Schedule 3: ***Not used***

Schedule 4: *quotation procedure*

1 The quotation procedure is stated in ITT Section B - Part A Scope Section 4 Call off Arrangements.

Schedule 5 Work Order Conditions and Default Contract Data that apply to Work Orders

The Work Order Particulars that apply to a Work Order are:

- the set of Work Order Conditions under Part 1 of this Schedule 5 specified by the *Client Representative* in accordance with clause 23.1;
- the Default Contract Data under Part 2 of this Schedule 5 specified by the *Client Representative* in accordance with clause 23.1;
- the Optional Z-Clauses under of this Schedule 5 specified by the *Client Representative* in accordance with clause 23.1.

Part 1 Work Order Conditions

In respect of each Work Order, the *Client Representative* specifies within the relevant request for quotation one of the following forms of NEC4 Contracts, the conditions of which are to be incorporated into the Work Order:

(a) NEC 4 Term Service Contract with optional Z clauses

Schedule 6: Suppliers Tender

Tender Reply Form 4 – Method Statement Reply Form

- Please refer to Section E – Tender Evaluation Plan for guidance as to Award Criteria and Methodology.
- Please do not convert this tender reply form to a PDF.
- Please note the weightings for each criteria to understand the relative importance of one criteria to another.
- Tenderers are limited to the specified word count limit, where stated. Text exceeding the word count will be red-lined and not evaluated.
- Method statements should provide relevant detail on how you propose to deliver the required outcomes/outputs prescribed within the Specification.
- Please do not provide appendices or links that have not been requested as part of a criteria. Additional appendices and/or links will not be assessed.
- Please do not answer a criteria by referring to responses to other criteria or to specific paragraphs within responses to other criteria as these will not be evaluated.
- Please do not include images or tables where the words cannot be counted using Microsoft word count functionality unless specifically requested. Should you include images or tables which have not been requested and the words cannot be counted using the word count function, these images or tables shall be removed and not evaluated.

		SCHEDULE OF AMENDMENTS	
Question subject	**Question**	**Answer**	**Document Revisions**
Clarification Question – Performance Bond or Parent Company Guarantee	We would not usually provide a performance bond or parent company guarantee. Both requirements add cost that we consider unnecessary and are not good value for money. We understand that the Councils' need to manage risk, but we would request that financial standing and corporate structure be considered by the Councils. Would the Councils consider removing the requirement for both a performance bond and parent company guarantee?	The Employer requires the requirement to remain and tenderers to price either option as part of their tender returns.	
Clarification Question - Insurance	NEC 4 contracts require that insurance be provided in joint names. We are unable to provide insurance in joint names due to our corporate governance. Our existing insurance policies include an "indemnity to principals" clause and do not add to our costs. Please can you confirm that this is acceptable?	The Authority are happy to accept this change on provision of a brokers letter confirming the same information.	
Tender Clarification	We note that Lot 1, Series 500 Service Ducts (see below) states " in trench prepared by others" Can the Authority clarify if this item should include the excavation works within the rate or as the description suggests, the trench is excavated by others within series 1400 item 55 and 57 36One Number 100mm Internal Diameter Service Duct In Trench Prepared By Others. 37One Number 50mm Internal Diameter Service Duct In Trench Prepared By Others.	No this item does not include the excavation work	
Material Specifications	we do not appear to have any specification documents for the materials. For example items 340-343 state the diameter of the posts however how do I know what thickness of metal for the posts is meant to be. Or should I price the posts which meets the diameter requirements but is the best value and not worry about the thickness of the metal. A separate example are items 382-384. How do I know what luminaire Type A -D are? Are these free issued? Is there a document that I have overlooked that provides this information? Any guidance you can provide would be appreciated.	341, 3mm shaft and base 342, 3.6mm 114 straight post 343, 5 mm straight post 382 to 384 are free issue luminaires	
Tender Clarification	We note that the incumbent contractor leases depot space, yard facilities and office space from North East Lincolnshire Council. Please can you advise as to whether this facility complies with the requirements of ITT Section B - Part B Scope - NELC, and will be available for any new successful tenderer to lease from the Council?	The incumbent contractor does not lease depot space and yard facilities North East Lincolnshire Council. An office is leased from the Councils property portfolio. Any new successful tenderer will be required to make their own arrangements for depot, yard and office spaces within the Borough that complies with the requirements in ITT Section B Part B scope NELC.	

