II.1.4) Short description

We may seek a contract which can provide advertising, media & creative design services for GRS to help drive attraction and optimise our centralised recruitment service.

The contract value is anticipated to be circa £14 million with a potential contract duration of 36 months (3 years) and is subject to change.

A broad reach is required, therefore the supplier is expected to have the ability to access more than 150+ different media options.

It's not possible to predict the volume of work that the Supplier can expect to receive. It is not uncommon for work flow to follow a trend of peaks and troughs, sometimes with rapid and significant changes in volume. However, we can say that historically the average number of campaigns commissioned per month has been 50-60 (circa 600 commissions in a 12 month period). It is not unusual for a number of large and complex campaigns to be commissioned at the same time, therefore the ability for a supplier to be adaptable and flexible is essential.
