Estates: Architect & Lead Designer for the Madras New College Building at the University of St Andrews

Reference number

EST/221221/AW/SL

II.1.2) Main CPV code

• 71220000 - Architectural design services

II.1.3) Type of contract

Services

II.1.4) Short description

Architect and Lead Designer for the Madras New College Building at the University of St Andrews.

To facilitate the development of the Madras / New College building the University of St Andrews require to engage a Professional Team incorporating the Design Team, which will be led by the Architect and Lead Designer.

The Architect and Lead Designer will ultimately be responsible for developing the Final Project Brief in conjunction with the University and subsequently developing/co-ordinating the design package, that addresses the University's requirements whilst recognising cost and time parameters. Stakeholder engagement, presentations to all levels of the University and guiding the fully coordinated design team through the RIBA stages are key to the success of this project.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

• UKM72 - Clackmannanshire and Fife

Main site or place of performance

UK - St Andrews

II.2.4) Description of the procurement

Architect and Lead Designer.

To facilitate the development of the Madras / New College building the University of St Andrews require to engage a Professional Team incorporating the Design Team, which will be led by the Architect and Lead Designer.

The Architect and Lead Designer will ultimately be responsible for developing the Final Project Brief in conjunction with the University and subsequently developing/co-ordinating the design package, that addresses the University's requirements whilst recognising cost and time parameters. Stakeholder engagement, presentations to all levels of the University and guiding the fully coordinated design team through the RIBA stages are key to the success of this project.

In the Town Centre, the redevelopment of the Madras site will realise a new build element at c8,000m² with c2,000m² of restored and refurbished historic buildings. This team will be required to work with key users, departments and the university community to progress a design that will capture both the university's current aspirations to create an inclusive and innovative environment, and some future requirements, all to realise the full potential of this key site.

The site comprises an early nineteenth-century building, with a neo-Jacobean frontage and a neo-medieval quadrangle behind it. It includes outbuildings of a similar date to the right of the main building on South Street. All these buildings will be retained and reconfigured. Behind them is a jumble of post-war building occupying the site back to the Lade Braes Walk. These buildings are to be demolished. The University took possession of the site from Fife Council in October 2021. A standalone project to secure, make safe and demolish relevant parts of the building is now underway.

The University is committed to retaining and restoring the listed 19th-century buildings and marrying them to a new building to be erected on the site behind it, replacing the old school

buildings. It is our vision that – together with the older outbuildings – this development will deliver an outstanding result for the University and the town. Hosting three of our Academic Schools (Economics & Finance, International Relations, Management), the New College will be a centre of excellence for research and teaching in the Social Sciences.

As the home to some 200 academic and support staff and more than 2,000 undergraduate and postgraduate students, the New College will be the largest single building complex in the Faculty of Arts in the University's estate. We expect it to deliver the very best conditions for teaching and research, for social interactions and public events. It must provide outstanding and future-proofed spaces for formal and informal teaching, for learning and studying both in groups and individually, for conviviality (café and meeting spaces) and conferences. The student experience is at the heart of our operation. We strive to provide a wide range of learning environments to suit different needs and preferences not just for students in the three Schools to be co-located at the New College site but from across the whole University. The suite of teaching spaces will include a raked, active lecture theatre alongside larger flat floored lecture/seminar spaces and a substantial number of 25-seater seminar rooms. Three specialised computer classrooms are also envisaged.

We expect a building of outstanding quality, that is aesthetically pleasing as well as highly functional, that fits sensitively into its historic setting and fully reflects the University's commitment to environmental sustainability and social responsibility. The development of the design brief, procurement, and construction strategy will strive to attain net-zero carbon, aligning to the University target of becoming a net-zero carbon organisation by 2035. The project must achieve a minimum of BREEAM Excellent, EPC A rating, and Carbon Neutral for operations.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

24

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Maximum number: 5

Objective criteria for choosing the limited number of candidates:

As detailed in the SPD Documentation and Guidance Notes.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

VI.4) Procedures for review

VI.4.1) Review body

Dundee Sheriff Court

6 West Bell Street

Dundee

DD19AD

Telephone

+44 1382229961

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The University of St Andrews will incorporate a minimum of 10 calendar day standstill period at the point of information on the award of the contract being communicated to tenderers. This period allows unsuccessful tenderers to seek further debriefing from the contracting authority before the contract is entered into. Applicants have 2 working days from the notification of the award decision to request additional debriefing and that information has to be provided a minimum of 3 working days before the expiry of the standstill period. Such additional information should be requested from The University of St Andrews.

If an appeal regarding the award of contract has not been successfully resolved The Public Contracts (Scotland) Regulations 2012 provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rule to take action in the Sheriff Court or Court of Session.

The anticipated review body in such cases would be:

Dundee Sheriff Court

6 West Bell Street

Dundee

DD1 9AD

Telephone: +44 1382 229 961

Anyone bringing court proceedings against the University of St Andrews must inform the University of St Andrews in advance of the alleged breach and its intention to bring proceedings. Any such action must be brought within 15 days of the date on which a decision is sent to them or published to challenge that decision.

Proceedings seeking an ineffectiveness order must be brought within 30 days of the publication of the contract award notice in the OJEU, or 30 days from the date of a decision letter to all tenderers concerned, and any candidates concerned, containing a summary of the reason for the recipient being unsuccessful, otherwise 6 months from the date of

entering into the contract or concluding the framework agreement.

Where a contract has not been entered into the Court may, by interim order, suspend the procurement procedure. The court may also set aside a decision or actions taken by the University or order it to amend and document; and/or award damages. However, by express requirement the court may decide not to grant an interim order when the negative consequences of such an order are likely to outweigh the benefits, having regard to a number of considerations.

If the contract has been entered into the Court may, depending on the nature of the breach: make an ineffectiveness order; impose a financial penalty; shorten the duration of the contract; make any other order considered appropriate to address the consequences of ineffectiveness or shortening the duration or the contract; award damages.