Initials Redacted

Tender Clarification	We note that the data received includes a Contract Manager and a Project Supervisor. ITT Section B - Part B Scope - NELC requires that the Contractor is also to provide an Assistant Contracts Manager(s) who is based at the depot. Can the Council advise as to whether the Project Supervisor is sufficient to deputise for the Contract Manager, or does the Council require an additional employee in a managerial role?	No additional position is required. The Project Supervisor is sufficient to deputise for the Contract Manager.	
Criteria 2 Knowledge & Skills word count	Question b, Criteria 2, ends with 'this part is not included in word count'. Please can you specify whether, by 'part', the entirety of question b is not counted, or the records of competencies mentioned in the wording?	Only part B is not included in the word count. You may upload separate CVs limited to one A4 side each. Any additional uploads must be clearly marked.	
Method of Measurement	There appears to be some contradicting information regarding the Method of Measurements used for this framework. The documents provided include a document that amendments to the "Civil Engineering Standard Method of Measurement"(CESMM). This method of measurement refers to Class A-Z for different works packages. However the amendment document also mentions series 100 - 2700 which is vocabulary used in the "Highways Method of Measurement". The format of the schedule or rates is also formatted inline with the Highways Method of Measurement. Can you confirm what method of measurement we should be using when establishing what to include within our rates.	The method of measurement to be used when establishing what to include within the rates is the Highways Method of Measurement. The Section E documents have been reviewed and amended to remove any references of the "Civil Engineering Standard Method of Measurement"(CESMM), and reattached to this message.	ITT Section E - Tender Reply Form 5 Part A Preambles to Schedules of Rates and Prices V2.doc ITT Section E Tender Reply Form 5 Part B The Civil Engineering Standard Method of Measurement and Amendments V2.docx ITT Section E - Tender Reply Form 5 Part C Schedule of rates Price Explanation and Day Rates V2.doc
Clarification Questions Lot 1 NELC	NELC - Please clarify if items 83-84 "installation of" under the title Feeder Pillars, are to include for all materials by the contractor?	Yes this needs to include for materials	
	NELC - Series 2700 - Additional. Could you please clarify if the items that are directly not under the title supply or have supply in the description are provided by the client?	When it's a cable its supply and install and the Node is supply and install	
	NECL - Item 765 asks for the provision of a power supply to a ticket machine. Could you please confirm if this is the connection to a localised feeder pillar?	Yes to local feeder pillar	
	NELC - Please clarify if the schedule of rates items 63 to 66 listed under Cable are for the supply and installation?	They are just supply.	
	specification and confirm if the contractor is to supply the materials?	Yes the contractor is to supply the paint and the specification is on page 160 to 161 Section B Scope Part B NELC	
Clarification Questions Lot 1 NLC	NLC - Please confirm if all items in Series 1200 and 1300 have materials provided by the client?	All materials to be provided by the client in Series 1200 & 1300	
	NLC - Please clarify if the schedule of rates items 89 to 92 listed under Cable are for the supply and installation?	Items 89 to 92 are for the supply & installation of cable.	
	NLC - For the Feeder Pillars items 104-105 under the title Cable Joints and Cable terminations (Items include materials), does this also include the supply of the feeder pillars?	Items 104-105 under the title Cable Joints and Cable terminations (Items include materials) excludes the supply of the feeder pillar which is to be provided by the client.	
	NLC - Series 2700 - Additional. Could you please clarify if the items that are directly not under the title supply or have supply in the description are provided by the client?	Items within Series 2700 additional that are not under the supply or have supply in the description are provided by the client.	

