- UKI - LONDON

Main site or place of performance

London

II.2.4) Description of the procurement

Details to be published in a Contract Notice following the completion of market engagement and subject to any decisions made by the Authority.

II.3) Estimated date of publication of contract notice

30 April 2021

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information

VI.3) Additional information

The MPS is considering the selection of a panel of contractors to undertake refurbishment works across the London & Greater London area. It is anticipated that this building works framework will be for a four-year duration, and will provide the MPS capacity to enter into individual building works contracts not exceeding £5m in value. The majority of projects are anticipated not to exceed £1m in value, but may do so by exception where efficient use of the framework is deemed appropriate. This framework will be open to GLA Functional Bodies and the wider public sector within the South East. However the primary purpose of the framework is to provide the MPS with the contractual capacity to deliver projects and programmes for the MPS estate of mainly minor and intermediate value refurbishment works with an anticipated annual spend of between £25m and £40m.

Works are to include but not limited to:

- Internal refurbishment and fit out
- Alteration and extension
- Decoration
- Mechanical and electrical installation, repair and replacements (depending on engagement this may fall into a separate lot)
- Internal and external fabric repairs, replacement and installation
- Demolition

- Asbestos removal
- Works requiring a dangerous structures license (depending on engagement this may fall into a separate lot)

The MPS are also considering a trade based lot for mechanical and electrical installation, repair and replacement with an expected expenditure of £5m per annum.

The MPS does not anticipate contracting new build works through this framework, however they may wish to use this framework for new build projects should the need arise.

Please confirm your interest by responding to this PIN and the associated market engagement questionnaire which can be downloaded from the EU Supply portal. This PIN is issued to gain views from interested contractors on the structure and nature of a new framework.

This PIN is not a call for competition. All information published in the PIN and accompanying documents is indicative only and subject to change. The MPS will not be liable for any costs incurred by those participating in the preliminary market consultation.

Please submit completed questionnaires to CommercialMailbox-Construction@met.police.uk by no later than 22/01/2021.
