II.1) Scope of the procurement

II.1.1) Title

Collective Purchase Scheme for Solar PV Systems for Homeowners

Reference number

project_58072 - Collective Purchase Scheme for Solar PV Systems for homeowners

II.1.2) Main CPV code

- 71314200 - Energy-management services

II.1.3) Type of contract

Services

II.1.4) Short description

Carmarthenshire County Council is investigating the potential of engaging a service provider with technical and marketing expertise to run collective purchasing schemes for renewable energy products as part of a joint exercise with 5 Local Authorities.

The products might include Solar PV systems, battery storage, and EV charge points. If implemented, such schemes could potentially be run annually for homeowners and small business premises within the SW and Mid Wales regions.

The aim of such an initiative would be to enable residents to install high-quality renewable energy products at a reduced price.

II.1.5) Estimated total value

Value excluding VAT: £41,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2.4) Description of the procurement

Carmarthenshire County Council is investigating the potential of engaging a service provider with technical and marketing expertise to run collective purchasing schemes for renewable

energy products as part of a joint exercise with 5 Local Authorities.

The products might include Solar PV systems, battery storage, and EV charge points. If implemented, such schemes could potentially be run annually for homeowners and small business premises within the SW and Mid Wales regions.

The aim of such an initiative would be to enable residents to install high-quality renewable energy products at a reduced price.

The aim of this early market engagement exercise is to determine whether there is a market to help residents purchase “supply and fit” PV arrays, battery storage, and electric vehicle (EV) chargers at an affordable price from accredited installers. The contractor will handle customer service, vet installers and provide regional capacity for rollout of solar PV, plus provide relevant project data to the lead authority.

This PIN forms part of a preliminary market engagement and speculative scoping exercise to help inform the Council’s potential approach to procuring such services. There is no guarantee or commitment that this PIN will result in a subsequent tender exercise. The Council reserves the right to cancel the exercise at its sole discretion.

This exercise will not be used for the purposes of short-listing at a later stage and non-participation will not restrict access to any future tender opportunity. The Council reserves the final right to follow what it considers to be the most appropriate approach to market and will not meet any costs incurred by any party in responding to this scoping exercise.

Having considered all representations, the Council reserves the right to package the requirement in such a way as to offer the most cost effective, sustainable solution.