Initials Redacted

	NLC - For items 172-173 what is the required passive safe classification level?	The Passive safe classification for items 172-173 should be 100 NE:1-3	
CMS - Software as a Service	Please can you clarify the following points regarding the CMS system:		
	hardware only, or also cover the software required to operate the system?	Hardware plus SAAS charges for 10 Years	
	2. Service Charges: Should a ten-year service charge be included within the contract price, or will this be invoiced separately outside the scope of this contract?	10 years' service charge should be included within this contract	
	3. CMS Node Pricing: While we note that a CMS node price has been requested, it is our understanding that an integral, conduit, and NEMA-type node may be required. Could you please confirm how these components should be priced?	We believed them to be the same price but if there are differences please price separately we have only asked for 10 as they are only on trial.	
Notice and Road Space Bookings	Could the authority please confirm whether, as we are undertaking works on behalf of the Highways Authority, we are exempt from charges related to permits, noticing, and road space booking?	For Lot 1 NELC the supplier will be required to submit their own permits, noticing, and road space bookings to North East Lincolnshire Borough Council which are free of charge. However North East Lincolnshire Borough Council will undertake Streetworks inspections of the live works, and reinstatement and if appropriate issue as a Fixed Penalty Notice. For Lot 2 NLC North Lincolnshire Council will submit permits, noticing, and road space on behalf of the Supplier.	
Service Critical Question	We believe that Q1, Service Critical is imperative to outline exactly how we will run the contract. We therefore respectful request that the word count is increased to 3500 to allow us to cover the 5 questions fully?	We have increased the word count and amended the form to reflect the change.	
NELC - Pricing Clarification	Could you please confirm if the item numbers 558-573 are supply only or supply and install?	Supply and Install	
NELC - Numbering	Could you please confirm if the numbering materials are provided by the client. Items 422-423a	No the numbering materials is provided by the contractor	
TQs - 26.06.25	Scope Part A is Testing of Structural integrity of column , but there is no bill item are adding a bill item for it.	No Structural integrity of the columns will be addressed outside this tender.	
	Please can you provide an inventory asset list for NEL?	The inventory asset list has been attached for NEL	Lot 1 NELC Asset Register.xlsx
TQs - 26.06.25 Lot 2	Please can you provide an inventory asset list for NL?	The inventory asset list has been attached for NL	Lot 2 NLC BB Inventory 27_03_25.xlsx Lot 2 NLC Boll Inventory 27_03_25.xlsx Lot 2 NLC FP Inventory 27_03_25.xlsx Lot 2 NLC Lighting Inventory 27_03_25.xlsx Lot 2 NLC LS Inventory 27_03_25.xlsx
	Can it be confirmed if the intent is for this framework to cover the full maintenance of the NLC area or are we providing support for the council's own maintenance resource?	We can confirm that the intent for this framework is to provide support for NLC's own in house resource	
Performance Bond Value	when pricing the performance bond? Should it be the value of the contract as per the published notice or the value of the schedule of rates?	It should be for the value of the contract as per the published notice.	

