Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Battery Materials Synthesis Equipment

Reference number

3085

II.1.2) Main CPV code

- 38000000 - Laboratory, optical and precision equipments (excl. glasses)

II.1.3) Type of contract

Supplies

II.1.4) Short description

Battery Materials Synthesis Equipment - CPI has existing capabilities for synthesis of battery materials up to a scale of ~1 kg. With this tender CPI are seeking to expand the capability to produce 10 kg batches of active materials. CPI requires a series of equipment to facilitate the synthesis of battery active materials at a scale of approximately 10 kg per batch. A number of different unit operations will be required to be procured as part of this activity, which are outlined in the technical scope. Ideally CPI is looking for a single provider for all unit operations, effectively providing a 'turn-key' solution. This equipment will be installed in the Coxon building in Sedgefield. Please refer to the tender pack for further information relating to this requirement

II.1.5) Estimated total value

Value excluding VAT: £4,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

The contracting authority reserves the right to award contracts combining the following lots

or groups of lots:

Where a single supplier solution is not possible to facilitate award of Lot 1, CPI reserves the right to not award this Lot and will therefore look to award a combination of the other 3 Lots (lots 2 – 4) as required to conform to our required specification. Similarly, should an acceptable solution be provided by individual supplier responses to Lot 1 for the full turnkey solution, CPI reserves the
