Contract

## Implementation of FAB in Momentum Simulation Systems

Met Office

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-000148

Procurement identifier (OCID): ocds-h6vhtk-05fefc

Published 5 January 2026, 9:53am

## Scope

## Reference

DN790315

## Description

The Met Office is preparing an important change in managing their software stack, migrating from the old Subversion-based versioning system to the modern Git. Besides required changes to all existing suites, there is also a need to replace the outdated build tool called FCM: FCM does not support git, has shortcomings in supporting LFRic, and is written in a language that is not well-supported by Met Office developers anymore.

6 years ago, the Met Office decided to implement a new, modern build system called Fab that addresses the shortcomings of FCM. While there was an initial, proof-of-concept release, with the help of the Bureau of Meteorology (BoM) Fab was extended to support missing features, and it was shown to be well-suited to build LFRic-based applications.

This work will involve close collaboration with the Git migration team to develop Fab scripts tailored for repositories as they transition to Git. These scripts will serve as

reusable templates for other sites within the Momentum Partnership, enabling them to efficiently port their own repositories. Additionally, BoM may introduce new features to Fab to accommodate specific requirements from various suites.

## **Contract 1**

### **Supplier**

- Bureau of Meteorology

### **Contract value**

- £90,000 excluding VAT
- £90,000 including VAT

Below the relevant threshold

### **Date signed**

24 December 2025

### **Contract dates**

- 6 January 2026 to 30 September 2026
- 8 months, 26 days

## **Main procurement category**

Services

## **CPV classifications**

- 73300000 - Design and execution of research and development

## **Contract locations**

- AU - Australia

---

## **Procedure**

### **Procedure type**

Below threshold - without competition

---

## **Supplier**

### **Bureau of Meteorology**

PO Box 1289
