I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

DHSC: OHID: Child Development Tools

II.1.2) Main CPV code

- 80110000 - Pre-school education services

II.1.3) Type of contract

Services

II.1.4) Short description

In England, every child is offered a developmental review with a health visitor at age 2/ 2 ½. In this review, a tool is used to measure multiple domains of development and provide a score. The current tool assesses communication, gross motor skills, fine motor skills, problem solving and personal-social development. Currently, the proportion of children obtaining a good level of development overall and for each domain of child development is recorded and tracked over time at a population level. This data underpins a summary of health metrics published by the Office for Health Improvement and Disparities (Child and Maternal Health - Data - OHID (phe.org.uk)).

II.1.5) Estimated total value

Value excluding VAT: £540,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 80000000 - Education and training services

II.2.3) Place of performance

NUTS codes

- UKI32 - Westminster

II.2.4) Description of the procurement

The aim of this market engagement is to identify available tools for measuring child development at age 2/ 2 ½ in England. We will consider tools which meet the following feasibility criteria.

Tools must:

Assess development in children aged 2/ 2 ½

Be capable of providing separate scores for different domains of child development, in addition to an overall score

Be available for use in British English

Be completed and scored in under 30 minutes

Be capable of being administered by an individual without specific qualifications

Only require equipment which is likely to be easy to access, such as a ball, small toy, pen and paper, or utensils for eating food.

It is advantageous if the tool:

Has the capacity to be delivered digitally, meeting GDPR requirements, and be adaptable for use across a range of data management systems

Has been previously used in the United Kingdom at a population and/ or individual level

Has been validated for use at the individual and population level in the United Kingdom or other comparable countries

Can be used to assess development in children at multiple ages from birth to age 5

Is available and validated for use in multiple languages

Is culturally sensitive e.g. a question about motor or personal-social skills which asks whether a child is able to use cutlery might be contextualised with other examples for children from cultures where cutlery is not routinely used

We request that providers whose tool meets the stated feasibility criteria email (child.development@dhsc.gov.uk) by the 31st January 2024 with a one-page document summarising their tool, how it meets the stated criteria, and any other relevant points of interest.

II.3) Estimated date of publication of contract notice

8 January 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
