Highway Works requires the provision of documentation to the Overseeing Organisation for statutory or type approval such documentation shall be provided to the Client.

13. If the Specification for Highway Works is used in conjunction with a Contract under which the Contractor is responsible for the design of any part of the Permanent Works, the delegation of the roles and functions of the Overseeing Organisation as stated in paragraph 12 above shall be further amended as follows:

(i) If any agreement, consent or approval required to be obtained from the Overseeing Organisation impacts on the health and safety of the general public, the environment or any property or equipment not owned or operated by the Contractor, such agreement, consent, approval shall be obtained from the Client.

(ii) Where the Specification for Highway Works provides for the Overseeing Organisation to require a test, waive the requirement for a test or alter testing frequency, the party to whom the Overseeing Organisation's roles and functions have been ascribed by paragraph
12 above shall exercise such decisions in accordance with the Secretary of State's requirements stated in the Contract.

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
1200AR	**ROUTINE MAINTENANCE OF TRAFFIC SIGNS** 1. The routine maintenance, cleaning, electrical inspection and testing of Traffic Signs is separately specified in Series 2700, but any work carried out under Series 2700 shall also conform to the appropriate requirements of this Series 1200.
1300AR	**ROUTINE MAINTENANCE OF ROAD LIGHTING COLUMNS AND BRACKETS AND CCTV MASTS** 1. The routine maintenance, cleaning and electrical inspection and testing of Road Lighting Columns and brackets and CCTV masts is specified in Series 2700, but any work carried out under Series 2700 shall also conform to the appropriate requirements of this Series 1300.
1400AR	**ROUTINE ELECTRICAL MAINTENANCE, INSPECTION, CLEANING AND TESTING** 1. The routine maintenance, inspection, cleaning and testing of electrical equipment for Road Lighting and Traffic Signs is specified in Series 2700 but any work carried out under Series 2700 shall also conform to the appropriate requirements of this Series 1400.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2701AR	**CONTRACTORS OFFICE/DEPOTS** 1. The Contractor shall for the duration of the Contract, be required to provide at their expense a suitable operational Depot within the borough of North East Lincolnshire as outlined in **Appendix A** prior to the Contract Commencement Date. 2. The Depot shall consist of Office and Depot accommodation and must be suitable in every respect for the satisfactory delivery of the Contract. The following services must be provided: 2.1. Mains electricity supply 2.2. Mains water supply 2.3. Flush toilet 2.4. Washing facilities with constant hot water supply 2.5. Telephone (British Telecommunications or Virgin Media) 2.6. Facsimile 2.7. Access to internet web browser 2.8. Parking Facilities various Contractor's vehicles and or Visitors. 3. The Depot shall be of sufficient size to provide secure Office accommodation for Contractor office equipment, filing records systems, welfare facilities and storage for the Contractor's employees. A maximum of two workspaces for the Engineer is to be included and will be utilised as and when required. 4. The Depot shall consist of secure sufficient sized internal storage areas that will allow for safe keeping of Client Materials for use by the Contractor. An open but secure storage yard may be provided for the safe keeping of Lighting Columns, Traffic Signs and Bollards, sand/aggregate, large cable drums, etc. 4.1. The following estimated quantities listed below are the minimum requirements to be held at the Contractor's Depot at any one time to support delivery of the Contract: 320 LED Lanterns 150 Columns (various types and heights) 20 Traffic Sign posts 210 Traffic Sign plates (various sizes)

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	20 Traffic Bollards including bases 220 fixed illumination pieces and light strings 4.2. Upon termination of the Contract any remaining Client materials stored in the incumbent Contractor Depot become the property of the Client and will be required to be transferred the from the incumbent Contractor's Depot to the new Contractor's proposed depot. The cost of this requirement will be borne by the incumbent Contractor. 5. The Office accommodation shall be continually manned during 08:00 hours until 17: 00 hours Monday to Friday (**Normal Working Hours**). 6. The Contractor shall during **Normal Working Hours,** afford access to their premises to the Client's Service Manger(s) to consult with the Contractor or their employees on matters relating to the delivery and or any records relating to the Contract. 7. The Contractor shall provide a Contracts Manager (s) that will be based at the Depot for the exclusive and full time purpose of the delivery of the Contract. 7.1. The Contract Manager (s) shall: • hold a minimum Higher National Certificate in Electrical Engineering or equivalent • have adequate knowledge of operations to be carried out under the Contract, the methods and techniques involved, the hazards likely to be encountered, the methods of preventing accidents and be, in general, a competent person covering all the categories of The Highway Electrical Registration Scheme (HERS) to NHSS8. 8. The Contractor shall provide an Assistant Contacts Manager (s) who is based at the Depot has the capacity to deputise on behalf of the Contracts Manager (s), when absent, and assist the Contract Manager (s) as and when necessary. The Assistant Contacts Manager (s) will be required to hold the same requirements outlined in Section 7.1. 9. The Contactor shall provide a Supervisor that is based at the Depot to supervise the day to day contract activities of the Contractor's employees, and or sub-contractor. 10. The Contractor shall provide administration staff as and when required to support the delivery of Contractor's obligations under the Contract. These staff can be based from the Depot and or the Contractor's Head Office(s), all overhead costs associated with this requirement are to be included in the Contract Price at tender stage. 11. The Contractor must provide a mobile telephone communication system and

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	ruggedized handheld tablets that allows communication between the Contractor's Depot and the Contractor's vehicles. Both systems must be capable of providing satisfactory communication at any point in time across the borough North East Lincolnshire. 11.1. The ruggedized handheld tablets for all gangs shall: • have an operating system that is compatible Windows 10 or above • be fitted with a GPS HD camera that is capable of video calling • have either 3G,4G and or 5G WIFI connection 12. The cost of provision, installation, maintenance, rental licensing, training, and/or network fees will be borne by the Contractor. 13. The Contractor shall provide identity cards for each of their employees and those of their Sub-Contractors engaged upon the works delivered under the Contract. 13.1. The identity card shall include: • the name and address of their employer, • the name of the full name of their employee • their photograph 14. All Contractor's employees and sub-contractors engaged to undertaken works under the Contract shall: • be Competent Persons to NHSS8 • be trained to HESA (G39) certification and before commencing any works under the Contract, • receive instructions in safe working practices and electrical safety as required by the Client's Service Manager (s). • be classified as "Category 1" or "Category 2" on the "Competent Persons Authorisation Certificate" • hold a minimum Level 2 qualification in Electrotechnical Technology (City and Guilds 236 Part 1 Electrical Installation). • wear their identity cards in a prominent position at all times when engaged on the Contract. 15. All Contractor's employees and sub-contractors engaged to undertaken works under the Contract shall before commencing work on the site: • be at all times as clean and presentable as is practically possible. • wear clean approved reflective and fluorescent clothing approved by the Engineer. • where engaged on works within the Public Highway environment suitable and appropriate clothing is to be worn and all clothing clearly marked with the Contractor and or sub-contractors company name.

2702AR	**STANDBY ARRANGEMENTS** 1. The Contractor shall put in place such facilities as are necessary to be able to undertake **Emergency Works** within the response times specified in Appendix 1/13 Programme of Works - Emergency Works Table. 2. The Contractor's Depot shall allow for the Engineer or any duly appointed representative to be able to contact the Contractor's employees on a 24 hourly basis, so that the Contractor can meet their obligations under the Contract. 3. All telephone lines for this purpose shall be transferred to another local extension of the Contractor's own nomination, and the line is to be manned by a competent person, 17:00 until 08:00 hours Monday to Friday, 24 hours period that covers Saturday and Sunday, and Bank Holidays (**Outside Normal Working Hours**) in order to receive Emergency reports from the Engineer , members of the public, the Client's Security Department, Police, Emergency Services and or Statutory Undertakers. 4. The Contractor shall put in place an alternative communication system should the system referred to above be out of service or otherwise ineffective for a period of more than 12 hours. 5. **Emergency Works** may include any of the Works specified in Category 1 and Category 2, namely:- **<u>Category 1</u>** i. Lighting unit, lit Traffic Signs, lit Traffic Bollards, Pedestrian refuge and/or Crossing Posts, Feeder Pillars knocked down. ii. Brackets and/or luminaires hanging. iii. Doors off or missing. iv. Multiple lighting unit failures greater than 5 lamps. v. Reports of electrical shock from equipment. vi. Other immediately dangerous incidents. vii. As instructed by the Engineer. **<u>Category 2</u>** i. Bowls hanging.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	ii. Multiple road lighting unit failures less than 5 lamps. iii. Lighting unit, Lit Traffic Signs, Lit Traffic Bollards, Pedestrian refuge and/or Crossing Posts, Feeder Pillars leaning. iv. As instructed by the Engineer. 6. The Contractor shall ensure that there is a sufficient number of Contractor employees and or sub-contractors on stand-by at all times and if notified of an Emergency shall supply without delay such services as are necessary to undertake any **Emergency Works**. All Contractor vehicles shall be provided with communications facilities to ensure that a swift response to any Emergency can be made during **Outside Normal Working Hours** within 2 Hours (**Emergency Call Out Period).** 7. After any Emergency Call Out the Contractor shall complete a copy of the Contractor Callout Form contained in Appendix 12/71 or 13/71, and or their own alternative as approved by the Engineer as appropriate and submit to the Engineer along with photographic evidence via email, within 2 hours of the first attendance on site during **Normal Working Hours** and before 08.30 hours on the following working day **Outside Normal Office Hours.** An instruction will be issued for each Emergency Call Out and this shall cover remedial work where necessary. A permanent repair or replacement shall not be undertaken without instruction from the Engineer. 8. If the Contractor is called out under the stand-by arrangement to attend any damage to a Lighting unit, Lit Traffic Sign, Lit Traffic Bollard, Lit Belisha beacon or Centre Island Refuge beacon which necessitates **Emergency Works**, they shall restore the installation to full operational order or if this is not practicable they shall ensure that the installation is made safe without delay and shall remove all debris, and post warning lamps as necessary. Where a Column or part of a Column is removed leaving exposed the electricity cable and/or cut out, this shall be covered by a substantially constructed temporary enclosure suitably painted and bearing the legend “DANGER ELECTRICITY – LIVE CABLES”. 9. The Contractor shall ensure that where the underground cable is the responsibility of the District Network Operator (DNO), that the DNO representative has accepted responsibility for the site before the Contractor leaves the site. NB: The DNO for North East Lincolnshire is Northern Powergrid. 10. The Contractor employees and vehicle attending the Emergency Call Outs shall have adequate equipment, plant and expertise to effect **Emergency Works** until permanent repairs are carried out. 11. The Contractor will be required to provide the following information to

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	support the updating of the Client's Asset register as follows:- • All asset additions and/or changes will be updated on an agreed form by the Contractor and given to the Client within 48 hours of the completed works. • No less than 90% of all additions/changes must be supplied within 48 hours of the site work being undertaken

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2703AR	**COMPUTER EQUIPMENT** 1. Symology (the client's Software System) is a Cloud Hosted system which holds the following modules: • Works Management Module • Works Management Contractor Interface • SymPlanner • Mapping User 2. The Client will provide the Contractor with a tablet/ hand held device for the duration of the Contract. 3. The Client will provide the Contractor one initial user license to access the Client's software system. The cost the initial license and Annual Service Charge will be borne by the Client. 4. Should the Contractor require more than one user license during the Contract, the Contractor will have to request in writing to the Engineer the number of additional licenses. The Client will purchase the additional licenses required and recover these costs from the Contractor of the license. Any additional Annual Service Charges in relation to the additional license will be paid for by the Client and recovered from the Contractor . 5. The Contractor will nominate a Contractor Superuser for the Client's Service Software system and the Engineer will provide one full day's training on the system. The Contractor's Superuser will be responsible for training additional employees and or sub-contractors that are required to use the Client's software system. 6. The Contractor will be required to fulfil the following obligations in respect of Client's Software System : • Have suitable ICT hardware to operate the Client's Software System • Have the preferred remote desktop software Citrix Terminal Server and or equivalent in order to access the Client's Software System • Provide daily updates in respect of job progression, condition reports etc. • Submit financial claims for completed works • Maintain and update Street Works Notices • Update the Client's Asset Register and cyclic activities • Provide reports arising from night time inspections etc. • Internet access 7. There will be a requirement for the Contractor to operate mobile data capture devices. Any costs relating to all training shall be included within their tender.

Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2705AR	**PROVISION OF LIGHTING AND/OR CABLING DESIGN SERVICES** 1. Any of the Contractor's employees and or sub-contractors who are to be engaged to undertake any design works under the Contract shall, prior to undertaking the design works: • have attended the Lighting Design course modules delivered by the Institution of Lighting Professionals (ILP), and or similar approved design courses. • Be able to demonstrate a minimum of 5 years appropriate lighting and cable design experience • Hold a G39 certification. • meet the requirements detailed in the ILP Competency Requirements for Lighting Design Staff Highway Lighting Design Implementation. 2. The Designer will undertake a site survey. 3. The Designer will obtain and collate Statutory Undertakers plant locations. 4. The Designer will design drawings will show new Column locations, existing Columns to be removed, details and routes of private cable, if required. However, if no cabling is shown this will denote a single phase DNO supply. Drawings will also be produced for all electrical details such as feeder pillars, wiring schematics and termination details. Drawings will also show setting out details. To include: • Position and plan number of Columns • Bracket arm and luminaire orientation. 5. The Designer will provide design and calculations for luminance-based designs for each lighting system in the form of an output report from the design software. Illuminance/luminance levels will be provided in the form of either an output report from an approved design software or by drawing. CAD-based design software should be used to show isolux footprints depending on the complexity of the design area. 6. The Designer will provide details of any attachments to be re-installed will be identified in a schedule. The schedule will identify the attachment and the Column number to which it is to be attached. Cable design calculations shall fully comply with BS 7671 7. Upon completion of the design a Scope Document will be produced by the Designer detailing all equipment required to install the design on site and will include a setting out schedule detailing; • Column setbacks.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clauses, Tables and Figures:

	• Mounting height • Bracket Projections • Bracket position • Spigot position • Luminaire angle • Lantern type • Type of optical control • Lamp holder/reflector position. • Maintenance Factor used 8. A Price List will also be produced to allow for accurate pricing by the Contractor. 9. A design risk assessment shall be produced by Designer. 10. Design information to be submitted to Client for approval 11. Respond to all comments from Client and amend submission as required.
2706AR	**NUMBERING OF ROAD LIGHTING UNITS, LIT TRAFFIC SIGNS, BOLLARDS AND FEEDER PILLARS.** 1. The apparatus to be numbered and/or renumbered will be identified by the engineer and a drawing and/or schedule issued to the contractor. The numbering shall fully comply with the requirements of Series 1300 Clause 1304 and Drawing Ref No SL/CD0036. 2. To number or renumber apparatus the Contractor shall:- (i) Clean down the area (as agreed with the Engineer) to which the number is to be applied and/or remove existing number. (ii) Apply number in position as agreed with the Engineer and as per Drawing Ref No SL/CD0036. (iii) Ensure any surplus materials are removed from site and disposed of in the appropriate manner. The Works Order, issued by the Engineer giving details of the number to be applied to each item of equipment, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2707AR	**NIGHT PATROL INSPECTION ROUTE** 1. The Client shall submit to the Contractor for their acceptance a night patrol inspection route . The night patrol inspection system shall:- (i) be accepted by the Contractor in sufficient time to allow for all of the procedures specified in this Clause to be completed so that the accepted night patrol inspection route shall be operational at contract commencement. (ii) include for the systematic inspection and verification of the existence and condition of every Lighting Unit and enable all Unit Failures to be identified, on specified Traffic Sign Routes supplied by the Engineer (iii) ensure that every Lighting Unit will be inspected and verified at intervals of not less than 18 per year 1 per Summer months 2 per winter months. (iv) be commenced between 30 minutes and 90 minutes after sunset (v) include for the Contractor's vehicle to be fitted with a GPS tracking system and a roof mounted amber flashing beacon. The vehicle shall display prominent 'STREET LIGHTING SCOUTING' stickers in the rear window. (vi) include for all night patrol inspection personnel to wear high visibility jackets or vests. (vii) include any risk assessment and method statements to comply with the requirements of the Contract and any relevant legislation. 2. The Contractor shall commence the night patrol inspection system on Contract commencement and thereafter maintain the night patrol inspection system in accordance with the proposals, or as modified or adjusted under sub-clause 5 of this clause, for the duration of the Contract. 3. From time to time the Engineer may require the Contractor to modify or adjust the accepted night patrol inspection system to take account of any additions or modifications to the Lighting Units. 4. The Contractor shall commence the modified or adjusted night patrol inspection route as soon as practical after the Engineer requirement under clause V above of this clause and provide the Engineer with details of the modifications or adjustments within 14 days of commencing the modified or adjusted night patrol inspection system. 5. All Unit Failures identified on night patrol inspections shall be checked for accuracy by the Contractor and submitted to the Engineer electronically no later than 9.30 a.m. of the day following the commencement of the night patrol inspection. The report shall be clearly printed in block capitals

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Clause No.	**Title and Written Text**
2708AR	Not Used
2709AR	**EQUIPMENT GUARANTEE** 1. All lamps and control gear to be incorporated into the Works shall be covered by an Equipment Guarantee of 24 months and in the event of failure during the Defects Correction Period applicable to the Works. 2. All LED road lighting Lanterns and control gear to be incorporated into the Works shall be covered by an Equipment Guarantee of 10 years and in the event of failure during the Defects Correction Period applicable to the Works. 3. In order to facilitate prompt removal and replacement of the failed Lanterns/components, the Contractor shall inform the Engineer as soon as possible after they become aware of such a failure.
2710AR	**NOTIFICATION OF UNIT FAILURES BY CUSTOMER REPORTS** 1. From time to time the Engineer receives reports of defective Street Lights and items of Illuminated Street Furniture from members of the public and other sources. These customer reports will be logged by the Engineer and ordered with the Contractor through the Client's Software System each working day. 2. Work required as a result of these reports to the Engineer will be instructed under Clause 2711.
2711AR	**INSTRUCTING WORK ON THE BASIS OF THE NIGHT PATROL INSPECTION REPORT AND CUSTOMER REPORTS** 1. The Engineer will instruct the Contractor to carry out any work considered necessary as a result of the matters identified in the report submitted in accordance with Clause 2707 AR and those identified in the customer reports referred to in Clause 2710 AR. The instructions will be issued the same day as the report under Clause 2707 AR is received and on the same day as the customer reports are ordered through the Client's Software System to the Contractor. 2. The day of the Engineer instructions under sub- Clause I above of this clause will be the first day of the period specified for completion of each activity stated in Appendix 1/13.