Initials Redacted

TQs - 04/07/25 Part 1	'ITT Section C - Terms and Conditions - NEC4 Term Service Contract' states 'The framework agreement call off contract is the NEC4 Term Service Contract with schedule of amendments and the title refers to North East and North Lincolnshire Councils. The agreement only includes North East Lincolnshire Council as named party, is there a separate document for the North Lincolnshire term service agreement? Or can we assume that 'ITT Section C - Terms and Conditions - NEC4 Term Service Contract' is applicable for both parties?	The title refers to the name of the tender for this project as it is a joint procurement for both Authority's. For Lot 1 NELC the successful tenderer will enter into the NEC 4 Term Service Contract 2017 with a Schedule of Amendments Call of Contract. For Lot 2 NLC the Client (North Lincolnshire Council) will issue a Job Request Form (Appendix C in tender pack) and a Client Purchase Order as instructions to undertake the works instead of a term maintenance contract due to the way in which they operate. The call off procedure for each lot is stated in ITT Section B - Part A Scope.	
	Please may we request a definite contract value? We note the £8m figure provided in the documentation but would like to query it?	This tender opportunity is being undertaken to establish a framework, however, it does not guarantee any specific level of spending. It allows for potential future call of contracts to be made under the framework, but it doesn't commit the Client to awarding any specific volume of work or spend. The contract value published in the notice includes contract values for both Lot's requirements and takes into account the potential spend for the whole life term of the framework agreement.	
	Can it be confirmed that the pricing and quality evaluation is as follows 60% pricing and 40% quality. The document "ITT Section F - Appendix D - Evaluation Matrix Example" currently contradicts that.	The Tender Evaluation Plan displayed the correct percentages of 60% pricing and 40% quality. The ITT Section F Appendix D - Evaluation Matrix Example has an error and this has been updated and attached to this query to reflect this amend.	ITT Section F - Appendix D - Evaluation Matrix Example Rev A.xlsx
	Can it be confirmed if items 1-6 include for the removal of the lighting column? The term "Lighting Unit" is a bit vague.	Yes lighting unit is lighting column and it applies to Lot 1.	
	a performance bond in a maintenance contract, would the authority like us to keep this separate to our price to maintain the opportunity to remove it if that decision is made for the final contract?	Yes please price separately	
	Z60.1 – The CE entitlement for 'the Service Manager gives an instruction to correct a mistake in the Price List' has been deleted. Would you consider this to be reinstated? This CE clause protects both parties and ensure the Price List is reflective of the service being provided.	Z60.1 has been reviewed and will be reinstated.	
	Z61.1 - Puts the obligation on Contractor to notify a CE arising from Service Manager giving instruction, notification or changing decision and states to be notified at time of receiving the instruction etc. This isn't feasible and is written on the basis the Service Manager is notifying the CE. Please can this amended to give the Contractor the notice period included in NEC standard terms I.E 8 weeks	Z61.1 has been reviewed and the standard NEC term will be reinstated.	

Initials Redacted

TQs - 04/07/25 Part 2	Z80.1 – This deletes some of the Client's liabilities included in NEC standard terms. The wording of this clause conflicts, please can you confirm if the 5th, 6th, 7th, 8th, 9th and 13th bullets points are to be deleted? Or is it just the 3 bullet points included in Z80.1 to be deleted?	The clause does not conflict and the intention is to effectively replace all of clause 80.1 with 82.4 except for bullet point 1 and 3. However as a result of another clarification request we will reinstate Loss of or damage to equipment and Plant and Materials supplied to the Contractor by the Client, or by Others on the Client's behalf, until the Contractor has received and accepted them' as a Client liability. We will then need to add in to clause 82.4 as follows: Notwithstanding any other provision of the Contract, the Contractor is liable for and indemnifies the Contractor against any expense, liability, loss, claim or proceedings in respect of any loss, injury or damage, including theft of site materials EXCEPT WHERE THE CIRCUMSTANCES AT CLAUSE 80.1 (AS AMENDED)APPLY or vandalism to any property or person including loss or damage by fire, lightning, explosion, storm, torrent, flood, bursting or overflowing of water tanks, apparatus or pipes, earthquakes, aircraft or other aerial devices or articles dropped therefrom, riot and civil commotion (other than injury or damages to any works provided as part of the service) insofar as such loss, injury or damage arises out of or in the course of or by reason of the carrying out of the service and to the extent that the same is due to any negligence, breach of statutory duty, omission or default of the Contractor, its Personnel, servants or agents, or of any person employed or engaged upon or in connection with the service or any part thereof, his servants or agents or any other person who may properly be on site at the Affected Property, his servants or agents, other than the Client, its Personnel, or any person employed, engaged or authorised by him or by any local authority or statuary undertaker executing work solely in pursuant of its statutory rights or obligations.	
	Z80.1 – The deletion of clients liabilities for 'Loss of or damage to equipment and Plant and Materials supplied to the Contractor by the Client, or by Others on the Client's behalf, until the Contractor has received and accepted them' is unreasonable as would be something out of the Contractors control and difficult to indemnify. Please can this clause be deleted so that it remains a Client's liability?	we will reinstate Loss of or damage to equipment and Plant and Materials supplied to the Contractor by the Client, or by Others on the Client's behalf, until the Contractor has received and accepted them' as a Client liability. We will then need to add in to clause 82.4 as noted at A45	
Extra TQ	Is it possible for the quantity of item 55 to be split into different surfaces? As each surface has very different requirements and challenges leading to different rates. If we know what proportion is in each surface area we can provide a more accurate rate.	Additional lines have been included in series 1400, items 57, 58, 59 have now been added within this series. Please use the new version attached to this clarification.	ITT Section E - Tender Reply Form 5 - Lot 1 Schedule of Rates NELC Rev A.xlsx
Clarification Question – UK Parent Company Guarantee	please can the Council confirm that a Parent Company registered in the United Kingdom is acceptable ?	The Authority would accept a UK based Parent Company Guarantee.	

