II.1.4) Short description

The purpose of the Orthorectification Framework is to validate the data NRW holds for the Welsh Government Woodland Estate (WGWE) in Forester Web and other GIS systems. The preferred timing for this work is in advance of the preparation of forest resource plans (10-year forest management plans). There are currently 70 forest areas on the WGWE and orthorectification has been carried out to date on a 10-year rolling programme. Over the lifetime of this framework, the frequency will be increased with an objective of completing the orthorectification of 9 forest areas per year. The framework is for four years with a break clause after Year 2. The new framework will start on 1 March 2022 and will include the whole of Wales. NRW reserves the right not to offer any work.