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2712AR	**DAMAGE TO THE HIGHWAY AND ADJACENT PROPERTY** 1. The Contractor shall satisfy themselves as to the condition of the public highway, any private accesses, drives, footways, walls, fences and adjacent property before commencing work on a Site and shall report any defects to the Engineer, along with photographs of those defects. 2. The Contractor's attention is drawn to their obligations and responsibilities under the contract.
2713AR	**CONTRACTOR'S MANAGEMENT CONTROL** Refer to ITT Section B Scope Section 5 Contract Management
2714AR	**AVERAGE REPAIR TIMES REPORTING** 1. For the purposes of monitoring their performance and reporting to the Engineer, the Contractor shall follow the procedure below: (i) The Client's Software System specified in Clause 2703 AR will be provided, installed and tested prior to the commencement of the operational works (ii) The time and date of each instruction issued in accordance with Clause 2711 AR will be automatically recorded by the software specified in Clause 2703 AR. (iii) The Contractor shall input into the software the date on which the repair was completed. (iv) The Contractor shall input into the 'Reporting and Grouping' section of the software the first and last day of the appropriate month and run the programme to produce the following information relevant to that month: (a) total number of jobs issued (b) total number of jobs completed (c) average repair time in days (d) total number of jobs outstanding (e) breakdown of jobs issued

	1. Where the Contractor has proposed a variation to a Works Order which results in a detriment in terms of costs, time delays and any consequent costs incurred by the Client resulting from the delays, will be at the Contractor sole risk, unless apportioned costs have previously been agreed. 2. Where the Client has proposed a variation to a Works Order which results in a detriment in terms of costs, time delays and any consequent costs incurred by the Contractor resulting from the delays, will be at the Client's sole risk, unless apportioned costs have previously been agreed.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2716AR	**INSTALLATION / REMOVAL OF BANNERS** 1. The Contractor shall at the request of the Engineer collect banners from a designated store and deliver to site. 2. The Contractor shall visually inspect the banner and report any defects to the Engineer. 3. The Contractor shall provide access equipment appropriate to the task. 4. The Contractor shall visually inspect the banner mounting points and report any defects to the Engineer. 5. The Contractor shall install/remove banners using suitable fixtures and fittings. 6. The Contractor shall at the request of the Engineer remove banners from site and return to designated store.
2717AR	**INSTALL WEATHERPROOF PLUG/SOCKET ARRANGEMENT FOR ANCILLARY EQUIPMENT** 1. The Contractor shall at the request of the Engineer install weatherproof plug/socket arrangement at high level to designated road lighting unit. 2. The Contractor shall provide a 200-250v IP rated 'Commando' type plug/socket arrangement suitable for an external environment. 3. The Contractor shall provide access equipment appropriate to the task. 4. The Contractor shall visually inspect the road lighting unit and report any defects to the Engineer. 5. The Contractor shall provide and install a 2 way double pole isolator in the base of the road lighting unit. 6. The Contractor shall securely attach all access doors to the Column before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days.
2718AR	**COMMUNICATION SYSTEM FOR THE CONTRACTOR AND EMERGENCY RESPONSE**

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	1. The Contractor shall ensure that his offices are manned during **Normal Working Hours** in order to receive reports and instructions from the Engineer. The offices shall be provided with two direct telephone lines for this purpose, (Mobile phones will be acceptable for this purpose), and one of which shall be used only for the receipt of instructions which require a swift response to an Emergency. The Contractor shall ensure that the telephone line for the receipt of instructions which require a swift response has an operator at all times within **Normal Working Hours** and does not rely upon an answer machine or the like. 2. The Contractor shall ensure that their employees, and or authorised agent or representative can be contacted at all times during **Normal Working Hours** by the Engineer. 3. The Contractor shall set up and operate an effective communication system for communication with their employees and sub-contractors engaged on the Works and with their authorised agent or representative. 4. The Contractor shall ensure that the communication systems referred to in sub- clauses 1 to 4 above are in operation on the Contract Commencement Date and are maintained in a serviceable condition throughout the Contract. Should breakdowns or failures occur they shall be rectified within 4 hours of these becoming apparent 5. Emergency Response i. Outside **Normal Working Hours** the Contractor shall ensure that an effective means of providing Emergency attendance is provided to the satisfaction of the Engineer. ii. Outside **Normal Working Hours** the Contractor shall respond to any request for Emergency assistance from the Police, Fire Services or other persons authorised by the Engineer. iii. The Contractor shall arrive at the site of the Emergency within the **Emergency Call Out Period** for very urgent safety hazards and within 24 hours for other emergencies. 6. Night Patrol Inspection Route The Contractor to ensure a lone working and communications system is in place during night time patrol inspections. Lone Working Risk Assessment to be supplied to the Engineer.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2719AR	**NOT USED**
2720AR	**VERTICAL REALIGNMENT TRAFFIC SIGNS** 1. After supporting the post, the Contractor shall carefully excavate by hand in any material, round the lighting unit to below the cable entry, to the existing concrete foundation. Care must be taken during the excavation not to damage the electricity supply cable or any other services that may be present. Should any damage be caused to any of the cables or services during the works then the Contractor will contact the relevant utility company to arrange for repair and advise the Client of their actions. 2. After vertical realignment the hole shall be backfilled and compacted ensuring that any void between the existing concrete foundation and the surrounding ground has been filled and compacted. 3. The Contractor shall be responsible for making good any damage to the post or its protective system caused during the operation. 4. The Works Order, issued by the Engineer giving details of each vertical realignment, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer. The completed forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the work.
2721AR	**INSTALLATION OF TRAFFIC SIGN POST** 1. The installation of Traffic Sign post shall fully comply with the requirements of this Series, the appropriate Clause of Series 1200 but shall not include for the supply of the Traffic Sign post and any electrical works. 2. The Works Order, issued by the Engineer giving details of each Traffic Sign post installed, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer. The complete forms shall be returned by the Contractor to the Engineer at daily intervals not more than one week after the completion time stated in Appendix 1/13.
2722AR	**INSTALLATION OF TRAFFIC SIGN PLATE** 1. The installation of Traffic Sign plate shall fully comply with the requirements for this series, the appropriate Clause of Series 1200 but shall not include for the supply of the sign plate, sign post and any electrical work.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2723AR	**VERTICAL REALIGNMENT LIGHTING COLUMNS** 5. After supporting the Column, the Contractor shall carefully excavate by hand in any material, round the lighting unit to below the cable entry, to the existing concrete foundation. Care must be taken during the excavation not to damage the electricity supply cable or any other services that may be present. Should any damage be caused to any of the cables or services during the works then the Contractor will contact the relevant utility company to arrange for repair and advise the Client of their actions. 6. After vertical realignment the hole shall be backfilled and compacted ensuring that any void between the existing concrete foundation and the surrounding ground has been filled and compacted. 7. The Contractor shall be responsible for making good any damage to the Column or its protective system caused during the operation. 8. The Works Order, issued by the Engineer giving details of each vertical realignment, shall be signed by the Contractor indicating the completed work prior to being return to the Engineer. The completed forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the work.
2724AR	**INSTALLATION OF LIGHTING COLUMN AND BRACKET** 1. The installation of lighting Column and bracket shall fully comply with the requirements of this Series and the appropriate Clauses of Series 1300, but shall not include for the lighting Column, bracket arm and any electrical work. 2. The Works Order, issued by the Engineer giving details of each lighting Column and bracket installed, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer. The completed forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the work.
2725AR	**INSTALLATION OF LUMINAIRE, ASSOCIATED ELECTRICAL EQUIPMENT AND WIRING**

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	1. The installation of luminaire and associated electrical equipment only shall fully comply with the requirements of this Series and the appropriate clauses of Series 1200, 1300 & 1400 but shall not include for the luminaire, photo cell, Column, bracket and foundation. 2. The Contractor shall carefully remove to store any items of equipment instructed by the Engineer. 3. The Contractor shall ensure that the access doors to the Column are securely attached before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 4. The Works Order, issued by the Engineer giving details of each luminaire and associated electrical equipment installed, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer. The completed forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the works.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2726AR	**INSTALLATION OF PHOTO ELECTRIC CELL UNIT/CMS Node** 1. The installation of photo electric cell unit shall fully comply with the requirements of this Series and Series 1400 and amendments as specified in the Contract but shall not include for the photo cell.
2727AR	**CONVERSION TO CMS FROM PHOTO ELECTRIC CELL CONTROL** 1. The luminaires to be converted will be identified by the Engineer and a drawing and/or schedule issued to the Contractor. The conversion to photo electric cell shall fully comply with the requirements of this series and series 1400 and amendments as specified in the contract but shall not include for the photo electric cell. 2. To convert an existing lighting unit to CMS from photo electric cell control the Contractor shall:- i. Isolate the supply and disconnect the luminaire feed ii. Remove the redundant Photo Cell iii. Drill the luminaire canopy (in a position agreed with the Engineer) to receive the CMS Node. iv. Make the necessary electrical connections to the control gear and CMS Node. v. Securely attach all access doors to the Column before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 3. The Works Order, issued by the Engineer giving details of each photo electric cell installed, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer. The completed forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the works.
2728AR	**CONVERSION OF LANTERN ON EXISTING UNITS** 1. The conversion of Lantern on existing unit shall fully comply with the requirements of this series and the appropriate Clause of Series 1200, 1300 and 1400 but shall not include the supply of the luminaire. 2. The Contractor shall carefully remove the existing Lantern, remote control gear (if any) and cabling.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	3. The new luminaire shall be installed in accordance with the manufacturer's instructions, ensuring that the fixing bolts are all mechanically tight and the agreed vertical, horizontal alignments and optical systems are correctly orientated and adjusted towards the road.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2729AR	**NOT USED**
2730AR	**UNDERGROUND CABLE REPAIRS** 1. The Contractor shall on the instruction of the Engineer undertake repairs to privately owned underground cables. 2. The Contractor shall supply all specialist equipment and expertise to identify a cable fault and its location prior to excavation on site. If the Contractor is unable to satisfy themselves as to the exact location of the fault or can find no evidence of damage at the first excavation he shall immediately notify the Engineer who may then specify the method and extent of the repair to be carried out. 3. The Contractor shall not make any attempt to “burn down” the fault by enlarging any circuit protection devices other than under the direction of the Engineer. 4. The Contractor shall notify the Engineer of the location and nature of the fault and shall limit their repair to the replacement of damaged or faulty cut outs and a repair with a single joint or replacing a 5 metre (maximum) length of damaged or faulty cable (two joints required). No more extensive repair shall be undertaken without the prior agreement of the Engineer. Once the location of the fault has been agreed, the Contractor shall excavate in any material to expose the cable, taking care not to damage the cable or other services that may be present. 5. Joints shall be in accordance with the Electricity at Work Regulations 18th Edition, and any other updated Editions that supersede the current edition. 6. All replacement cables shall be of the same type, configuration and capacity as the damaged cable unless agreed in writing by the Engineer prior to installation. Preference shall be given to the use of XLPE/SWA/PVC cables in accordance with the Electricity at Work Regulations 18th Edition, and any other updated Editions that supersede the current edition. 7. The Contractor shall ensure that the access doors to the feeder pillars are securely attached before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 8. The Contractor shall submit to the Engineer within 5 working days of the underground cable repair a report detailing the works carried out together with a 1:1250 scale site location plan identifying the repair.

2731AR	**PROVING ELECTRICAL INTEGRITY OF INTERNAL WIRING AND ASSOCIATED ELECTRICAL EQUIPMENT OF ROAD LIGHTING, LIT SIGN UNIT AND FEEDER PILLAR IN ACCORDANCE WITH BS 7671** 1. The Contractor will be instructed by the Engineer as and when to carry out the proving electrical integrity to a Road Lighting, lit sign unit and feeder pillar. 2. The Contractor shall undertake the proving of electrical integrity of internal wiring of individual feeder pillars to coincide with the routine maintenance programme. 3. Inspection and proving of the installation shall be carried out in accordance with the Electricity at Work Regulations 18th Edition, and any other updated Editions that supersede the current edition and the following:- i. For lighting and sign units (b), (d), (f), (g), (h) apply 4. The Contractor shall ensure that the access doors to any Columns are securely attached before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In a situation where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 5. The Works Order, issued by the Engineer giving details of each Road Lighting, lit sign unit and feeder pillar to be tested, shall be signed by the Contractor indication the completed work prior to being returned to the Engineer. The completed forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the works.
2732AR	**PROVING ELECTRICAL INTEGRITY OF UNDERGROUND CABLE NETWORKS IN ACCORDANCE WITH BS 7671** 1. The Contractor will be instructed by the Engineer as and when to carry out proving electrical integrity on an underground cable network. 2. Inspection and proving of the cable network shall be carried out in accordance with the Electricity at Work Regulations 18th Edition, and any other updated Editions that supersede the current edition and the following:- i. For networks (b), (c), (e), (f), (g), (h), (j) apply 3. The Contractor shall ensure that the access doors to the Road Lighting, lit sign unit and feeder pillar are securely attached before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In

	situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 4. The unscheduled repair Works Order, issued by the Engineer giving details of each Road Lighting, lit sign unit and feeder pillar tested, shall be signed by the Contractor indicating the completed work prior to being returned to the Engineer. The completed Client forms shall be returned by the Contractor to the Engineer at daily intervals on completion of the works.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2733AR	**DOUBLE POLE ISOLATION** 1. The installation of double pole isolator shall fully comply with the requirements of this section and amendments as specified in the Contract but shall not include for the supply of the double pole isolator as defined in Appendix 14/4. 2. A double pole 32 amp “lock off” isolator complete with BS88-1:2007 fuse shall be provided in the base compartment of all new and or replacement lighting units and lit Traffic Sign units.
2734AR	**ERECTION , TESTING AND REMOVAL OF SEASONAL LIGHTING** 1. The Contractor shall store all seasonal lighting at their depot. 2. The Contractor shall 2 months prior to required installation date visually inspect seasonal lighting for signs of damage in the store. 3. The Contractor shall electrically test (continuity, insulation resistance and lamp failures) seasonal lighting equipment. 4. The Contractor shall advise the Client of all damage faults found during inspection/test, the Client to arrange for repair or replacement of any fixed illuminations reported by Contractor. 5. The Contractor shall replace all faulty lamps, lamps to be provided free issue by the Client , lamps located in store. 6. The Contractor shall on installation date, deliver seasonal lighting to sites within the borough of North East Lincolnshire. 7. The Contractor shall visually inspect any existing Columns, poles or brackets/band prior to installation, any observations to be reported to the Client for repair/replacement as required by others. 8. The Contractor shall electrically test and visually inspect all on site electrical equipment prior to installation and connection of festive lighting and report findings to the Client . 9. The Contractor shall install seasonal lighting to existing Column, pole or brackets/band. 10. The Contractor shall electrically connect and make live seasonal lighting. 11. The Contractor shall test installation and provide test certificate. 12 The Contractor shall, when notified by the Client , take down, label up with location details all seasonal lighting, and store safely.

2735AR	**ROUTINE MAINTENANCE OF LIT TRAFFIC SIGNS, BOLLARDS AND BEACONS** 1. The frequency of routine maintenance shall be in accordance with the requirements of Appendix 1/13. 2. The sign face shall be thoroughly cleaned using water and a suitable detergent as shall all photo-electric cell control units, inside and outside of luminaires, refractors, reflectors and other components which effect the optical performance of the luminaire. The sign identification number shall also be cleaned. The complete exterior of lit Traffic Bollards, Pedestrian refuge and/or Crossing Globes shall likewise be thoroughly cleaned using water and a suitable detergent. No abrasives or abrasive powder shall be used. Luminaires, lamps and associated optical components shall be left in correct adjustment after cleaning. At every routine maintenance visit every lit Traffic Sign shall be checked for correct operation. 3. The base compartment or cable termination box of each lit Traffic Sign, pedestrian refuge and/or crossing globe shall be thoroughly cleaned out by means of a dry brush and cloth taking care not to damage any equipment contained therein. 4. All switched services provided by the DNO, 5th core network or switch wire will be apparently dead during daylight hours. The Contractor should determine whether fault equipment is fed by this method and ensure that isolation and energisation is under their direct control before working on the installation. 5. During Routine Maintenance the Contractor shall:- i. Carry out a thorough inspection of each lit Traffic Sign, lit Traffic Bollard, pedestrian refuge and/or crossing globe. ii. Examine, tighten and lubricate all grub screws, screws and locking devices. iii. Align the sign face and luminaires with respect to the road and adjust as necessary. iv. Examine all lit Traffic Sign, lit Traffic Bollard, pedestrian refuge and/or crossing posts for any corrosion to metal post, brackets, luminaires, control gear and doors and for the deterioration of internal wiring insulation. v. Operate and lubricate all toggles, wing nuts, hinges, door locks, raising and lowering gear and other moving parts. vi. Examine all electrical terminations for signs of corrosion, condensation, fracture or tracking and shall renew or clean as necessary and grease. Special attention shall be paid to

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	aluminium cable terminations in respect of relaxation and high resistance contact. vii. Test photo-electric control units for correct operation. Test and adjust time switches for correct settings and operation. viii. Replace any faulty electrical components in accordance with Clause 2739. All replacements shall be of the correct type, rating and characteristics and shall be fully compatible with all other circuit components, in accordance with the schedules contained in the contract. The contractor shall label any faulty component to indicate the unit number and date of removal and store for 30 days to enable inspection by Engineer. ix. Replace damaged or missing luminaire bowls with units of the correct type and size. x. Securely attach all access doors to the post before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 6. The Contractor shall submit to the Engineer within 5 working days of the routine maintenance a list of all structural defects and any other defects which have not been rectified and which require further attention, along with identified photographic evidence of each defect. 7. The Contractor shall update the Asset Register of any changes/discrepancies. 8. At the commencement of the Contract, the Contractor will arrange, in the presence of the Engineer, for their maintenance crew to maintain five lit Traffic Signs and five lit Traffic Bollards in order to establish and agree the standard and quality of service required by the Engineer. The level of performance established will be used as a reference for all future operations of this type.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2736AR	**UNSCHEDULED MAINTENANCE LIT TRAFFIC SIGN, BOLLARDS AND BEACONS** 1. The frequency of unscheduled maintenance shall be in accordance with the requirements of Appendix 1/13. 2. The sign face shall be thoroughly cleaned using water and a suitable detergent as shall all photo-electric cell control units, inside and outside of luminaires, refractors, reflectors and other components which effect the optical performance of the luminaire. The sign identification number shall also be cleaned. The complete exterior of lit Traffic Bollards, Pedestrian refuge and/or Crossing Globes shall likewise be thoroughly cleaned using water and a suitable detergent. No abrasives or abrasive powder shall be used. Luminaires, lamps and associated optical components shall be left in correct adjustment after cleaning. At every maintenance visit every lit Traffic Sign shall be checked for correct operation. 3. The base compartment or cable termination box of each lit Traffic Sign, pedestrian refuge and/or crossing globe shall be thoroughly cleaned out by means of a dry brush and cloth taking care not to damage any equipment contained therein. 4. All switched services provided by the DNO, 5th core network or switch wire will be apparently dead during daylight hours. The Contractor should determine whether fault equipment is fed by this method and ensure that isolation and energisation is under their direct control before working on the installation. 5. During Unscheduled Maintenance the Contractor shall:- i. Carry out a thorough inspection of each lit Traffic Sign, lit Traffic Bollard, pedestrian refuge and/or crossing globe. ii. Examine, tighten and lubricate all grub screws, screws and locking devices. iii. Align the sign face and luminaires with respect to the road and adjust as necessary. iv. Examine all lit Traffic Sign, lit Traffic Bollard, pedestrian refuge and/or crossing posts for any corrosion to metal post, brackets, luminaires, control gear and doors and for the deterioration of internal wiring insulation. v. Operate and lubricate all toggles, wing nuts, hinges, door locks, raising and lowing gear and other moving parts. vi. Examine all electrical terminations for signs of corrosion, condensation, fracture or tracking and shall renew or clean as necessary and grease.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	Special attention shall be paid to aluminium cable terminations in respect of relaxation and high resistance contact. vii. Test photo-electric control units for correct operation. Test and adjust time switches for correct settings and operation. viii. Replace any faulty electrical components in accordance with Clause 2739. **(Please note that the cost of the faulty components and their installation is measured separately in the Schedule of Rates)**. All replacements shall be of the correct type, rating and characteristics and shall be fully compatible with all other circuit components, in accordance with the schedules contained in the contract. The Contractor shall label any faulty component to indicate the unit number and date of removal and store for 30 days to enable inspection by Engineer. ix. Replace damaged or missing luminaire bowls with units of the correct type and size. x. Securely attach all access doors to the post before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 6. The Contractor shall submit to the Engineer within 5 working days of the routine maintenance a list of all structural defects and any other defects which have not been rectified and which require further attention. 7. The Contractor shall update the Asset Register, via the mobile device, with any changes or discrepancies 8. At the commencement of the Contract, the Contractor will arrange, in the presence of the Engineer, for their maintenance crew to maintain five lit Traffic Signs and five lit Traffic Bollards in order to establish and agree the standard and quality of service required by the Engineer. The level of performance established will be used as a reference for all future operations of this type.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2737AR	**UNSCHEDULED MAINTENANCE OF ROAD LIGHTING UNIT** 1. Unscheduled maintenance shall be in accordance with the requirements of Appendix 1/13. 2. All photo-electric cell/CMS control units, inside and outside of luminaires, refractors, reflectors and other components which effect the optical performance of the luminaire shall be thoroughly cleaned, as shall the exterior surface of the luminaire body, using water and a suitable detergent. The Column identification number shall also be cleaned. No abrasives or abrasive powder shall be used. Luminaires, lamps and associated optical components shall be left in correct adjustment after maintenance. . 3. The base compartment of the light unit and/or wall/pole mounted termination/control gear compartments shall be thoroughly cleaned out by means of a dry brush and cloth taking care not to damage any equipment contained therein. 4. All switched services provided by the DNO, 5th core network or switch wire will be apparently dead during daylight hours. The Contractor should determine whether faulty equipment is fed by this method and ensure that isolation and energisation is under their direct control before working on the installation. 5. Lamp replacement (if deemed to be faulty) as required by Appendix 1/13 shall be carried out during maintenance visit in accordance with the schedule contained in the Contract. The Contractor shall indelibly mark each lamp with the month and year to indicate the date it is put into use whether at group lamp replacement or individual replacement on a repair visit. 6. During Unscheduled Maintenance visit the Contractor shall:- i. Carry out a thorough inspection of each Road Lighting unit. ii. Examine, tighten and lubricate all grub screws, screws and locking devices. iii. Align luminaires with respect to the road and adjust as necessary. iv. Examine all Columns for any corrosion to metal post, brackets, luminaires, control gear and doors and for the deterioration of internal wiring insulation. v. Operate and lubricate all toggles, wing nuts, hinges, door locks, raising and lowering gear and other moving parts. vi. Examine all electrical terminations for signs of corrosion,