Initials Redacted

Clarification Question – Clause X18 of ITT Section C	We note that Clause X18 of ITT Section C - Terms and Conditions - NEC4 Term Service Contract states "The Contractor's liability to the Client for indirect or consequential loss is limited to 125% of the Contract Value.". We, and indeed many contractors, would not usually accept indirect or consequential losses in contracts for work of this nature. Furthermore, exceeding the total value of the Contract could be considered punitive and we respectfully request that the cap be reduced to 10% of the contract value.	The Authority suggest to replace with 25% instead of the 125%.	
Clarification Question – Collateral Warranty	Please can the Councils confirm the beneficiary or beneficiaries of the Collateral Warranty?	The beneficiary of the warranty would be the Council.	
Clarification Question – Base Rate for Indices	Please can the Council confirm the base date for indices under Clause X1 of ITT Section C - Terms and Conditions - NEC4 Term Service Contract?	The base date is the date of submission of the Contractors proposal .	
Price clarification	in NLC items 17,86,146 and NELC items 24A, 376A, 401A so that the installation, maintenance or removal can be priced correctly.	The answer to both is >12 up to 20m so that is greater than 12 so we put 12.10 up to 20m for NLC it's the same greater than 12 up to 20m	
TQs - 04/07/25 Part 2 A7 Superseded response	Q7 Z61.1 - Puts the obligation on Contractor to notify a CE arising from Service Manager giving instruction, notification or changing decision and states to be notified at time of receiving the instruction etc. This isn't feasible and is written on the basis the Service Manager is notifying the CE. Please can this amended to give the Contractor the notice period included in NEC standard terms I.E 8 weeks A7 Z61.1 has been reviewed and the standard NEC term will be reinstated.	**A further review has been undertaken and the following supersedes A7 that was issued on 3295808 TQs - 04/07/25 Part 2 on Friday 25 July 2025.** **A7: New response** This clause has been amended so that the onus is on the Contractor to notify of a compensation event (rather than the Service Manager) if it arises from the Service Manager giving instruction or changing earlier decision. The Contractor still has a three-week period to notify the compensation event in line with amended clause 61.3 therefore the suggested amendment is not necessary and should be rejected.	
	Is it possible for item 128 to be split into one item for high-speed roads and another one for conflict areas? (as this will bring the cost down).	Item 128 is to remian as is and not to be split into separate items	
	Can it be confirmed if the the following items are intended as "supply only" or " supply and install" items 588 to 573	These are intended as " supply only" as there are separate install rates for bollards,traffic sign posts	

Initials Redacted
