NHG P2P System

Reference number

PROC1158

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

NHG are looking to establish a single supplier contract for the provision of a Procure to Pay Software Solution. Since the merger NHG have been using the legacy NHH system for our Procure to Pay system. NHG process a high volume of payments and would like to procure a system which can efficiently process these high volumes.

NHG are not just looking for a simple P2P system, we require a system which will integrate with multiple other systems which are critical to the running of NHG, full details of these systems and NHG's requirements can be found within the ITT documentation.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

II.2.4) Description of the procurement

NHG are looking for a P2P system which will integrate with our existing Finance System SUN. There are several other systems which the new P2P system will need to be able to integrate with, which are vital to running of NHG. Full details of these can be found within the Invitation to Tender Documents.

The new P2P system is expected to make use of “e-invoicing”, i.e. the ability to match transactions automatically using a data-feed and/or artificial intelligence, with limited manual intervention. At present, circa 30% of invoices are processed by incumbent supplier through the method of e-invoicing.

The new system is expected to support NHG with our flexible working policy and to allow remote working, whether at home, or in the community, and in the context of future-proofing the digital operations of NHG, we envisage that a new P2P system will be expected to make use of “cloud technology”, and incorporate mobile capability, in line with the HG Digital Strategy.

The procurement is using the restricted procedure to allow NHG to reduce the number of bidders being brought through to the ITT stage. The top 5 - 7 Bidders who meet our minimum requirements as outlined in the SQ will be invited to the tender stage and will be evaluated on their response to the following areas;

- Quality Questions
- Technical Questions
- Pricing

These responses will be evaluated by the evaluation panel and the top 3 highest scoring bidders will be invited to present their solution to a wider evaluation project team. The winning bidder will be the Most economically advantageous tender and will not be scored on price alone. Full details of the evaluation process can be found in the Invitation to Tender documents.