	condensation, fracture or tracking and shall renew or clean as necessary and grease. Special attention shall be paid to aluminium cable terminations in respect of relaxation and high resistance contacts. vii. Test photo-electric/cms control units for correct operation. Test and adjust time switches for correct settings and operation. viii. Replace any faulty electrical component in accordance with Clause 2739. **(Please note that the cost of the faulty components and their installation is measured separately in the Schedule of Rates)**. All replacements shall be of the correct type, rating and characteristics and shall be fully compatible with all other circuit components, in accordance with the schedules contained in the contract. The Contractor shall label any faulty component to indicate the unit number and date of removal and store for 30 days to enable inspection by Engineer. ix. Replace damaged or missing luminaire bowls with units of the correct type and size. x. Securely attach all access doors to the post before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 7. The Contractor shall submit to the Engineer within 5 working days of the unscheduled maintenance a list of all structural defects and any other defects which have not been rectified and which require further attention. 8. The Contractor shall update the Asset Register, via the mobile device, with any changes or discrepancies. 9. At the commencement of the Contract, the Contractor will arrange, in the presence of the Engineer, for their maintenance crew to maintain five Columns in order to establish and agree the standard and quality of service required by the Engineer. The level of performance established will be used as a reference for all future operations of this type.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2738AR	**UNSCHEDULED MAINTENANCE OF FEEDER PILLAR** 1. Unscheduled maintenance shall be in accordance with the requirements of Appendix 1/13. 2. All photo-electric cell control/cms units and the feeder pillar identification number shall be thoroughly cleaned using water and a suitable detergent. No abrasives or abrasive powder shall be used. Photo cells and contactors shall be tested for correct operation and left in full working order after a maintenance visit. 3. The interior of the feeder pillar shall be thoroughly cleaned out by means of a dry brush and cloth taking care not to damage any equipment contained therein. 4. During maintenance visit the Contractor shall:- i. Ensure that the access path and doors to the feeder pillar are clear prior to commencing works. ii. Carry out a thorough inspection of each feeder pillar, take internal and external photographs of the feeder pillar and upload to the Client's Software System via a mobile device. iii. Examine, tighten and lubricate all grub screws, screws and locking devices. iv. Examine the feeder pillar for damage and signs of any corrosion to metal feeder pillars, control gear and doors, for excessive wear and tear and for the deterioration of internal insulation. v. Operate and lubricate all toggles, wing nuts, hinges and door locks. vi. Examine all electrical terminations for signs of corrosion, condensation, fracture or tracking and shall renew or clean as necessary and grease. Special attention shall be paid to aluminium cable terminations in respect of relaxation and high resistance contacts. vii. Test photo-electric control units for correct operation. Test and adjust time switches for correct settings and operation. viii. Check holding down bolts for all feeder pillars as necessary. Remove the protection against corrosion system, check the torque setting of the bolts slacken and re-torque as necessary in accordance with the manufacturer's directions or as advised by the Engineer. Re-new the protection against corrosion system using new cold applied petrolatum-based tape containing a flexible synthetic fabric carrier.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	ix. The Contractor shall ensure that the access doors to the feeder pillar are securely attached before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 5. The Contractor shall submit to the Engineer within 5 working days of the maintenance visit a list of all structural defects, along with of any other defects which have not been rectified and which require further attention. 6. The Contractor shall verify that the record data for each feeder pillar on the schedule issued by the Engineer is correct. The Contractor shall update the Asset Register, via the mobile device, with any changes or discrepancies. 7. During the maintenance visit the Contractor shall:- i. Report on the proforma contained in Appendix 14/70 (or similar type form provided by the Contractor). Replace any failed or faulty electrical component affecting the operation of the feeder pillar and report on the appropriate Works Order.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2739AR	**INSTALL COMPONENT ON ROAD LIGHTING UNIT, FEEDER PILLAR, LIT TRAFFIC SIGN, BOLLARDS AND BEACONS** 1. All defects reported to the Contractor by the Engineer shall be rectified in accordance with the requirements of Appendix 1/13. 2. During rectification of repairs the Contractor shall rectify any fault and replace any of the following equipment if found to be faulty with units which shall be fully compatible with all other components and of the correct type, rating and characteristics. All items removed shall be labelled showing the location and the date removed and should be stored separately for the Engineer's inspection. i. Lamp or Tube ii. Lamp or Tube Control Gear iii. Internal Wiring excluding Network Cabling iv. Photo Cells or Time Switches v. Luminaire parts (Lamp holders, Brackets, Bowls, In-line fuses, Heat Resistant Cabling) etc. vi. Loose or mis-aligned Luminaires vii. Column or Post Doors viii. Electrical Circuit Components (Fuses, fuse carriers, cut-outs, switch fuses, isolator, distribution board, circuit breakers) etc ix. Double Pole Isolator 3. The Contractor shall obtain the authorisation of the Engineer before rectifying the undernoted faults:- i. Wiring with defective insulation ii. TRS type wiring which is otherwise safe 4. Where a defect cannot be rectified due to an electricity supply failure or the need to replace a complete luminaire, post and/or sign face the Contractor shall notify the Engineer within 5 working days so that the necessary action can be taken. The replacement of a complete luminaire, post and/or sign face will not be regarded as a repair and will be subject to a specific instruction by the Engineer. 5. Where the foliage of trees and/or shrubs growing on the highway obstruct the lighting unit luminaire or sign face, luminaire or photo cell sensors, the

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
	Contractor shall prune up to a maximum branch diameter of 25 mm and dispose of the trimmings. Where branches are cut back they shall be trimmed flush to the main branch or limb. Where pruning of trees on private property or heavier pruning than described above is required the Contractor will notify the Engineer within 5 working days. 6. The Contractor shall securely attach all access doors to the post before leaving the site. Where it is not possible to lock or repair an existing door a stainless steel band and buckle must be used to prevent unauthorised access. In situations where the door is missing a temporary door must be fitted. Any such repairs shall be reported to the Engineer within 5 working days. 7. The Contractor shall submit to the Engineer within 5 working days of the repair details of any structural defects, along with photographs of defects, and any other defects which have not been rectified and which require further attention. 8. Any sign mounted on highway equipment other than an approved Traffic Sign, bus stop, RAC or AA sign shall be noted by the Contractor and reported to the Engineer. **<u>Internal wiring of illuminated sign posts and road lighting units</u>**

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2740AR	The installation of internal wiring to existing sign posts and road lighting units shall include all works associated with this operation. The cabling should conform to the list below A) Internal wiring from isolator to luminaire shall be flexible multi-core copper conductor cables 300/500 volt grade, pvc insulated and sheathed complying with BS 6004 B) The minimum cross sectional area of conductors for sign posts, 5 and 6m mounting height road lighting units shall be 1.5mm^2 3 core flex C) The minimum cross sectional area of conductors for 8, 10 and 12m mounting height road lighting units shall be 2.5mm^2 3 core flex D) The minimum cross sectional area of conductors for PECU circuits shall be 1.5mm^2 for sign posts, 5 and 6m mounting height and 2.5mm^2 for 8, 10 and 12m mounting height road lighting units. E) Equipotential earth conductors shall be of 6mm^2 minimum cross sectional area to accord with Regional Electricity Company requirements. 1) After removing the fuses and isolating the cable, the cable shall be disconnected at the isolator and luminaire; 2) The redundant cable shall be removed; 3) A new cable conforming to the above Scope shall be installed; 4) The new cable shall be connected to the existing luminaire; 5) The new cable shall be connected to the double pole isolator; 6) The installation shall be tested; 7) Disposal of materials.

Contract Specific Additional, Substitute and cancelled clauses, tables and figures included in the Contract

Additional Clauses, Tables and Figures:	
Clause No.	**Title and Written Text**
2741AR	**<u>Optional Future Services</u>** Optional future services may be required, but not guaranteed, by the Client, as listed below, but not exhaustive: • The installation of retrofit LED lamps and/or gear trays to illuminated Traffic Signs • Painting of lampposts to the Client Scope requirements • Removal and installation of ticket machines including associated power supply works • Provision and installation of part-night or dimming photo cells • Provision and installation of CMS equipment ie nodes and collectors • Assisting with the installation and maintenance of CCTV projects • Provision and installation of advance notices for road works/schemes etc • Installation of temporary banners/notices etc onto lampposts All the above services, if required, will be on an “as and when” basis.

2. List of Substitute Clauses, Tables and Figures:

Clause No. (etc)	Title and written text
None	None

APPENDIX 0/2: CONTRACT-SPECIFIC MINOR ALTERATIONS TO EXISTING CLAUSES, TABLES AND FIGURES INCLUDED IN THE CONTRACT

Additional Clauses, Tables and Figures:	
Clause No. (etc)	Alterations to be made.
Series 100, Clause 110	Sub-Clause 1 delete in line 1 “within 4 weeks of the Date of the” and insert “on”.
Series 1400, Clause 1407	Sub-Clause 3 (iii) line 1 insert after “category 1”, and 2
Series 1400, Clause 1416	Add new Sub-Clause 8 6. Cut-outs shall be capable of accommodating a 32 amp double pole lock off isolator and a minimum of 2 No: outgoing fuse ways and shall meet the requirements of Appendix 14/4.

APPENDIX 0/3 - LIST OF NUMBERED APPENDICES REFERRED TO IN THE SPECIFICATION AND INCLUDED IN THE CONTRACT

List 'A': List of Numbered Appendices Referred to in the Specification for Highway Works

APPENDIX 0/4 – LIST OF DRAWINGS INCLUDED IN THE CONTRACT

2. Standard Drawings
2(i) Supplied to each Tenderer

DRAWING No.	TITLE
SL/CD0001	Standard Arrangement for Traffic Signs type M21 and M31 Foundation Details
SL/CD0002	Standard Arrangement for Traffic Signs type M11 and M12 and Foundation Details
SL/CD0003	Standard Arrangements for Traffic Signs type S and Foundation Details
SL/CD0004	Standard Arrangement for Traffic Signs type F and Foundation Details
SL/CD0005 A	Standard Arrangement for Traffic Signs type P and Foundation Details
SL/CD0006 A	Standard Construction Details for Traffic Sign Face/Plate
SL/CD0007 A	Standard Arrangement for Base Lit Traffic Bollards
SL/CD0009 SL/CD/0009A	Details of Planting depths, brackets, projections, Lanterns spigots and Column Foundations for Steel Lighting Columns Type 1 and 2
SL/CD0010 A	Details of Lighting Column Foundations and Fixings for Flange Plate Columns with Single or Double Brackets Type 3
SL/CD0014	Electrical Warning Notices
SL/CD0015 A	Feeder Pillar Type 10 phase remote switches
SL/CD0016	Feeder Pillar Type 10 single phase remote switched wiring diagram
SL/CD0017	Feeder Pillar single phase foundation detail
SL/C/D0018 A	Feeder Pillar Type 12 single phase grouped switched
SL/CD0019 A	Feeder Pillar Type 12 single phase grouped switched wiring detail
SL/CD0022 A	Feeder Pillar Type 30 three phase remote switched

APPENDIX 0/4 (CONT'D) – LIST OF DRAWINGS INCLUDED IN THE CONTRACT

2. Standard Drawings (Cont'd)
2(i) Supplied to each Tenderer

DRAWING No.	TITLE
SL/CD0023 A	Feeder Pillar Type 30 three phase remote switched wiring detail
SL/CD0024	Feeder Pillar three phase foundation detail
SL/CD0025	Cable Terminations Within base Compartment of road lighting units and Lit Traffic Sign Units
SL/CD0026	Cable Terminations Within base Compartment of road Lighting Units and Lit Traffic Sign Units
SL/CD0027 A	Feeder Pillar Single Phase Type 16A and 16B
SL/CD0028 A	Double Pole Isolator and Secondary Fuse Unit Type E1 and E2
SL/CD0029	Neutral/Earth Electrode Type NE1 – NOT REFERENCED
SL/CD0030 A	Structural Condition of Road Lighting Column Condition Level
SL/CD0031 A	Structural Condition of Road Lighting Column Condition Level II
SL/CD0032 A	Structural Condition of Road Lighting Column Condition Level III
SL/CD0033 A	Structural Condition of Traffic Sign Condition Level I
SL/CD0034 A	Structural Condition of Traffic Sign Condition Level II
SL/CD0035 A	Structural Condition of Traffic Sign Condition Level III
SL/CD0036	Traffic Sign Position of Location Numbers

APPENDIX 1/5 – TESTING TO BE CARRIED OUT BY THE CONTRACTOR

1. The Contractor shall on completion of all new, altered or modified works carry out electrical inspections and tests in accordance with Electricity at Work Regulations 18th Edition, and any other updated Editions that supersede the current edition prior to commissioning or recommissioning the installation.

2. Completion and submission of test certificate to the Engineer as defined in Appendix 12/71, 13/71 and 14/70

APPENDIX 1/7 – EXTENT OF CONTRACT AREA AND SITE AND LIMITATIONS ON USE

1. **Extent of Contract Area**

The Contract Area is shown in Appendix A – Background NEL.

2. **Extent of Site**

The Site is defined in Appendix A – Background NEL and its location and extent will not be known until Works Order for the Works, facilities or services to be carried out, varied, or omitted has been issued in accordance with Conditions of Contract.

3. **Limitations on the Use of the Contract Area**

a) The Contractor shall comply with all of the various limitations and restrictions imposed through the Conditions of Contract and the Specification for Highway Works

b) The Contractors attention is particularly drawn to Conditions of Contract Special Conditions Clause 72 “Special Requirements”, Specification Clause 104.2 and Appendix 1/24 Quality Management System; Specification Clause 109 and Appendix 1/9 Control of Noise and Vibration; Appendix 1/16 Privately and Publicly Owned Services or Supplies; Appendix 1/17 Traffic Safety and Management; Specification Clause 124 and Appendix 1/23 Risks to Health and Safety from Materials or Substances.

c) Street Lighting Restricted Working Hours apply on the following streets / sites;

PARISH	ROAD	SECTION	TIMES	DAYS
CLEETHORPES	Alexandra Road	Full Length	08.00 - 18.00	Mon - Sat / May - September
CLEETHORPES	Alexandra Road	Full Length	08.00 - 18.00	Sunday all year round

APPENDIX 1/7 (CONT'D) – EXTENT OF CONTRACT AREA AND SITE AND LIMITATIONS ON USE

4. Limitations on the Use of the Site

a) The Contractor will not have exclusive possession of the Site and must cater for other users of the highway within the site.

b) The Contractor's use of the site will be subject to all of the limitations and restrictions described in 3 above.

5. Limitations on Signage

The Contractor shall comply with the following additional restrictions on the signing of offices, stores, workshops, material storage, plant storage and the like during the currency of the Contract.

a) The Contractor shall obtain the approval of the Engineer to the sighting of all plant, equipment and materials before works commence.

b) Any existing items and materials to be recovered from within the site as part of the works shall be removed as soon as reasonably possible after recovery.

c) The Contractor shall allow for the use of any working area by the Client or any of its approved Contractors whilst engaged in any routine highway maintenance.

APPENDIX 1/9 – CONTROL OF NOISE AND VIBRATION
Noise

1. The Local Authority has informally agreed that the following measures would be acceptable, and these are given as a guide; however, it is for the Contractor to decide whether to seek the Local Authority's formal consent to their proposed methods of work and to the steps he proposes in order to minimise noise.

2. The **Site Normal Working Hours** shall be Monday to Friday between 07:00 and 19:00 hours and Saturday between 0700 and 1900 hours, with no working on Sundays or public holidays. Exceptionally, consent for work outside these hours may be given after any necessary consultation. Three days' notice is required from the Contractor when seeking such consent.

3. The noise levels (see Note (i) below) scheduled below for periods outside the **Site Normal Working Hours** will only be permitted when consent has been given to exceptional working.

4. The ambient noise level, Leq (see Note (ii) below) from all sources when measured 2.0 m above the ground at noise control stations numbers 1 to ... on Drawing Numbers ..... shall either not exceed the appropriate level given in the Schedule or not exceed by more than 3dB(A) the existing ambient noise level, Leq (see Note (iii) below), at the control station measured over the same period, whichever level is the greater. The maximum sound level at any noise control station shall not exceed the level given in the Schedule. Exceptionally the Contractor may be given permission to carry out works which exceed the noise levels in the Schedule, provided that ... days' notice of the date and timing of these works is given to the Overseeing Organisation and the Contractor demonstrates that he intends to take all reasonable measures to mitigate the noise nuisance. After consultations with the Local Authority and any other interested bodies a decision will be given within ... days of receipt of the notice.

Schedule		**Total Noise Levels at Control Stations**		
Period	**Hours**	**Ambient Noise Level, Leq Measured at Control Station: dB(A)**	**Period of Hours over which Leq is applicable**	**Maximum Sound Level (see Note (iv) below) measured at Control Station: dB(A)**
Mondays to Fridays Saturdays All unattended plant outside **Site Normal Working Hours**	**12** **3** **2**	**75dB** **65db** **65dB**	**0700 – 1900** **1900 – 2200** **2200 - 0700**	**96db** **75db** **70dB**

Notes:

(i) Noise levels relate to free field conditions. Where noise control stations are located 1 m from facades of buildings, the permitted noise levels can be increased by 3 dB(A).

(ii) The ambient noise level, Leq, at a noise control station is the total Leq from all the noise sources in the vicinity over the specified period.

(iii) The existing ambient noise level, Leq, at a control station is the total Leq from all the noise sources in the vicinity over the specified period prior to the commencement of the Works.

(iv) Maximum sound level is the highest value indicated on a sound level meter which meets the requirements of BS EN 60651 Type 1 or 2 set to SLOW response and frequency weighting A or on an integrating – averaging sound level meter to BS EN 60804.

APPENDIX 1/9 (CONT'D) – CONTROL OF NOISE AND VIBRATION

Vibration

1. Vibration limits shall apply over the Contract Area and Site Extents.

2. The Client office responsible for the control of vibration from construction works within the site is:

   Environment Team
   North East Lincolnshire Council
   Municipal Offices
   Grimsby
   North East Lincolnshire
   DN31 1HU

3. The Contractor shall also normally limit vibration levels arising from site activities at any residential building on any working day as follows:

Period	**Peak Particle Velocity in the vertical direction.**
0800hours - 2200hours	**1.5 mm/second**
2200hours – 0800hours	**0.5 mm/second (for short durations.**

Where vibration occurs, reference should be made to BS6472 – Human Response to Vibration in Buildings.

APPENDIX 1/12 – SETTING OUT AND EXISTING GROUND LEVELS

1. The setting out information shall be as agreed on Site with the Engineer prior to works commencing.

2. In order that the Engineer may carry out the necessary checks, the Contractor shall give 48 hours' notice that the setting out will be ready for checking.

3. No work which requires setting out shall be commenced until the setting out has received the approval of the Engineer.

4. Where setting out is undertaken by the Engineer the methods of referencing will be consistent with those used by the Contractor.

APPENDIX 1/13 – PROGRAMME OF WORKS

ROUTINE MAINTENANCE

1. Routine Maintenance (Traffic Signs & Electrical testing)

   (a) The Engineer will provide the Contractor with a Works Order for routine maintenance works prior to the commencement of the works.

   (b) The Contractor shall provide a programme of Works for routine maintenance on a monthly basis in the form of a location/time related bar chart produced as a result of a critical path analysis and shall comply with the specific requirements of Appendix 1/13, Part 1. The programme shall show the level of detail appropriate at each stage of the works and all activities and restraints, each of which shall be given a short title. All events shall be numbered and annotated with the earliest and latest event dates.

2. Repairs / Component Replacement

   (a) The Engineer will provide the Contractor with instructions of defective equipment on a daily basis or at such intervals as the Engineer may decide detailing those units which have been reported as being faulty. The repairs will be carried out against the works instruction issued above and completed within the timescales set out below.

APPENDIX 1/13 (CONT'D) – PROGRAMME OF WORKS

ADDITIONAL MAINTENANCE

1. Installation Works

(a) The Engineer will provide the Contractor with Works Orders for installation works at such intervals as the Engineer may decide detailing the works to be undertaken and the site definition in accordance with the NRSWA as updated in accordance with the Traffic Management Act 2004.

(b) The Contractor shall provide a programme for installation works. The Contractor will also be responsible for drafting, supply and delivery of all pre, and post Consultation letters required for all Capital works schemes which meet the criteria for Consultation, and the Engineer will notify the Contractor which schemes require consultation. The wording of all consultation letters to be agreed with the Engineer prior to delivery.

(1a) Minor Works with Excavation

Works less than 5 Columns within a 500m radius or 10 Columns in a street or a 30m length of trench.

(i) On non-traffic sensitive streets, a notice of works is required from the Contractor other than a weekly programme.
(ii) On traffic sensitive streets a one month and a 7 day notice are required to be served by the Engineer following agreement of the Contractor's programme.

(1b) Standard Excavation

Works greater than 5 Columns within a 500m radius or 10 Columns in a street or a 30m length of trench.

(i) On non-traffic sensitive streets, no notice of works is required from the Contractor other than a weekly programme.
(ii) On traffic sensitive streets a one month and a 7 day notice are required to be served by the Engineer following agreement of the Contractor's programme.

2. Emergency Works

The Contractor may carry out the replacement of damaged sign and road lighting equipment and one for one replacements without the production of a works programme after receipt of a Works Order from the Engineer and complying with the General Requirements of this Appendix.

GENERAL

1. The Contractor shall take in to account in their programme of works the formal notices required in accordance with the Traffic Management Act 2004. The Contractor shall issue the notices under this Act and provide regular and timely updates with respect to progress to ensure compliance with the Act.

2. The Contractor shall prepare their programme to ensure that all operations shall take place in the general direction of the traffic flow and are carried out during normal working hours, avoiding peak hours on roads with heavy traffic volumes except were instructed otherwise in writing by the Engineer.

APPENDIX 1/13 (CONT'D) – PROGRAMME OF WORKS

3. During the currency of the Contract other Contractors may be employed to carry out works on the network. The Engineer will notify the Contractor a minimum of two weeks in advance of any lane closures to be implemented by other Contractors. The Contractor may not carry out work in the area of such lane closures other than within the confines of such closures.

4. The Contractor shall notify the Engineer at least two weeks in advance of any closures he wishes to implement.

5. No work shall be carried out on Dual Carriageways and Principal Roads within one day on either side of Bank Holidays. Where these occur at a weekend the Bank Holiday shall be deemed to include the whole weekend in addition to any statutory Bank Holidays.

6. Not Used.

7. No work and/or the placing or removal of road safety traffic management and/or obstruction of continuous two-way traffic flow on Traffic sensitive streets(see street works schedule in Appendix 1/7)

8. No work shall be undertaken outside daylight hours except with the prior written agreement of the Engineer.

9. The Contractor shall provide on a daily basis details of the work completed during the preceding week and shall provide separately the proposed work for the following week.

ACTIVITY	FREQUENCY	TIME FOR COMPLETION FROM THE COMMENCEMENT DATE SPECIFIED IN THE WORKS ORDER
1. Routine Maintenance (Lit signs) (a) All Roads	1 year from date of previous routine maintenance	Within 22 working days
2. Group Lamp Replacement (a) All Roads All Night Burning 24 hour Burning	 Not required Not required	
3. Repairs (a) NON Traffic Sensitive Roads (b) Traffic Sensitive Roads	 As notified by the Engineer As notified by the Engineer	 Within 5 Working days Within 6 Working days
4. Painting of Posts	Not Required	
5. Installation of Works a) 1-5 Signs b) 6-10 Signs c) Replacement of Damaged (i) Mandatory Signs (ii) All others	 As notified by the Engineer As notified by the Engineer As notified by the Engineer As notified by the Engineer	 Within 10 working days Within 15 working days Within 10 working days Within 15 working days

APPENDIX 1/13 (CONT'D) – PROGRAMME OF WORKS

STREET LIGHTING UNSCHEDULED MAINTENANCE AND INSTALLATION

ACTIVITY	FREQUENCY	TIME FOR COMPLETION FROM THE COMMENCEMENT DATE SPECIFIED IN THE WORKS ORDER
1. Unscheduled Maintenance (Street Lights however this is not required) (a) All Roads	As instructed by the Engineer	
2. Group Lamp Replacement (a) All Roads SOX, SOX-E, MBF/U, MCF/U Lamps SON, SON-T, PL Lamps MCF/U and PL Lamps All Day Burning (24 hours) GLS Lamps (All Night Burning)	Not required	
3. Repairs (a) NON Traffic Sensitive Roads (b) Traffic Sensitive Roads	 As notified by the Engineer As notified by the Engineer	 Within 5 Working days Within 6 Working days
5. Installation of Works (a) 1-5 Columns (b) 6-10 Columns (c) Major Schemes (d) Replacement of Damaged Columns	 As notified by the Engineer As notified by the Engineer As agreed with the Engineer As notified by the Engineer	 Within 10 working days Within 15 working days Within 22 Working days Within 10 working days

APPENDIX 1/13 (CONT'D) – PROGRAMME OF WORKS

UNSCHEDULED FEEDER PILLAR MAINTENANCE AND INSTALLATION

ACTIVITY	FREQUENCY	TIME FOR COMPLETION FROM THE COMMENCEMENT DATE SPECIFIED IN THE WORKS ORDER
1. Unscheduled Maintenance (a) All Roads	As instructed by the Engineer	Within 22 working days
2. Repairs (a) All Roads	As instructed by the Engineer	Within 5 working days
3. Painting of Metal Cabinets	As instructed by the Engineer	Within 22 working days
4. Installation Works (a) Feeder Pillar	As instructed by the Engineer	Within 10 working days

EMERGENCY WORKS

ACTIVITY	FREQUENCY	TIME FOR COMPLETION ON SITE FROM RECEIPT OF ORAL OR WRITTEN NOTIFICATION OF THE EMERGENCY
1. Emergency Works (a) Category 1 (b) Category 2	As instructed by the Engineer As instructed by the Engineer	Within 2 hour Within 24 hours

PROVING ELECTRICAL INTEGRITY

ACTIVITY	FREQUENCY	TIME FOR COMPLETION ON SITE FROM RECEIPT OF ORAL OR WRITTEN NOTIFICATION OF THE EMERGENCY
1. Proving Electrical Integrity (a) Street Light and Lit sign units (b) Feeder Pillars and Cable Networks	6 years from date of previous test As instructed by the Engineer	Within 22 working days Within 22 working days

APPENDIX 1/14 – PAYMENT APPLICATIONS

The monthly statements submitted by the Contractor in accordance with the Conditions of Contract shall conform with the following requirements:-

1. The first monthly statement shall be in respect of work executed from the Date for Commencement of the Works up to but not including the same date in the calendar month immediately following. Succeeding monthly statements shall be related to the same date in the respective calendar month.

2., The monthly statements shall be in the form of a Summary which shall be identified in the same manner as the Tender Summary for amounts to which the Contractor considers they are entitled and in respect of Temporary Works or Constructional Plant. Other amounts to which the Contractor considers they are entitled shall be included in the statement and separately identified.

3. The Price List in support of the statement shall show:-

   (a) Works Order Number
   (b) Item number
   (c) Item description
   (d) Quantity executed to date
   (e) Unit of Measurement
   (f) Rate
   (g) Total value to date

4. Items not included in the Tender but considered by the Contractor to be appropriate for inclusion as measured work shall be included at the end of the relevant Price List Section or under new Price List Section Headings and in the form required by paragraph 3 above.

APPENDIX 1/16 – PRIVATELY AND PUBLICLY OWNED SERVICES AND SUPPLIES

1. The Contractor shall ascertain those privately and publicly owned services which are in the vicinity of the works to be undertaken.

2. Where privately and publicly owned services are affected by the works details of preliminary arrangements that have been made with Statutory Undertakers and others for the alteration of services affected by the works will be supplied by the Engineer with the Works Order.

3. The Contractor shall make all arrangements with the Statutory Undertakers and other concerned, for the co-ordination of their work with all work which needs to be done by them or their Contractors concurrently with the works.

4. Private services to individual properties are not generally listed or shown on drawings. The Contractor shall make arrangements with the Statutory Undertakers and others concerned for the phasing of all necessary disconnections and diversions of private services affected by the works.

5. Disconnected apparatus can be removed by the Contractor with the prior approval of the Authority concerned.

6. Statutory Undertakers contact addresses are listed below

APPENDIX 1/17 –TRAFFIC SAFETY AND MANAGEMENT

TRAFFIC SAFETY AND MANAGEMENT REQUIREMENTS

Documents Referred To

Traffic Management Act 2004	DfT
New Roads and Street Works Act 1991	DfT
Department of Transport / County Surveyor's Society Joint Report providing Notes for Guidance in relation to the implementation of the requirements of the Health and Safety at Work Act 1974 so far as they affect personnel who are required to undertake work on Motorways and Trunk Roads	DTp/CS.JR
Traffic Signs Manual – Chapter 8 – Traffic Signs Safety Measures and Signs for Road Works and Temporary Situations: 2009 published by The Stationary Office, TSO (Formerly HMSO)	TSM8

The recommendations, in relation to all purpose single and dual carriageway Trunk Roads, of the DTp/CS.JR are considered to be equally applicable to non-trunk roads. The Contractor shall take this into account, when carrying out work on any trafficked highways.

1. TRAFFIC MANAGEMENT - GENERAL

   a) The Client shall issue the relevant notices under the Traffic Management Act 2004.

   b) The Contractor shall give 2 weeks' notice to the Client with respect to requiring a notice to be submitted under the Traffic Management Act 2004

   c) The Contractor will be responsible for providing regular and timely updates as far as progress to the Client to ensure compliance with the Act.

2. SAFETY AT ROADWORKS

   a) The Contractor shall comply with the Traffic Signs Manual – Chapter 8 "Traffic Safety Measures and "Safety at Street Works and Roadworks: 2013" and any subsequent amendments thereof and equip maintenance vehicles with all necessary amber flashing beacons on the cab and at the rear.

3. TRAFFIC SAFETY AND MANAGEMENT FOR SHORT DURATION WORKS

   i) ROADS FOR NORMAL WORKING HOURS

   a) The Contractor shall comply with the Traffic Signs Manual – Chapter 8 "Traffic Safety Measures and "Safety at Street Works and Roadworks: 2013" and any subsequent amendments thereof and equip maintenance vehicles with all necessary amber flashing beacons on the cab and at the rear.

b) High Visibility fluorescent retro reflective clothing to BS EN 471:2003 shall be worn by all persons working on the public highway.

ii) ROADS WITH RESTRICTED WORKING HOURS

(a) When carrying out Works on dual carriageways, trunk roads, classified roads and other roads that are traffic sensitive, the Contractor shall liaise with the Engineer and where necessary the Police in respect of restricted working hours and traffic regulations and control before commencing of Works.

(b) The restrictions, which vary from time to time, exist to control the placing and removal of Cones and/or Temporary Traffic Signs and/or obstruction of continuous two-way traffic flow. These restrictions generally apply during the following times:-

Monday - Saturday
i) 07.30 – 09.30 hours
ii) 15.30 – 19.00 hours

Roads having restrictions to enable a programme of Works to be formulated are listed in Appendix 1/7

iii) GENERAL

a) Where the circumstances of any particular case are not covered by the recommendations of Chapter 8, the Contractor shall submit their proposals for dealing with such situations in writing to the Engineer for their approval at least 7 days before the works are to commence.

b) Compliance with this Clause shall not relieve the Contractor of any of their obligations and liabilities under the Contract and under the relevant provisions of the Highways Acts.

4. DIVERSION OF TRAFFIC

a) The Contractor shall advise the Engineer as to the period of time which he will require in order to carry out the maintenance and/or group lamp replacement operations on each dual carriageway, trunk road or principal road. The Engineer will agree with the Contractor and the arrangements, dates and times for the necessary lane closures having carried out the necessary consultations with the Police and the Department of Transport (where necessary). The Engineer will give the Contractor not less than six weeks' notice of these arrangements, although the Engineer reserves the right to cancel or modify the arrangements of short notice due to overriding circumstances.

b) Lane closures for any Emergency work necessitated by accident, damage or failure of lighting units will be carried out by the Contractor as part of the normal Emergency call-out and will not be subject to advance notification.

5. GENERAL

a) When planning the traffic safety and management measures the Contractor shall include for either covering, blanking-out or attaching alternative messages to existing permanent traffic signs, within or outside the area of the Works, which conflict with the traffic safety and management proposals. These temporary alterations to permanent traffic signs shall, where the Engineer gives his consent, be carried out by the

Contractor, in compliance with Clause 1209, at the appropriate time in accordance with their traffic safety and management programme.

b) At least one traffic lane must be kept open to traffic in each direction on all dual carriageway roads at all times except when provision has been made in the Contract for other arrangements.

c) The control of traffic by means of Traffic Control Signals, priority control of "Stop-Go" boards will not be permitted on any dual carriageway, Trunk or Principal Road even when operating as a single carriageway under traffic management.

d) With respect to the safety zone, in addition to TSM8 and Dtp/CS.JR the following additional requirements shall apply:-

The minimum clearance between any area in which work is being undertaken and any part of the trafficked carriageway shall be 1.2 metres for all dual carriageways and single carriageways subject to a speed restriction of 50mph or greater and 500mm for single carriageways subject to a speed restriction of less than 50mph. The outer boundary of the safety zone shall be marked in the usual way by Traffic Cones and/or Cylinders. The inner boundary should be marked physically in an appropriate way wherever practicable to attract the workmen's attention to the limits of the working area.

e) Portable Traffic Signals must be of a type approved by the DTp under Section 65 of the Road Traffic Regulation Act 1984, Type Approval of Traffic Signal Equipment.

f) During the Christmas and New Year period from 16.30 on 23rd December until 08.30 on 3rd January and from 16.30 on the Thursday preceding any other bank holidays until 08.30 on the Wednesday following, all traffic lanes are to be opened to public traffic except where otherwise permitted by the Engineer.

g) Except when under the protection of cones and barriers, all site traffic must comply with the normal highway regulations. Site traffic may only enter or leave the working area using the designated entry or exit points, as shown in the Contract Documents or agreed by the Engineer and must do so in the direction of traffic flow. The Contractor shall not allow Site traffic to cross the central reserve of a dual carriageway to enter or exit the Works.

6. TEMPORARY SIGNS

a) Temporary sign supports shall not be constructed of scaffolding poles unless they are mounted behind safety fencing subject to the minimum requirements shown in Highway Construction Details G13 and G14 as for posts of 150mm diameter or more.

b) All signs used for traffic management and control shall be lit during the hours of darkness if erected in a lit area or within 50 metres of the last lighting Column of a lit area.

c) A minimum clearance of 450mm shall be provided between the carriageway in use and the nearest part of any temporary sign (excluding cones, cylinders, road markings and studs) or its supporting structure. Where this clearance cannot be met the signs shall be angled within the limits shown in Chapter 8. If this does not achieve sufficient clearance, and a satisfactory alternative location for the sign cannot be found, then the next smaller size of a sign shall be used and similarly angled, if necessary, to provide the specified clearance.

d) The Contractor shall erect and maintain all temporary portable signs in a manner to prevent them blowing over. Where signs have to be weighted down this should be in the form of fine granular material in a sack so that, should an impact occur, the sack will split, and the contents be dispersed without causing further problems.

e) All Cones and Traffic cylinders used in traffic control on the Site shall be kept clean at all times throughout the period control to the satisfaction of the Engineer. Where a Cone or Traffic Cylinder no longer has satisfactory reflective properties on its outer surface the Contractor shall replace the Cone or Traffic Cylinder with one to the required standard or renew the plastic reflective sleeve, whichever is appropriate.

7. TRAFFIC ORDERS

a) The operation of two-way traffic on one carriageway of a dual carriageway will not be permitted, except where provision has been made in the Contract for this to be implemented. This form of traffic control requires temporary closure orders under the Road Traffic Regulation Act for one carriageway of the dual carriageway and these must be made prior to the traffic control being required. Where temporary carriageway closure orders have not been provided for in the Contract and the Contractor considers temporary closure of one carriageway of a dual carriageway or of any other type of highway essential for the execution of the Works then he shall submit their proposals to the Engineer for consideration. Approval to go ahead with the processing of the closure orders will only be given if the Engineer considers them essential to the Works and in the case of Motorways or Trunk Roads after seeking approval from the Department of Transport.

Notice required by the Engineer for them to arrange for:-

a) amending or making traffic orders 8 weeks
b) authorising of non-prescribed signs 2 weeks
c) authorising portable Traffic Signals for Signal Control at junction 2 weeks

8. RESTRICTED LOCATIONS

a) Certain locations within the Contract area have been identified as being unsuitable for mobile lighting works during normal working hours. The Contractor will be advised of the locations, the total number of which will not exceed 1 percent of the total lighting stock.

b) Work at these locations (excluding Emergency Works) will be carried out between the hours of 18.30 and 07.30. The Contractor is advised that no additional payment will be made in respect of carrying out work at these locations. The timescales for the works given in Appendix 1/13 will not be affected by this.

APPENDIX 1/21 –INFORMATION BOARDS

Information Boards shall be erected to the requirements of Clause 110, and the particular requirements of this Appendix.

1. Information Boards shall be provided on all sites which have a duration of more than 24 hours and where Traffic Management is left in place.

2. The Information Board shall carry the name of the Client, Contractor, Description of Work with contact Telephone Number for emergencies and be in accordance with The Traffic Signs Regulations and General Directions 2002, diagram No 7008.

3. Where the works are of a shorter duration and define as Category “C” Works as defined by Chapter 8 of The Traffic Sign Regulations, Information Boards will not be required however, all Contractor’s plant must be properly identified with their name, address and telephone number for information and contact purposes.

4. The Contractor shall equip all vehicles with demountable sign boards that advise that the Contractor is employed on works on behalf of the Client.

APPENDIX 1/23: SUBSTANCES HAZARDOUS TO HEALTH

1. Substances hazardous to health shall include any material, which is either sprayed or dust which results from the mechanical cutting of road pavement or footpath materials which would cause discomfort or inconvenience to residents or occupiers of the adjacent properties or the public who are passing the Works. The Contractor shall consult with the Local Environmental Health Officer prior to undertaking such works and if so required, the Contractor shall undertake air quality monitoring.

2. Where substances are identified as being hazardous to health, a discomfort or an inconvenience to the workforce, residents or occupiers, the Contractor shall take all necessary precautions (e.g. using dust collection or damping down facilities on cutters) to prevent such hazard, discomfort or inconvenience and shall indicate in their method statement the proposals for dealing with such matters.

3. The Contractor shall be aware of the guidelines for the use of substances hazardous to health given in Advice Note SA 8/94. In particular it is anticipated that the following substances classified in the Advice Note are expected to be used and/or encountered and the Contractor shall follow the precautions contained therein for each substance.

Low Risk

Bituminous Tape	Sand	Natural Aggregate
Pulverised Fuel Ash	Blast Furnace Slag	Water Based Admixtures
Dust from cutting of Asphalts and Macadams		

Moderate Risk

Bitumen Joint Sealing Compounds etc	Thermoplastics
Cementitious Mortars and Grouts	Cement
Bitumen Cut Back	Concrete
Dust from Concrete, Cement etc	

High Risk

Bituminous Primers and Coatings

4. The Contractor shall not be relieved of their obligations under COSHH legislation.

5. The Contractor shall at all times prevent the spread by any means whatsoever of substances hazardous to health from a working area to an adjacent area.

APPENDIX 1/24: QUALITY MANAGEMENT SYSTEM

1. The Contractor shall institute and operate a quality management system complying with BS EN ISO 9002. The quality management system shall be described in a Quality Plan that shall be submitted to the Engineer for their acceptance.

   The Quality Plan shall cover the following items:

   i). Contractor's organisation and management
   ii). Contractor's method statements and construction procedures
   iii). Contractor's construction quality control

2. Items i) and iii) of the Quality Plan shall be submitted to the Engineer for their acceptance not later than 21 days after the award of the Contract.

   The Contractor shall submit other parts of the Quality Plan prior to start of any related work or activity and to a timetable included in item i).

3. Method statements are required in the Health and Safety Plan as listed in section 4.4 of Volume 3 Pre-Tender Health and safety Plan.

4 QUALITY PLAN REQUIREMENTS:

4.1 Contractor's Organisation and Management

This section of the Quality Plan shall include the following:

i). Definition of the Contract and its documentation.

ii). The organisation of the Contract, including the line of command and communication links between parties involved in the Contract

iii). Names, roles, responsibilities and authority of principals and key personnel.

iv). Identification of the Contractor's own staff responsible for overseeing each major activity.

v). The Contractor's control of sub-contracts.

vi). Document control.

vii). Programme for submission of method statements and Suppliers Quality Plans. The Quality Plan shall identify procedures (which may be a part of the Contractor's general procedures) that cover the topics listed below. Copies of these procedures shall be made available to the Engineer on request.

viii). The quality plans for sub-Contractors and suppliers of work, goods and materials which are the subject of quality management schemes.

ix). Procedure for the preparation, review and adjustment of programmes for the effective progression of the Works and the recording of this.

x). Control and approval of purchases of materials.

xi). Control of off-site activities (where appropriate).

APPENDIX 1/24 (CONT'D): QUALITY MANAGEMENT SYSTEM

xii). Procedures for the regular review and recording by the Contractor of the quality of the Works.

xiii). Control of personnel selection, based on their care, skill and experience.

xiiii). Management review/audits to monitor and exercise adequate control over the implementation of the quality plan.

xv). Any other relevant item.

4.2 Contractor's Method Statements and Construction Procedures

This section of the Quality Plan shall include:

4.2.1 Detailed method statements for each major activity whether directly controlled or subcontracted.

The method statements shall identify hold points and invoke:

i) Work instructions;

ii) Quality control procedures;

iii) Risk assessments;

iv) Compliance testing / inspection arrangements;

v) Any work acceptance procedures;

vi) For all activities that might affect the quality of the permanent and temporary works.

4.2.3. Identify the relevant construction procedures in the Contractor's own Quality Management System (and provide copies on request).

4.3 Contractor's Construction Quality Control

This section of the Quality Plan shall include:

4.3.1. Statement of the Contractor's organisation for quality control.

The quality plan shall identify procedures (which may be a part of the Contractor's general procedures) that cover the topics listed below. Copies of these procedures shall be made available to the Engineer on request.

4.3.2. Arrangements for 'receiving' and 'in-process' testing.

4.3.3. Control of test laboratories.

4.3.4. Control of test, measuring and inspection equipment.

4.3.5 Document control.

4.3.6. Procedure for monitoring and recording the inspection, test and approval status of the constructed/installed work.

4.3.7. Procedures for test and inspections for the purpose of the Contractor certifying that prior to covering up, each part of the Works are complete and conform to the Contract.

4.3.8. Procedure for the review of work submitted for review but not accepted as conforming to the Contract

4.3.9. Procedure for the collation of quality records as identified in BS EN ISO 9002, and provision of copies when requested by the Engineer.

4.4 Suppliers' Quality Plans

The Quality Plan shall include:

4.4.1. Definition of the product or service to be provided.

4.4.2. The organisation of the Supplier describing the line of command and stating the name of the senior Manager(s) responsible for the contracted Work and the names of the Supplier's on-site management representative. Contact addresses, telephone numbers etc. shall be provided.

4.4.3.* Identification of the relevant parts of the Supplier's quality system relevant to the product or service being provided. (Copies to be provided to the Engineer on request).

4.4.4. The control of personnel selection (at works and on site), including special requirements for skilled personnel, e.g. certification of welders, training of operatives, experience requirements etc.

Specific procedures for the following:

4.5.5.* Receipt and examination of certificates of conformity and test results for purchased products.

4.5.6.* Product identification and traceability.

4.5.7.* Handling, storage, packaging and delivery to Site and storage and handling on Site.

4.5.8 Quality records.

Note: Items marked * where available and appropriate, copies of the supplier’s quality system / general procedures may be acceptable

5 CONTRACTOR ACCREDITATIONS / MEMBERSHIP CRITERIA

The Contractor will also have accreditations / membership of the following:

Highways Electrical Registration Scheme (HERS) to NHSS8
National Electrical Registration Scheme (NERS)
National Inspection Council for Electrical Installation Contracting (NICEIC)
Construction line
Contractors Health and Safety Scheme (CHAS)

STANDARD SPECIFICATION AND CODE OF PRACTICE

Where an appropriate British Standard Specification or British Standard Code of Practice, issued by the British Standards Institution, is current at the date of tender, the Contractor is required to ensure that all goods and materials used or supplied, and all workmanship shall be at least in accordance with that Standard.

APPENDIX 2/3 – RETENTION OF MATERIALS ARISING FROM SITE CLEARANCE

The Contractor shall comply with the following additional conditions on the retention of materials arising from the site clearance of road lighting units, lit Traffic Signs, Traffic Signs and associated equipment during the currency of the Contract.

(i) The following materials are to be removed from site and transported to, and stored at the Contractors Depot for re-use on the Contract as instructed by the Engineer on the Works Order:-

(a) Steel road lighting Columns, brackets and Traffic Sign posts

(b) Road Lighting Luminaires

(c) Feeder Pillars

(d) Lit/non-lit Traffic Bollards including bases

(e) Lit Sign External Luminaires

(f) Traffic Sign Plates (various sizes)

(g) Festive and Summer Illuminations

(ii) The Contractor shall instigate and operate an inventory of recovered materials. The inventory shall describe the type of material, the quantity, the location from which it was recovered and where it was re-used. All recovered materials remain the property of the Client.

(iii) The seasonal illuminations to be installed under the contract are stored at the Contractor's depot.

APPENDIX 2/5 – HAZARDOUS MATERIALS

MATERIALS HANDLING

Documents Referred To.

Department of Environment, environmental Protection Act 1990.
Waste Management The Duty of Care. A Code of Practice.

1. Waste materials such as lamps and capacitors shall be disposed of in a safe manner in accordance with current regulations to ensure that substances which may be contained therein shall not be hazardous to health.

APPENDIX 5/2 – SERVICE DUCT REQUIREMENTS

1. Ducts for road lighting shall be in accordance with HCD drawing No: I2 and the following:-

   a) All ducts shall be of the Unplasticised polyvinyl-chloride (UPVC) type as defined in Table 5/2. Ducts shall be orange in colour, and ribbed, and be identified by means of continuous durable marking along the length with the following wording “ROAD LIGHTING CABLES BELOW”.

   b) Each duct shall be identified by means of a marker block in accordance with Clause 501.8 and Drawing No: HCD I1 with the following wording “RL DUCT” cast into the block.

   c) All ducts shall be constructed and backfilled to formation level in accordance with Drawing No: HCD I2 with the following dimensions for parameters “X” and “Y”.

      i) Single way duct 2x + 1y

      ii) Two way duct 3x +1y

   d) The average depth to invert 700mm in carriageway and 450mm in verges and footways.

   e) The ground level shall be taken at existing ground and depth of duct, and all measurements shall be taken from this datum.

APPENDIX 6/70 – EARTHWORKS SCHEDULE

1. HARD MATERIALS

These shall be as defined and consist of the following:-

a) existing pavements
b) footways
c) paved areas

The units and depth of this material are shown on the Reinstatement Schedules contained in Appendix 7/2 and as detailed on Contract Drawing SL/CD/0009 & SL/CD/0009A.

2. UNACCEPTABLE MATERIALS

These shall be any unbound material forming part of any of the above constructions, the limits and depths are as shown on the Reinstatement Schedules contained in Appendix 7/2.

3. ACCEPTABLE MATERIAL

These materials shall be as detailed in Table 6/1 Class C or M of this series.

APPENDIX 7/2 – EXCAVATION, TRIMMING AND REINSTATEMENT OF EXISTING SURFACES

1. All permanent reinstatements of carriageways and of footways shall be carried out in accordance with the Highways Authorities & Utilities Committee Specification for the Reinstatement of Openings in Highways published by the Stationary Office (Formerly H.M.S.O) and dated April 2010 (3rd Edition).

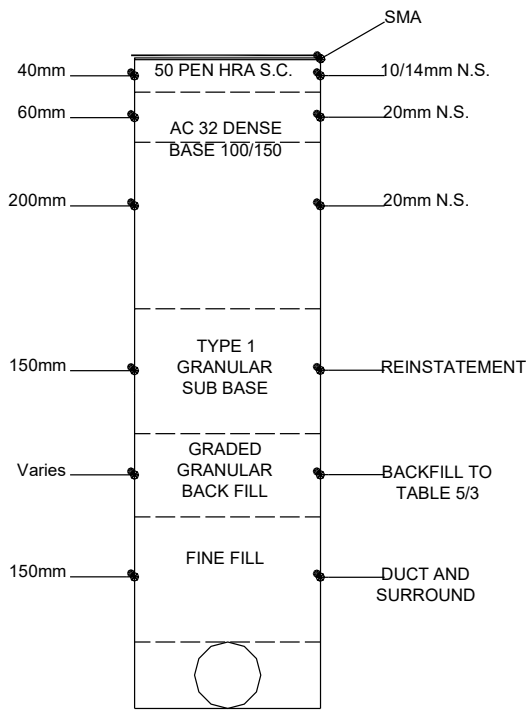
2. Reinstatements shall be carried out as instructed by the Engineer and will be detailed on the Works Order. Details of completed reinstatements will be supplied to the Engineer. Details will include location, measure and date of each reinstatement carried out.

3. When agreed with the Engineer a temporary reinstatement may be carried out, but this must be permanently reinstated within 10 days where the works do not involve the reconstruction of footways.

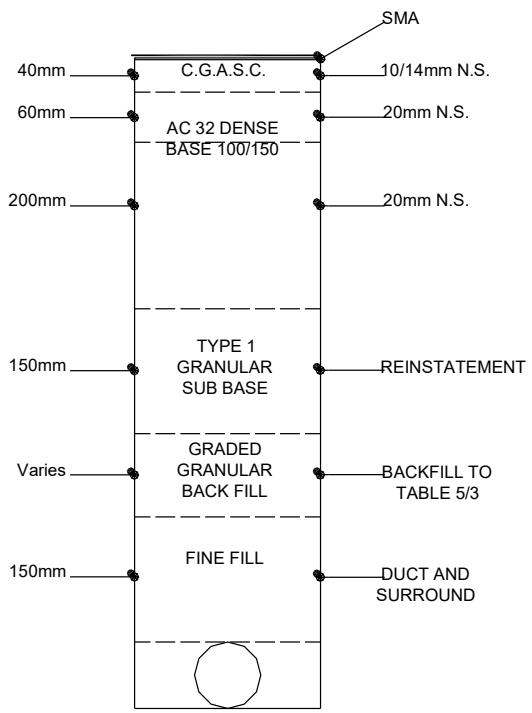
4. The temporary reinstatement shall be with the same material removed from the site during excavation and after defining shall be compacted in layers to within 50mm of the finished surface, the void is then to be filled with a layer of cold lay blacktop material of nominal size 20mm.

TYPE 1

CHOICE A



CHOICE B

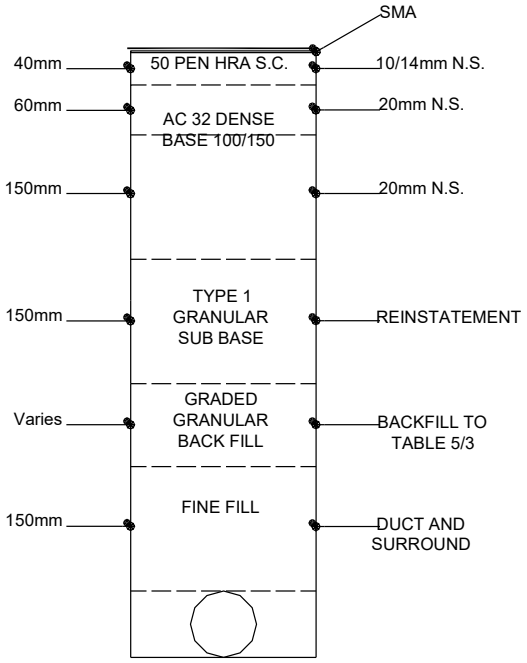


The vertical faces of the adjoining road surfacing must be treated with an approved bitumastic material before laying the wearing course. On new installations, neither the apparatus nor the fine fill may encroach into the sub base. 100 P.E.N. H.R.A may be used subject to local agreement.

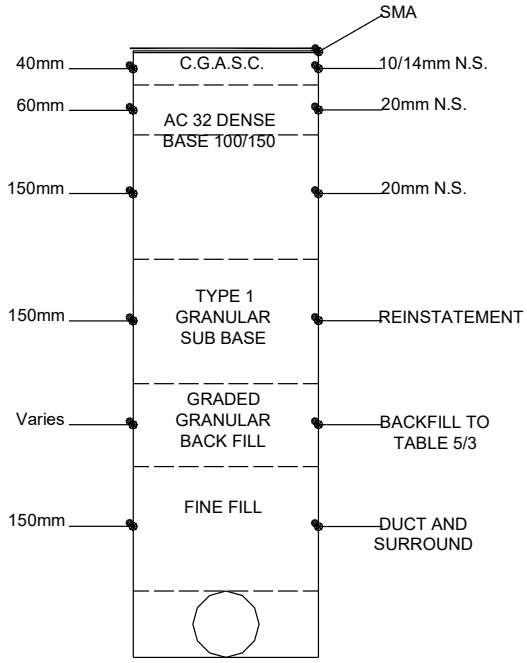
APPENDIX 7/2 (CONT'D) – EXCAVATION, TRIMMING AND REINSTATEMENT OF EXISTING SURFACES

TYPE 2

CHOICE A



CHOICE B

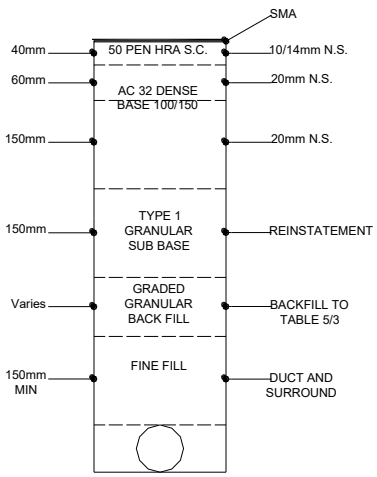


The vertical faces of the adjoining road surfacing must be treated with an approved bitumastic material before laying the wearing course. On new installations, neither the apparatus or the fine fill may encroach into the sub base. 100 P.E.N. H.R.A may be used subject to local agreement.

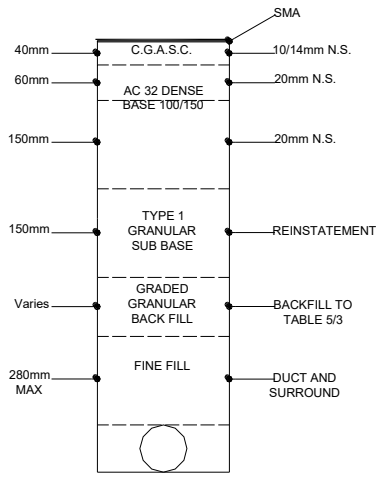
APPENDIX 7/2 (CONT'D) – EXCAVATION, TRIMMING AND REINSTATEMENT OF EXISTING SURFACES

TYPE 3

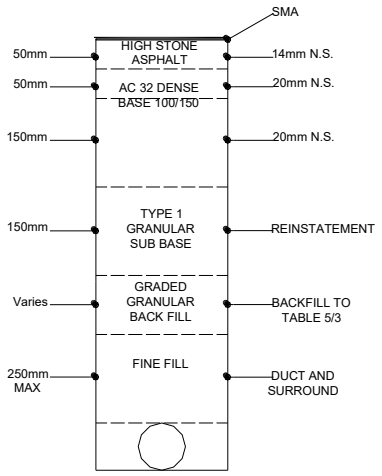
CHOICE A



CHOICE B



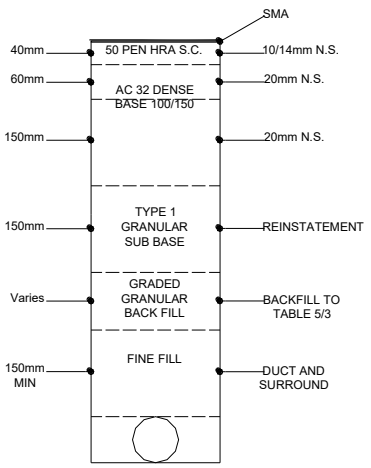
CHOICE C



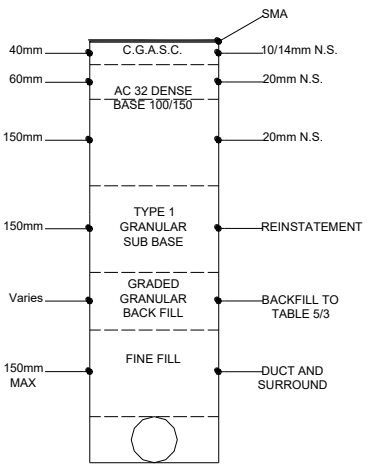
The vertical faces of the adjoining road surfacing must be treated with an approved bitumastic material before laying the wearing course. On new installations, neither the apparatus or the fine fill may encroach into the sub base.

TYPE 4

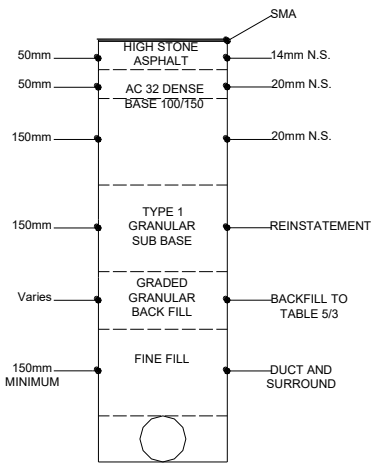
CHOICE A



CHOICE B

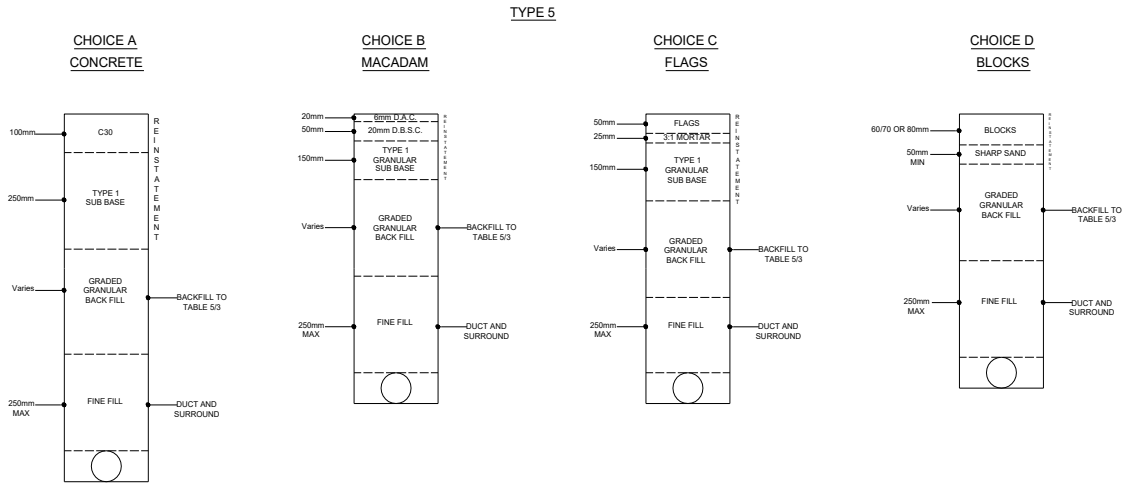


CHOICE C



The vertical faces of the adjoining road surfacing must be treated with an approved bitumastic material before laying the wearing course. On new installations, neither the apparatus or the fine fill may encroach into the sub base.

APPENDIX 7/2 (CONT'D) – EXCAVATION, TRIMMING AND REINSTATEMENT OF EXISTING SURFACES



The vertical faces of the adjoining road surfacing must be treated with an approved bitumastic material before laying the wearing course. On new installations, neither the apparatus nor the fine fill may encroach into the sub base.

APPENDIX 12/1 – TRAFFIC SIGNS - GENERAL

1. TRAFFIC SIGN POSTS AND PLATES

e) Posts shall be wide based circular to dimensions specified by the Engineer and comply with the requirements of B.S. 4848 Part 2.

f) Sign posts shall be manufactured from galvanised steel to B.S. 5649 Part 3 and shall be protected in accordance with Appendix 19/3.

g) All posts shall have hammer-in external fit PVC post caps to prevent ingress of water.

h) Foundations may be constructed in two parts:

i) Up to socket bases (this maybe either a pre-cast concrete slab of the required thickness or be cast insitu.

ii) Remaining Foundation; Providing that the requirements of Clause 2602 are met.

i) Foundations may be circular in plan providing that:

i) the diameter is not less than the length (y) for the equivalent rectangular foundation and

ii) The total volume of the cylindrical foundation is not less than the volume of the equivalent rectangular foundation.

j) Erection of posts shall comply with the requirements of Clause 1208 and drawings forming part of this Contract.

k) For type M12 & M12E assemblies post spacing shall be specified by the Engineer.

l) Supplementary plates shall not be considered for the purpose of the post and foundation design unless the total are of such places exceeds $0.3m^2$ after which they must be considered to be an additional sign of height (h) for post foundation design.

2. SIGN FACE CONSTRUCTION DETAILS

a) Extruded aluminium channels for use as backing bars to comply with BS1474 and dyed grey wall thickness of extrusion to be 2.5mm nominal.

b) Channels to be affixed to sign face without puncturing sign face material BSEN 12899-2 : 2007.

c) Signs to be attached to posts either by stainless steel channel clips or stainless steel banding, applied as per manufacturer's instructions. Signs are to be attached to posts at each incidence of post and channel.

d) Clips to be manufactured from AIS1304 stainless steel alloy to BS970 and attached to channel with 13mm square headed M8 AISI 304 alloy bolts, tightened to a torque load of 1.33×10^4 Kgf/m^2.

e) Banding to be manufactured from type 201 stainless steel to BS970 0.76mm thick, 13mm wide buckles and other fixing to be of type 201 alloy.

f) Vertical spacing of horizontal backing bars shall not exceed 600mm. All signs shall have a minimum of two horizontal bars.

g) Rectangular signs exceeding 600mm vertically shall be provided with vertical backing bars along each vertical edge.

h) On rectangular signs not exceeding 1500mm overall width when erected on one post, 2300mm width on two posts or 3000mm width on three posts, horizontal backing bars shall be minimum, and the vertical small. Signs with widths exceeding these values shall be provided with large horizontal bars and medium vertical bars. Signs with a width of less than 600mm shall be provided with small horizontal backing bars.

i) Sign faces shall be constructed from a single sheet of approved material in accordance with clause 1205. If vertical joints are necessary they shall be constructed by means of a strip of approved material 50mm wide fixed along the entire length of the joint in a manner that does not puncture the sign plate in accordance with paragraph 3 above. Horizontal joints shall be constructed in accordance with the channel manufacturer's instructions.

j) With regard to flag type signs Paragraph 9 applies, except that no vertical backing bars are required. Horizontal bars shall terminate no more than the specified distance from sign edges (see drawing No: SL/CD0006 A).

k) All sign faces shall be constructed from approved sheet material to BS EN 12899-1, and the rear painted medium grey to 18B21 of BS4800.

l) Facing materials shall comply with BS EN 12899-1 : 2007 or BS 8408 (for microprismatic) : 2005 and the Department of Transport TA/19/81 and comply with the class of reflectivity specified in Appendix 12/1.

3. LARGE BASE TRAFFIC SIGN POSTS SHALL:-

a) have a minimum base section of 168mm diameter which must be turned/ forged/swaged to the small diameter. Cones formed from sheet steel and welded to both sections will not be accepted.

b) Be provided with an external fit P.V.C post cap to prevent the ingress of water.

c) Have a minimum door opening of 450mm long by 125mm wide.

d) Be installed with the door opening as detailed below:-

POST POSITION	-	DOOR POSITION
Back of footpath	-	Facing road
Near kerb edge	-	Facing away from oncoming traffic
Centre of central reserve	-	Facing oncoming traffic in a consistent direction as shown on the drawings
Near edge of central reserve	-	Facing away from oncoming traffic or facing distant side of reserve in a consistent direction as shown on the drawings
Grass verge	-	Facing away from road

e) Be provided with location marks for inspection and maintenance on the post after erection as follows:-

APPENDIX 12/1 (CONT'D) – TRAFFIC SIGNS – GENERAL

i) Lit Traffic Posts mounted in the central reserve are to have 75mm high numbering on both sides of the post, each number is to face the oncoming traffic at an angle of approximately 45°.

ii) Verge mounted lit Traffic Sign Posts are to have 50mm high numbering on one side of the post, facing the oncoming traffic.

iii) The numbering shall be in accordance with the lit Traffic Sign Column reference numbers shown on the drawings. The numbers shall be BLACK characters on a WHITE background extending to 25mm beyond any character in any direction, 1.8 Metres above adjacent ground level. The colour of the characters and/or background may be varied by the Engineer, by written instruction.

f) Each large base post shall be earthed with an 8mm (minimum) diameter earth terminal with two plain washers and nuts, all of which shall be manufactured from brass. The earth stud shall be so positioned as to be readily accessible through the door opening.

4. LARGE BASE POST DOORS

a) Posts are to be provided with weatherproof single doors, each with a tamper proof locking device.

b) Door openings and Columns shall be free from irregularities or burrs.

c) Except for doors which are required to be captive, all doors are to be interchangeable between similar types of posts without adjustment.

d) The number of door keys supplied shall be 10% of the number of posts erected subject to a minimum of three keys.

LIT TRAFFIC SIGN EXTERNAL LUMINAIRES SCHEDULE

The Client shall provide in the table below brief details of the preferred equipment and of an alternative for the preferred equipment which the Contractor proposes to supply under the terms of the Contract.

The Client shall provide a detailed Scope Document of the preferred and alternative equipment with the completed Tender and shall provide samples of the equipment if requested by the Engineer.

The completed Appendix must be returned with the Tender Document.

External Luminaires Type	Lamp				PREFERRED EQUIPMENT		ALTERNATIVE OFFERED	
	Type	Wattage	No:	Configuration	Manufacturer	Model	Manufacturer	Model
					TMP Reddilight Portland Glasdon			

APPENDIX 12/1 (CONT'D) – TRAFFIC SIGNS – GENERAL

LED Lit Traffic Sign External Luminaires shall:-

a) comply with BS 12899:2007 and Chapters 11 and 13 of the Traffic Signs Regulations and General Directions, 2002 and shall comply in all aspects with BS 12899-1:2007 Categories 1 & 2 if Paragraph 8.2 (Mean Illuminance).

b) Be constructed from cast or extruded aluminium in accordance with BS 12899-1:2007 Section 4.2.1 (e) and (g). The use of external cast hinges will not be allowed with preference to be given to luminaires with full length hinges. Luminaire Type A and B shall be of one piece construction the enclosure of which shall mount directly to the post without the need for a separate tubular or similar support bracket.

c) Have a removable reflector of gauge not less than 1.2mm with an anodic coating complying with BS 1615 1972, of uniform high specular finish free from grain and cloudy areas.

d) Be provided with a variety of support systems to provide the correct optical performance and to allow for single and back to back fixing arrangements.

e) The external surfaces of the luminaire body shall be protected by a paint system, etched primed and painted thermosetting polyester powder coating minimum film thickness 150 microns final finish stove grey.

f) Have all glazing panels manufactured from 3mm polycarbonate and fitted to the luminaire by means of a suitable gasket, which provided all round support to the glazing panel.

g) Have a degree of protection rating IP56 to BS EN 60529.

h) Post top mounted back to back luminaires shall preferably be manufactured as a one piece body into which all electrical components and glazing panels are fitted.

i) Be supplied complete with a one piece miniature encapsulated photo cell rated at 35/18 Lux and comply with the requirements of Appendix 14/4.

APPENDIX 12/1 (CONT'D) – TRAFFIC SIGNS – GENERAL

LIT BOLLARD SCHEDULE

The Contractor shall provide in the table below brief details of the preferred equipment and of an alternative for the preferred equipment which the Contractor proposes to supply under the terms of the Contract.

The Contractor shall provide a detailed Scope Document of the preferred and alternative equipment with the completed Tender and shall provide samples of the equipment if requested by the Engineer.

The completed Appendix must be returned with the Tender Document.

Aspect		Material	Lamp			PREFERRED EQUIPMENT		ALTERNATIVE OFFERED	
Size	No:		Type	Wattage	No:	Manufacturer	Model	Manufacturer	Model
270		Plastic	LED	3		Pudsey Diamond	Solaboll		
			Non lit	0		Pudsey Diamond	Visabolll		

Lit Traffic Bollards shall be provided with a location marks for inspection and maintenance on the post after erection as follows:-

i) Lit Traffic Bollards are to have 50mm high numbering on an aspect which faces oncoming traffic.

ii) The numbering shall be in accordance with the Lit Traffic Bollard reference numbers shown on the drawings. The numbers shall be BLACK characters applied directly to the aspect 0.5 Metres above adjacent ground level.

Flexible Base Lit Bollards

a) all illuminated panels shall conform with the appropriate diagrams referred to in the Traffic Signs Regulations and General Directions, 2002, insofar as pattern and colour are concerned. The Bollard shall be suitable for 1, 2, 3 and 4 aspects when the prescribed sign is 270mm diameter and 1 aspect when the sign is 600mm diameter.

b) The body shall be rotationally moulded U.V stabilised RE-FLEX and the sign face(s) and panels shall form an integral part of the moulding. All external and internal surfaces shall have a smooth finish to facilitate cleaning and shall be resistant to abrasion. The body shall be strengthened with a steel or aluminium liner instead into the base plinth.

c) The base section shall be constructed from either diecast LM6-M with stainless steel hinges

d) The Bollard base shall be suitable for bolting down using 4 no. M10 austenitic stainless steel "J" bolts, nuts and washers to BS EN 3506-2:1998 at fixing centres in accordance with BS 12899-1:2007.

APPENDIX 12/1 (CONT'D) – TRAFFIC SIGNS – GENERAL

e) Cable access shall be through the rear of the base and shall be sealed by either:-

i) heat shrinkable sleeving
ii) cold pour compound
iii) cable glands

f) The base unit shall have a degree of protection rating IP67 to BS EN 60529.

g) The body shall be attached to be base by means of nylon or brass M10 bolts or shear pins.

h) The service cut out shall be incorporated into the base section and together with all wiring in the base section shall be covered by a removable diecast LM6 or hot dipped galvanised 10 swg sheet steel lid incorporating a 3mm clear polycarbonate glazing panel. The lid shall be attached to the base unit by means of 4 no. M10 austenitic stainless steel nut bolts and washers to BS EN 3506-2:1998.

i) The base section shall be common to all Bollards offered.

j) The gear tray/lighting unit shall be incorporated into the base unit and shall be removable for maintenance. The gear tray/lighting unit shall be provided with a means of electrical isolating and/or disconnecting and shall incorporate LED of suitable size to illuminate the aspects in accordance with BS 12899-2:2007 Table 1. Control gear for the lamps shall be securely attached to the gear tray/lighting unit and shall be independent and separately fused to enable one lamp to operate in the event of the failure of the other circuit. All control gear shall be terminated in screw type terminals and the lamps and control gear or LED and driver. shall be suitable for operation on 220 to 250 volts, 50 Hertz A.C (or low/extra low voltage for LED only)

k) The Contractor shall clearly state the number, wattage and configuration of the lamps used to meet the requirements of Table 1 of BS 12899-2:2007.

l) To be fitted with 35 lux on and 18 lux off mini photo electric control.

APPENDIX 12/70 - MAINTENANCE OF TRAFFIC SIGNS, BOLLARDS AND BEACONS

1. SCHEDULE OF LIT TRAFFIC SIGNS, BOLLARDS AND BEACONS

(a) Details of the Schedules forming part of Appendix 12/70 will form part of the Contract.

(b) The 'Schedule of Lit Traffic Signs, Bollards and Beacons' is a summary of the main inventory of illuminated Traffic Signs, Bollards and Beacons and is for information only. Full schedules will be made available to the successful Contractor.

(c) The information on the main inventory is constantly updated from information supplied by the maintenance Contractor and the DNO and regular updates of the inventory schedules will be supplied to the Contractor.

(d) Routine Maintenance Lists will be supplied on a monthly basis one month before the programmed works are to be carried out and the lists will clearly identify those Illuminated Traffic Signs, Bollards and Beacons to be maintained. The Contractor will repair any outages.

2. RECORD OF EQUIPMENT INSTALLED

(a) A comprehensive survey has been carried out to record all Lit Traffic Signs, Bollard and Beacon equipment owned and operated by the Client.

(b) The Contractor shall be responsible for providing "As Built" plans and Schematics for all changes and/or additions to the Lit Traffic Signs, Bollards and Beacons as they occur, and also updating the Client's Asset Register on the mobile device.

(c) Lit Traffic Sign, Bollard and Beacon Data shall be updated on the Asset Register for all:-

New Units
Removed Units
Resited Units
Changes to - Posts, brackets, lamp type and/or wattage, luminaires, controls, burning hours, supply, numbering.

(d) The Contractor shall notify the Engineer within 5 working days of units which are ready to be disconnected or require servicing.

(e) The computer inventory can be interrogated to produce summaries under various headings for all information contained on the computer. This information will be available from the Engineer on request.

3. DATA VERIFICATION

(a) It is conceivable that some information supplied to the Contractor may be incorrect, e.g. lamp type and/or burning hours, or that some units are not recorded on the existing records.

(b) The Contractor shall at each routine maintenance operation verify the data supplied by the Engineer and update the Asset Register via the mobile device with any changes.

APPENDIX 12/70 (CONT'D) - ROUTINE MAINTENANCE OF TRAFFIC SIGNS, BOLLARDS AND BEACONS

4. DATA COLLECTION

(a) The Engineer may instruct the Contractor to undertake additional data collection at the specified dayworks rate on the mobile device.

(b) A cable schematic of each individual cable network showing each individual Lit Traffic Sign, Lit Traffic Bollard and Street Lighting unit will also be produced by the Contractor.

5. ISSUING OF INSTRUCTIONS TO THE CONTRACTOR (WORKS ORDERS)

(a) The Engineer will issue the Contractor with a Works Order contained in Appendix 12/71 for routine maintenance programmes.

(c) The Engineer will issue the Contractor with a Works Order contained in Appendix 12/71 for Unscheduled Maintenance on the day of public report or the day following Night Patrol Inspection

(c) On completion of the operations listed on the Works Order the Contractor shall return the signed and dated Works Order to the Engineer listing any additional operation numbers for labour and/or materials used.

(d) The completed Works Order will be the basis of payment in accordance the Conditions of Contract.

6. CONTRACTOR RESPONSE TIME

ACTIVITY	ACTION TO BE TAKEN BY CONTRACTOR
Unscheduled Repairs	Return the Works Order to the Engineer within 5 working days of the date of issue
Routine Maintenance	Return the Works Order to the Engineer within 30 working days of the works being issued.

APPENDIX 12/70 (CONT'D) - ROUTINE MAINTENANCE OF TRAFFIC SIGNS, BOLLARDS AND BEACONS

7. CLASSIFICATION OF THE STRUCTURAL CONDITION OF LIT TRAFFIC SIGNS, BOLLARDS AND BEACONS

(a) The structural condition of each Lit Traffic Sign, Bollard and Beacon shall be recorded on the mobile device by the Contractor while making the routine or unscheduled maintenance visit. Please note this activity is a 'Visual' Condition Survey only.

(a) The structural classification shall be as specified in the Contract and as shown on Drawing Nos: SL/CD0033 A, SL/CD0034 A and SL/CD0035 A.

Client's EXISTING APPARATUS

SCHEDULE OF LIT SIGNS

Sign Type	Quantity
LIT SIGN – 0.01m – 0.99m	1739
LIT SIGN – 1.00m – 1.99m	24
LIT SIGN – 2.00m – 3.99m	6
LIT SIGN – 4.00m – 9.99m	2
LIT SIGN – 10.00m – 25.00m	2
LIT / NON LIT BOLLARD	238 / 720
BELISHA BEACON / CENTRE ISLAND BEACON	139 / 70
SCHOOL CROSSING PATROL FLASHERS	54

APPENDIX 12/71 - MAINTENANCE OF TRAFFIC SIGNS, BOLLARDS AND BEACONS

1. The Contractor shall comply fully with the requirements of Clause 1 to 3 of Appendix 12/70 in respect of all works undertaken as additional maintenance of Traffic Signs.

CONTRACTOR RESPONSE TIMES

ACTIVITY	ACTION TO BE TAKEN BY CONTRACTOR
Electrical Test	Inspect and test all cable networks which are the responsibility of the Engineer in accordance with BS7671 and return the Works Order to the Engineer within 30 working days of the works being issued.
DNO Fault	Notify the Engineer by email for an Electrical Service Fault within 2 working days
Standby Callout	Notify the Engineer on the Contractor Callout form by email, by 08:30 hours the following day. If it is following an Road Traffic Collison (RTC). and requires DNO attendance to disconnect, notify the Engineer by telephone immediately during **Normal Working Hours** , or the Client's Security Service out of **Normal Working Hours.**
Traffic Sign Erection/Removal	Update the Client's Asset Register with any changes on the mobile device within 5 working days

2. ISSUING OF INSTRUCTIONS TO THE CONTRACTOR (WORKS ORDERS)

(a) The Engineer will issue the Contractor with a Works Order contained in Appendix 12/71 on a as and when required basis for additional maintenance.

(b) On completion of the operations listed on the Works Order the Contractor shall return the signed and dated Works Order to the Engineer listing any additional operation numbers for labour and/or materials used.

(c) The completed Works Order will be the basis of payment in accordance with the Conditions of Contract.

APPENDIX 13/1 - INFORMATION TO BE PROVIDED WHEN SPECIFYING LIGHTING COLUMNS AND BRACKETS

1. SHEET STEEL LIGHTING COLUMNS

(a) All Columns and bracket shall be manufactured from galvanised steel in accordance with BS 4360 Grades 43 and 50 or their equivalent.

(b) Shall be one piece continuously tapering and seam welded up to a height of 14 metres.

(c) All bracket arms shall have an anti-rotational device, and the Lantern spigot shall be swaged from the same length of steel.

(d) Lighting Columns and brackets manufactured from galvanised steel to BS 5649 Part 3 shall be protected in accordance with Appendix 19/1.

(e) Each Column and bracket shall carry a unique identification mark which indicates the Column manufacture, year of production and the Column and bracket data sheet reference number.

(f) Completed Data sheets in accordance with Appendix 13/2 shall be provided to the Engineer as and when requested.

(g) All Column brackets shall be of a similar style and appearance.

2. TUBULAR STEEL PAINTED LIGHTING COLUMNS

(a) Columns and Brackets shall fully comply with requirements of BS EN 40.

(b) The Columns and brackets shall be manufactured from either:-

Hot finished circular hollow sections to BS 4848: Part 2: 1991: and grade 43C or 50C to BS 4360:1990
or
Cold formed circular hollow sections without subsequent heat treatment to the dimensional requirements of BS 4848 : Part 2 : 1991 and to the chemical and mechanical properties of BS 4360 : 1990 Grade 43C or 50C. The hot finished tube feed stock material shall comply with the yield, tensile and elongation requirement given in BS 4360 : 1990 : Table 19.

(c) Columns to be swaged on a push-point bema machine and anti-rotational grooves automatically punched into the swaged section. For bracket fixing - bracket sleeve to fit over swaged shaft and fitted with 2 rows of 4 grub screws.

(d) Column base to shaft joint to be hot shrunk interference fit joint.

(e) Doors shall be lipped type oval shaped top and bottom and have a ‘Y’ shaped bar type fixing mechanism.

(f) New Columns provided shall be painted RAL 6009 Green, unless otherwise specified by the Engineer.

(g) Brackets to be produced with welded top-plate on bracket sleeve.

APPENDIX 13/1 (CONT'D) - INFORMATION TO BE PROVIDED WHEN SPECIFYING LIGHTING COLUMNS AND BRACKETS

3. LOCATION AND WARNING MARKINGS

(a) Location marks for inspection and maintenance purposes are to be provided on the Columns after erection as follows

(i) Columns mounted in the central reserve are to have 75 mm high numbering on both sides of the Columns; each number is to face the oncoming traffic at an angle of approximately 45°.

(ii) Verge mounted Columns are to have 50 mm high numbering on one side of the Columns, facing the opposite side of the carriage way.

(iii) Where Columns contain 415 volts supplies a self-adhesive label marked "**DANGER 415 VOLTS**" shall be fixed adjacent to the location mark.

(iv) The numbering shall be in accordance with the Column reference numbers shown on the drawings. The numbers shall be BLACK characters on a YELLOW background extending to 25 mm beyond any character in any direction, 1.8 Metres above adjacent ground level. The colour of the characters and/or background may be varied by the Engineer, by written instruction.

4. COLUMN DOORS

(a) Columns with separate bracket arms shall be installed with the door openings as detailed below.

COLUMN POSITION	DOOR POSITION
Back of footpath	Facing road.
Near kerb edge	Facing away from oncoming traffic.
Centre of central	Facing oncoming traffic in a consistent direction reserve as shown on the drawings.
Near edge of central reserve	Facing away from oncoming traffic or facing distant side of reserve in a consistent direction.
Grass verge	Facing away from road.

(b) Columns are to be provided with weatherproof single doors, each with a tamper proof locking device.

(c) Door openings, bracket arms and Columns shall be free from irregularities or burrs.

(d) Columns mounted on bridges or viaducts behind parapets shall have the bottom of the door opening 1.10 m above the top of the parapet plinth.

APPENDIX 13/1 (CONT'D) - INFORMATION TO BE PROVIDED WHEN SPECIFYING LIGHTING COLUMNS AND BRACKETS

(e) Stainless steel fixings or chains shall be used to hold the door captive where there is a likelihood of the door falling away i.e. lighting unit installed above datum.

(f) Except for doors which are required to be captive, all doors are to be interchangeable between similar types of Columns without adjustment.

(g) The number of door keys supplied shall be 10% of the number of Columns erected subject to a minimum of three keys.

5. COLUMN EARTHING

(a) Each Column shall be earthed with an 8 mm (minimum) diameter earth terminal with two plain washers and nuts, all of which shall be manufactured from brass. The earth stud shall be so positioned as to be readily accessible through the door opening and an equivalent type fixing shall be applied to the door of the Column.

6. QUALITY ASSURANCE

(a) All lighting Columns supplied under this tender shall be manufactured in accordance with the procedures of ISO 9002.

APPENDIX 13/1 (CONT'D) - INFORMATION TO BE PROVIDED WHEN SPECIFYING LIGHTING COLUMNS AND BRACKETS

COLUMN AND BRACKET SCHEDULE

The Contractor shall provide in the table below brief details of the preferred equipment and of an alternative for the preferred equipment which the Contractor proposes to supply under the terms of the Contract.

The Contractor shall provide a detailed Scope Document of the preferred and alternative equipment with the completed Tender and shall provide samples of the equipment if requested by the Engineer

The completed appendix must be returned with the Tender Document.

APPENDIX 13/70 – MAINTENANCE OF STREET LIGHTING UNITS

1. SCHEDULE OF LIGHTING POINTS

(a) Details of the Schedules forming part of Appendix 13/70 will form part of the Contract.

(b) The 'Schedule of Lighting Points' is a summary of the main inventory of lighting points and is for information only. Full schedules will be made available to the successful Contractor.

(c) The information on the main inventory is constantly updated from information supplied by the maintenance Contractor and the DNO and regular updates of the inventory schedules will be supplied by the Contractor.

2. RECORD OF EQUIPMENT INSTALLED

(a) A comprehensive survey has been carried out to record all street lighting equipment owned and operated by the Client.

(b) Records are held in the form of a computer inventory.

(c) The Contractor shall be responsible for updating the computer inventory via the mobile device, and providing "As Built" plans and Schematics for all changes and/or additions to the street lighting systems as they occur.

(d) The Contractor shall notify the Engineer within 5 working days of units which are ready to be disconnected or require servicing.

(e) The computer inventory can be interrogated to produce summaries under various headings for all information contained on the computer.

3. DATA VERIFICATION

The contractor shall at each maintenance operation verify the data supplied by the Engineer and update the Asset Register via the mobile device with any changes.

4. DATA COLLECTION

(a) The Engineer may instruct the Contractor to undertake any over and above data collection at the specified dayworks rate on the mobile device.

(b) A cable schematic of each individual cable network showing each individual Lit Traffic Sign, Lit Traffic Bollard and Street Lighting unit will also be produced by the Contractor.

5. ISSUING OF INSTRUCTIONS TO THE CONTRACTOR (WORKS ORDERS)

(a) The Engineer will issue the Contractor with a Works Order contained in Appendix 13/71 on a weekly basis for unscheduled repairs, and/or maintenance programmes.

(b) On completion of the operations listed on the Works Order the Contractor shall return the signed and dated Works Order to the Engineer listing any additional operation numbers for labour and/or materials used.

(c) The completed Works Order will be the basis of payment in accordance with the Conditions of Contract.

6. CONTRACTOR RESPONSE TIME

ACTIVITY	ACTION TO BE TAKEN BY CONTRACTOR
Unscheduled Repairs	Return the Works Order to the Engineer within 5 working days of the date of issue

7. CLASSIFICATION OF THE STRUCTURAL CONDITON OF STREET LIGHTING COLUMS

(a) The structural condition of each street lighting Column shall be recorded by the Contractor on the Works Order during every visit when making the maintenance visit and updating the Asset Register via the mobile device. Please note this activity is a 'Visual' Condition Survey only

(b) The structural classification shall be as specified in the Contract and as shown on Drawing Nos: SL/CD0030 A, SL/CD0031 A and SL/CD0032 A.

APPENDIX 13/71 – ADDITIONAL MAINTENANCE OF STREET LIGHTING UNITS

1. The Contractor shall comply fully with the requirements of Clause 1 to 3 of Appendix 13/70 in respect of all works undertaken as additional maintenance of street lighting Columns and the following.

CONTRACTOR RESPONSE TIME

ACTIVITY	ACTION TO BE TAKEN BY CONTRACTOR
Electrical Test	Inspect and test all cable networks which are the responsibility of the Engineer in accordance with BS7671 and return the Works Order to the Engineer within 30 working days of the works being issued.
DNO Fault	Notify the Engineer by telephone or email for an Electrical Service Fault within 2 hours of attendance
Standby Callout	Notify the Engineer on the Contractor Callout form by email, by 08:30 hours the following day. If it is following an RTC. and requires DNO attendance to disconnect, notify the Engineer by telephone immediately during normal working hours, or the Client's Security Service out of normal working hours.
Column Erection/Removal	Update the Client's Asset Register with any changes on the mobile device within 5 working days

2. ISSUING OF INSTRUCTION TO THE CONTRACTOR (WORKS ORDERS)

(a) The Engineer will issue the Contractor with a Works Order contained in Appendix 13/71 on a daily basis for additional maintenance.

(b) On completion of the operations listed on the Works Order the Contractor shall return the signed and dated Works Order to the Engineer listing any additional operation numbers for labour and/or materials used.

(c) The completed Works Order will be the basis of payment in accordance with the Conditions of Contract.

RULES FOR WORKING IN THE VICINITY OF NORTHERN POWERGRID OWNED EQUIPMENT

1. Cut Outs

1.1 When a cut-out fuse has been removed for the purpose of work or testing on the outgoing side of a Northern Powergrid owned cut out, the live exposed phase terminal on the incoming side shall be shrouded with Northern Powergrid approved insulating material and shall so for such time as the cut out cover is removed.

1.2 Under NO circumstances shall a cut out be disconnected from the Northern Powergrid supply cable.

1.3 Northern Powergrid cut outs shall not be left unattended when Columns or the furniture housings have been removed, unless they have been protected against unauthorised interference by a substantial temporary housing suitably marked to warn of live apparatus.

1.4 Only HRC fuselinks approved by Northern Powergrid shall be used in Northern Powergrid cut-out fuse carriers.

1.5 Northern Powergrid must be notified without delay of any danger, repair requirement or suspected defect in their equipment. No attempt should be made to interfere with Northern Powergrid equipment which is damaged or suspected to be faulty.

2. **LAMPS ON OVERHEAD LINE SUPPORTS**

2.1 The initial erection of furniture and fittings on Northern Powergrid posts and supports must be carried out by Northern Powergrid staff.

2.2 Northern Powergrid must be notified without delay of any danger, repair requirement or suspected defect in their equipment. No attempt should be made to interfere with Northern Powergrid equipment which is damaged or suspected to be faulty.

2.3 Adequate earthing of metalwork of a street lighting fitting is not to be assumed and is to be regarded as live until proven otherwise.

2.4 Wood poles must be sounded and prodded for the detection of any decay before being climbed; wood poles marked with a "D" symbol or otherwise suspected to be unsound shall not be climbed by ladder or climbing irons.

2.5 No person shall work on a pole or support unless in visual range of a second person.

2.6 No metal ladder, or ladder with metal stile reinforcement, shall be used on Northern Powergrid poles or supports.

2.7 Nothing must be done to conceal or obliterate a "D" symbol on a pole.

2.8 Work must be conducted in such a manner that no part of the body, working tool or any part of the working platform is within a distance of 1.0m of any exposed overhead conductor operating at up to 650 volts. Northern Powergrid will undertake any work necessary on such installation where 1.0m clearance cannot be observed, where the bracket level is level with, or above, the overhead line.

2.9 When working on Columns in the vicinity of overhead lines operating above 650 volts, a minimum safe working clearance of 3.0m between any part of the body or tool or equipment and the overhead line must be maintained at all times. No part of working platforms used in the vicinity of overhead lines operation above 650 volts must be raised to a height greater than 1.0m below the top of the Column. The platform must be kept as close to the Column as practicable.
Where hinged Columns are installed in the vicinity of overhead lines, operatives must not ascend to the top of the Column which is in the raised position unless, on account of special circumstances, authority in writing is forst obtained.

NOTE: NO OTHER WORK OTHER THAN THAT AUTHORISED OVERLEAF WILL BE CARRIED OUT AT ANY TIME

Name of Employee:-

Appointment of Person Authorised to Work on Street Lighting and Street Furniture Services connected to Northern Powergrid Low Voltage Network	SERIAL NO: **NEL/001/R**

Having been trained for the purpose, the above named employee is hereby authorised to undertake the following categories of work in accordance with the Engineering Recommendations No: G39, and Northern Powergrid Engineering Memorandum No: ESD 13.04

AUTHORISATION TO WORK ON NORTHERN POWERGRID LOW-VOLTAGE UNDERGROUND SERVICE TERMINATIONS

1. Removal and replacement of Northern Powergrid cut-out fuse.

2. Initial Insertion of Northern Powergrid cut-out fuse and connection of Authority's wiring.

3. Disconnection and reconnection of Authority's wiring from outgoing side of Northern Powergrid cut-out.

AUTHORISATION TO WORK ON NORTHERN POWERGRID LOW-VOLTAGE OVERHEAD LINES

1. Removal and replacement of Northern Powergrid cut-out fuse.

2. Initial Insertion of Northern Powergrid cut-out fuse and connection of Authority's wiring.

3. Disconnection and reconnection of Authority's wiring from outgoing side of Northern Powergrid cut-out.

EXPIRY DATE: This certificate is valid until:-

A copy of this certificate SHALL be carried by the Competent Person when employed on these duties and the rules outlined in

	Appendix III MUST be adhered to during such operations.

APPENDIX 14/1 – SITE RECORDS

As-built drawings shall be produced by the Contractor on a pdf or word document for the lighting and Lit Traffic Sign installation and provided to the Engineer. These completed drawings shall be in accordance with the following :-

(a) They shall incorporate the maintenance or operating manuals for installed equipment;

(b) All apparatus subject to a public view record must be surveyed on site with the location measurements (i.e. the position of apparatus relative to features appearing on the base map) being measured and recorded to an accuracy of +/- 0.1 metre. Sufficient measurements must be taken on site to represent accurately the line of the apparatus.

(c) The site records shall include details of all road lighting Columns, Lit Traffic Sign units, Lit Traffic Bollards and Pedestrian refuge and/or Crossing Beacons.

(d) Cable schematics shall be provided for each feeder pillar/feeder Column and shall show in schematic form the following information:

i) each individual circuit;

ii) individual cable size and configuration;

iii) all Columns, Lit Traffic Signs, Lit Traffic Bollards per circuit;

iv) all Columns, Lit Traffic Signs, Lit Traffic Bollards shall be identified by their individual painted identification number/letter – all Feeder Pillars/Feeder Columns to be numbered with suffix ie “FP”.

v) All cable joints.

APPENDIX 14/3 – TEMPORARY LIGHTING

1. Existing street lighting units and lit sign units shall be fully maintained until the new installations have been commissioned as detailed in 4(i),(ii) and (iii) below except where existing units are moved or altered under the Contract.

2. Temporary lighting shall be provided where there is a delay of more than 4 hours between the removal or disconnection and re-erection or connection of any existing plant which is moved or altered under the Contract.

3. Temporary lighting to the Electricity at Work Regulations 18th Edition, and any other updated Editions that supersede the current edition and to a similar standard as the existing lighting may be provided in lieu of maintenance of the existing installation.

4. Temporary lighting shall not be removed or switched off until : -

   (i) the permanent installation is in full operation;

   (ii) an inspection has been carried out on the operation of the permanent installation not less than 24 hours or more than 7 days after commissioning;

   (iii) any adjustments, remedial work or replacements found necessary have been carried out;

   (iv) the system has been re inspected as (ii) above.

APPENDIX 14/4 – ELECTRICAL EQUIPMENT FOR ROAD LIGHTING

1. LUMINAIRES

(i) All luminaires shall have a Nema Socket in a suitable location along the canopy to accommodate the installation of a Nema photo electric cell unit.

(ii) All electrical wiring which is subject to heat shall be protected by heat insulating sleeving. No exposed wiring will be permitted within the lamp housing.

(iii) All luminaires shall have incorporated into the optical system a method by which the light distribution can be varied to optimise the width and spread of the light without recourse to the provision of additional components.

(iv) All luminaires shall have a minimum IP rating of IP65 in accordance with BS 5490

(v) All luminaires shall incorporate LED lamps and LED driver which shall be mounted within its own module and preferably separated from the lamp housing by a heat resistant screen. The control gear module shall be designed for ease of access for maintenance purposes and be completely removable for replacement.

(vi) All post top luminaires shall be so designed to allow the lamp to be burnt in the horizontal position and shall be fitted with a reflector system to provide an asymmetrical light distribution.

(vii) All luminaire bowls/shades shall be manufactured from polycarbonate or similar approved vandal resistant materials and moulded in such a manner so as to preclude high stress points.

(viii) The bodies of luminaires shall be manufactured from LM6 cast aluminium. and painted to RAL 7040 unless otherwise specified by the Engineer.

(ix) All fixing bolts and nuts shall be manufactured from austenitic stainless steel to BS EN 3506-2:1998. Similarly, all clips and hinges shall be manufactured from austenitic stainless steel, although hinges may be moulded in the same material and form an integral part of the bowl.

(x) All offered equivalent luminaires shall be equivalent in size, shape and designed such that the photometry of the Lantern provides similar light distribution characteristics of the luminaire specified.

(xi) All new luminaires shall be protected in accordance with Appendix 19/1

APPENDIX 14/4 (CONT'D) – ELECTRICAL EQUIPMENT FOR ROAD LIGHTING

2. LAMPS

(i) LED lamps shall comply with BS EN 5489

2A WARRANTY OF LAMPS
All lamps shall have the following rated and guaranteed life:

Lamp Type	Rated Life (hours)	Guaranteed Life (hours)
LED	41250	41250
MCF/U & MBF/U	8,000	4,000
PL	12,000	8,000

APPENDIX 14/4 (CONT'D) – ELECTRICAL EQUIPMENT FOR ROAD LIGHTING

3. ANCILLARY EQUIPMENT

(i) CONTROL GEAR

(a) Control gear including LED drivers shall be integrally mounted in luminaires.

(b) Maximum total circuit wattages to be in accordance with the following tables:-

Lamp Type	Circuit Wattage
LED	11
LED	21
LED	28
LED	40
LED	52
LED	64
LED	79
LED	104

APPENDIX 14/4 (CONT'D) – ELECTRICAL EQUIPMENT FOR ROAD LIGHTING

(ii) PHOTO-ELECTRIC CONTROL UNITS (PECU)

(A) Classification of P.E.C.U. shall be Class 2 according to protection against electric shock and IP54 according to degree of protection against ingress of dust and moisture.

(B) P.E.C.U. shall be suitable for use on a 230 volt 50 Hz supply and have a switching capacity of 5A minimum (inductive). The unit shall also be able to function correctly where supply voltages are reduced to 220 volts. The unit will be in general solid state with no thermal components and the detector will be a photo diode/transistor.

(C) The units shall be calibrated to provide a switch-on level of 35 lux +/- 10%. Calibration tests will be carried out at an independent testing facility on behalf of the Engineer.

Cells tested will be stabilised for 5 days before testing. The switching level of 35 lux will be maintained during the guaranteed life of the cell. The Engineer may at their discretion remove a sample of units (10 units) for use each year to confirm calibration. In the event that the sample tested fails, all units supplied of that origin will be replaced at the Contractors expense (material and labour cost) on a one for one basis.

The switch should be capable of performing not less than 6,000 operations at the rated load under normal operating conditions.

All components shall be capable of operating within the temperature range of -20 to + 70 degrees Celsius. The Contractor will be required to prove that this requirement is met.

(D) All P.E.C.U.s shall have radio and electro-magnetic interference levels in compliance with:-

(i) CISPR 22 / BS 6527 1988 / EN 50 0811 for emission levels

(ii) IEC 801-3 / EN 50 082 – 1 for immunity levels

(E) The energy consumption of the units shall be less than 0.25 watt average.

(F) The Photocell will be required to have a manufacture guarantee electrically, mechanically and photometrically for a period not less than 5 years.

(G) In addition to the information required to be stated by BS5972 Contractors shall also provide the following details for all units offered:-

(a) On/Off ratio

(b) Energy consumption

(c) Dimensions and fixing details, installation and maintenance instructions

(H) The complete P.E.C.U. should withstand a shock to a minimum of 50g.

APPENDIX 14/4 (CONT'D) – ELECTRICAL EQUIPMENT FOR ROAD LIGHTING

(I) The P.E.C.U. miniature should be unaffected by normal in-service vibrations.

(J) All photo-electric control units shall utilise technology to maintain the circuit wattage to less than 0.25 watts.

TYPES OF PECU's

(1) ONE-PART UNIT in which the photo-electric sensor and the load switching components are housed in the same enclosure, suitable for insertion into a "NEMA" type socket to obtain mechanical and electrical connection.

(2) TWO-PART UNIT in which the photo-electric sensor and the load switching components are housed in separate enclosures. The photo-electric sensor (called the "detector") hereinafter) in its housing shall be suitable for direct mounting to luminaire canopies or other equipment by means of a mechanical screwed fixing or a saw toothed rubber plug.

(3) ONE-PART MINIATURE in which the photo-electric sensor and the load switching components are housed in the same enclosure, suitable for direct mounting to luminaire canopies or other equipment by means of a mechanical screwed fixing.

(iii) FUSED CUT-OUTS

(a) Fused links shall comply with BS 88 category of duty 240AC 16 rating Class Q1

(b) The fused cutout and secondary fuse shall be fully exposed within an IP44 FR grade ABS plastic enclosure with a tracking index in excess of 500 volts.

(c) The enclosure including integral metal gland plate shall be capable of providing three modular widths and accept din-rail mounted accessories.

(d) The isolator and fuse unit shall be suitable to meet the requirement shown on drawing Nos: SL/CD0025,SL/CD0026 and SL/DC0027 A.

(e) Fuse ratings to be in accordance with the following table:-

APPENDIX 14/4 (CONT'D) – ELECTRICAL EQUIPMENT FOR ROAD LIGHTING

Lamp Type	Fuse Rating AMPS
LED	4
PL-L – PL-C	4

(iv) ISOLATION

(a) Fused links shall comply with BS 88 category of duty 240AC16 rating Class Q1.

(b) The double pole isolator and secondary fuse shall be fully enclosed within an IP44 FR grade ABS plastic enclosure with a tracking index in excess of 500 volts.

(c) The enclosure including integral metal gland plate shall be capable of providing three modular width and accept din-rail mounted accessories.

(d) The isolator and fuse unit shall be suitable to meet the requirement shown on drawing Nos: SL/CD0028 A.

APPENDIX 14/5 – ELECTRICAL EQUIPMENT FOR TRAFFIC SIGNS

1. ANCILLARY EQUIPMENT

(i) CONTROL GEAR

(a) Control gear including ballasts, ignitors, starters and capacitors shall be integrally mounted in sign luminaires.

(b) Ignitors will provide one high voltage peak pulse per cycle across the discharge tube to achieve instant ignition and upon ignition shall automatically switch out of circuit.

(c) Ignitors should incorporate a failsafe device in the event of lamp failure or open circuit.

(ii) PHOTO-ELECTRIC CONTROL UNITS (PECU)

(a) As per Appendix 14/4

(iii) FUSED CUT-OUTS

(a) As per Appendix 14/4

APPENDIX 19/1 – PROTECTION OF STEELWORK AGAINST CORROSION

1. All new Traffic Sign Posts shall be protected against corrosion by being hot dipped galvanised in accordance with BS EN ISO 1461:1999

2. All new and/or replacement Columns and luminaires shall be protected against corrosion with the Client's paint system below.

3. The root section of the Column/post shall be further protected by TYPE G1 finish.

4. All existing steel Columns shall be protected by other parties throughout the duration of the Contract

Client's PAINT SYSTEM

Product Name:	COMPLIANT 2 PK ACRYLIC HIGH BUILD SHEEN FINISH
Reference Number:	83-line
Coating Type:	2 pack Acrylic
Typical Uses:	Iso-Cyanate-Free finish coat for structural steel. galvanised fabrications etc.
Colour:	Columns RAL 6009 – Green Lanterns RAL 7040 – Grey
Appearance of Dried Film:	Sheen
Volume Solids:	64%
VOC:	324 gms/lit
Dry film thickness:	Typical: 120 microns Range: 100-140 microns.
Drying Time at 20°C; (Will vary with temperature, air movement etc.)	Touch Dry: 2 Hour Firm Dry: 8 Hours Overcoat: 8 Hours
Surface Preparation:	Apply to clean degreased galvanised steel or other suitably pre-treated substrate (e.g. Mordant Solution)

APPENDIX 19/1 (CONT'D) – PROTECTION OF STEELWORK AGAINST CORROSION

SYSTEM TYPE "G1"

(i) External and internal surfaces

Flange mounted and rooted sheet steel Columns, overall treatment Galvanize.

(ii) External surface

Ground section, additional coats.

1st Coat: Item 155, 'T' Wash.
2nd Coat item 110, Zinc Phosphate Epoxy Primer (2 pack) AS.mdft 30um.
3rd Coat item 150, Pitch Epoxy (2 pack) AS.mdft 100um.

Minimum dry film thickness 150um.

(iii) Applications instructions.

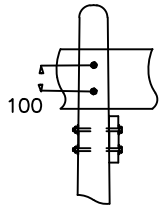
The requirements of Clause 1914.21 need not apply for lighting Columns/posts, which remain in a shop environment after galvanizing.

'T' Wash and shop paint coats on external surfaces shall be returned on to edges and 25mm inside at ends and under base flange.

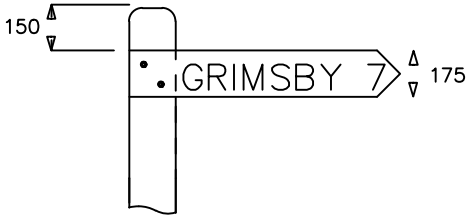
All paint coats shall be applied in the shops.

Item 110 shall be applied in shops.

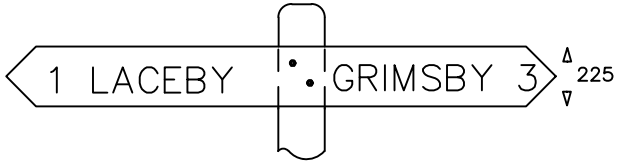
Items 155, 110 and 150 shall be applied from the bottom to 150mm above ground level.



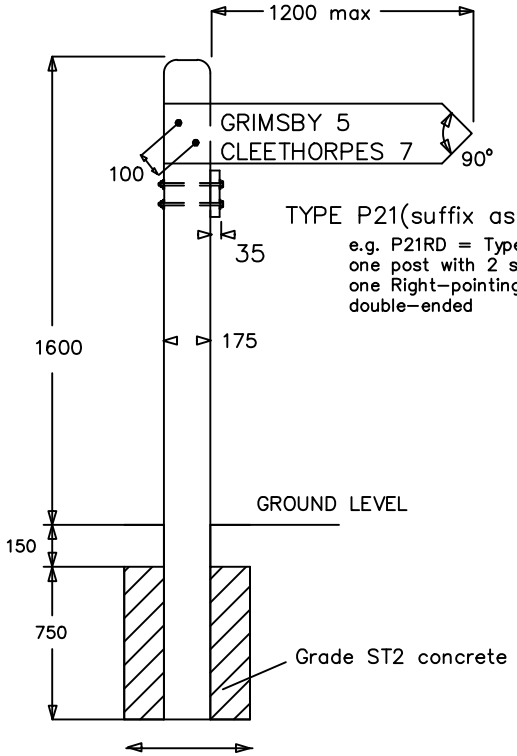
FIXING DETAILS FOR TAPERED POST



TYPE P11(suffix as applicable)

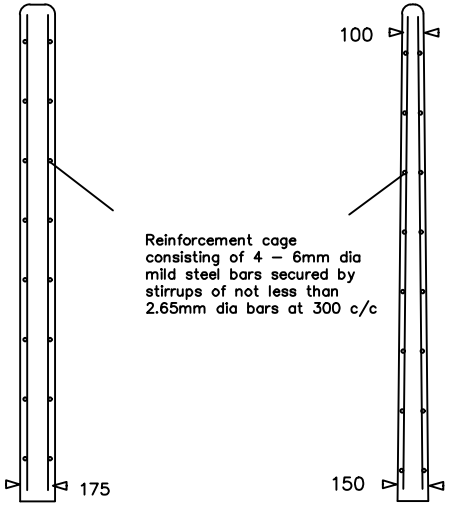


TYPE P21D(suffix as applicable)



TYPE P21(suffix as applicable)

e.g. P21RD = Type P on one post with 2 signs, one Right-pointing, one double-ended



Reinforcement cage consisting of 4 – 6mm dia mild steel bars secured by stirrups of not less than 2.65mm dia bars at 300 c/c

Alternative Post Types

NOTES

1. All dimensions in millimeters unless otherwise stated.

ALTERNATIVE REQUIREMENTS	SUFFIX TO SIGN TYPE
Left–pointing	L
Right–pointing	R
Info. on both sides	H
Double–ended	D

NOTES

1. All dimensions in millimetres unless otherwise stated.
2. All cabinets shall be constructed of glass fibre reinforced plastic Class 2 having a fire retardant capability of a minimum of 30 minutes and shall comply with the requirements of Clause 1418.
3. All internal fixing bolts and screws shall be manufactured from brass, holding down bolts shall be of galvanised steel.
4. Earthing shall comply with the requirements of Clause 1420.
5. Internal wiring between D.N.O. equipment and isolator shall be double insulated 25 mm2, cables between isolator and distribution fuses shall be single insulated 10 mm2, all cables within distribution board shall be single insulated 6 mm2. All cables shall comply with Clause 1419.
6. All PECU's shall comply with Clause 1409.
7. All cable terminations shall be made onto a 3 mm brass gland plate fitted to a glass fibre reinforced polyester enclosure within which connections will be made onto rail mounted terminals.
8. All MCB protective devices shall be M6 type 2 and of a rating specified on the scheme schematic.
9. All HRC protective devices shall comply with BS 88 and be of a rating specified on the scheme schematic.
10. The RCD shal be DC sensitive and have a sensitivity of 30 mA with a current rating of 25 A.
11. All bonding conductors shall be 10 mm2.
12. Main Equipotential bonding conductor shall be 16 mm2.
13. Earthing terminal shall be a 4 way Brass earth block fitted securely to the backboard by two brass screws and a warning notice shall be fixed adjacentto the earth terminal.
14. All enclosures shall be manufactured from glass fibre reinforced polyester with a clear hinged polycarbonate lid, secured by means of slotted screws of a similar material to the enclosure.
15. All MCB's, RCD's, Contactors and Bs 88 fuse carriers shall be so designed as to be mounted on DIN rail.
16. All rail mounted terminals shall be separated with phase dividers and be colour coded giving phase identification.
17. For Feeder Pillar Type 10 single phase remoted switched wiring diagram refer to drawing SL/CD/0016
18. For Feeder Pillar Single Phase foundation detail refer to drawing SL/CD/0017

PROJECT
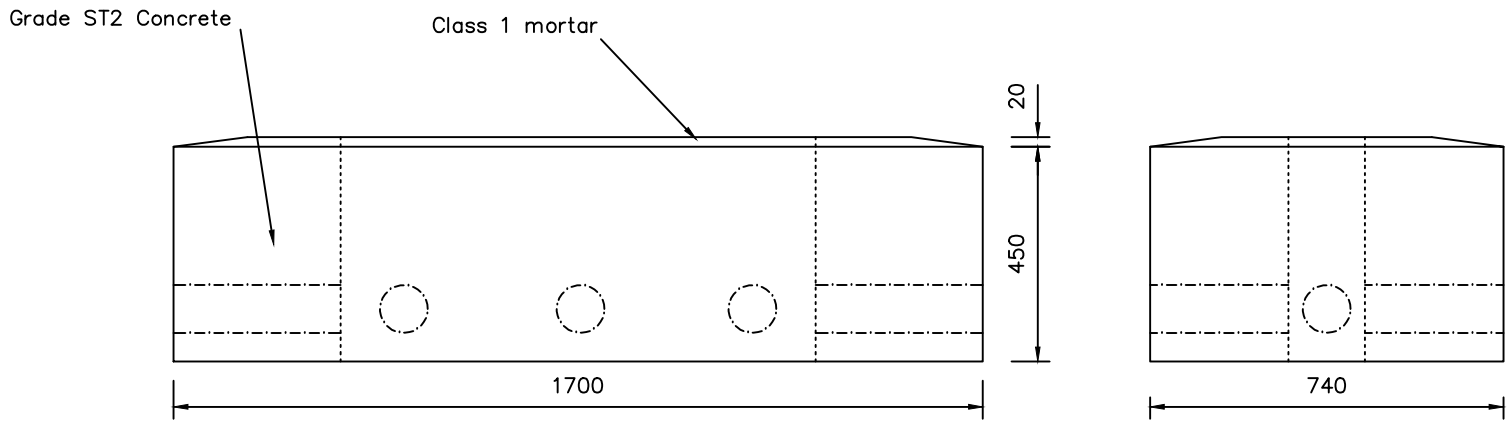
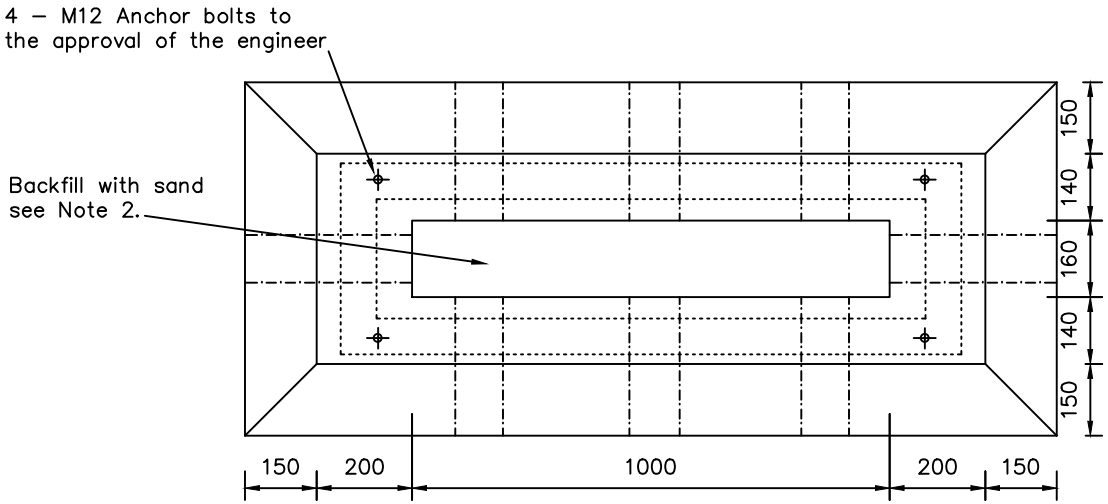
ELECTRICAL WORK FOR ROAD LIGHTING AND TRAFFIC SIGNALS

TITLE
FEEDER PILLAR TYPE 30
3 PHASE REMOTE SWITCHED
WIRING DETAIL

DRAWN: MDE	APPROVED:	FILE NAME: x:\eng-cons\design team\
FILE REF.: SL\CD\0023	DATE: APRIL 2025	DRAWING No.: SL\CD\0023\A
ORIGINAL SIZE: A4 (297 x 210)	SCALE: N.T.S	





NOTES

1. All dimensions in millimeters unless otherwise stated.
2. All feeder pillar bases shall be upon completion of the works be filled to the top of the base with fine aggregate to BS 882, any suitable material which passes through a 2 mm sieve.
3. On un–made ground all feeder pillars shall be provided with 500 x 500 x 60 mm concrete slabs to the front of the pillar, and shall be placed for the full length of the base.
3. For Feeder Pillar Type 30 3 phase remote switch wiring detail refer to drawing SL/CD/0023A
18. For Feeder Pillar 3 phase foundation detail refer to drawing SL/CD/0024A
