# Section VI. Complementary information

# VI.1) Information about recurrence

This is a recurrent procurement: No

# VI.2) Information about electronic workflows

Electronic invoicing will be accepted

Electronic payment will be used

# VI.3) Additional information

The contracting authority considers that this contract may be suitable for economic operators that are small or medium enterprises (SMEs). However, any selection of tenderers will be based solely on the criteria set out for the procurement.

Network Homes is one of the UK's leading housing associations with over 40 years' experience developing award-winning homes. A member of the G15 Group of London's largest housing associations, we own and manage over 20,000 homes across London, Hertfordshire and the South East. We love to build homes and we take great pride in the quality of the homes we deliver. We develop homes for a variety of affordable tenures including social, affordable and intermediate rents, shared ownership and rent to buy products such as London Living Rent. We also develop homes for market sale and for market rent. We also manage and develop a ranges of tenures for older people.

We have a strong track record of development and regeneration, with an ambitious growth strategy of 5,000 new homes over the next 5 years and secure development pipeline of approximately 2,500 homes. We have strong relationships with Homes England, the GLA, and Local Authorities across our operational area.

Network Homes' Growth Strategy sets out our ambition to deliver 1,000 units a year within London and Hertfordshire which will be delivered through three procurement routes: land, S106 opportunities and package deals and this framework will help us deliver this.

We have and maintain an impressive pipeline of development opportunities, with schemes of varying scales, ranging from garage site redevelopments, neighbourhood-transforming regeneration schemes, land-led residential developments of 100 units+, up to significant mixed use opportunities including a 575 unit residential-led development in Southall and a 1,600 unit placemaking scheme at Northwick Park. Where the opportunity is right, we look at the potential for joint ventures.

We usually have between fifteen and twenty development sites between the stages of offer accepted and exchange and expect this rate to remain constant over the framework period.

Network Homes has a number of wholly owned subsidiaries who will be entitled to call off contracts under this Framework. It is also likely to be used by local authorities who use us as a development agency.

Other social housing providers in the UK (both those that are in existence now and those that may come into existence during the term of the framework agreement) may also be entitled to call off contracts under the framework agreement. 'Social Housing Provider' for this purpose means any provider of social housing and includes registered providers (as listed on the Gov.UK Website: <a href="https://www.gov.uk/government/publications/current-registered-providers-of-social-housing">https://www.gov.uk/government/publications/current-registered-providers-of-social-housing</a>), and may include local authorities and ALMO's. Applicants should note that, under the framework agreement, no organisation entitled to call-off shall be under any obligation to do so and no social housing provider has the automatic right to do so without direct permission from Network Homes Ltd.

Because of the current state of the market, uncertainties over our pipeline and the possibility of other 'Social Housing Providers' using the framework agreement to an utterly unknown extent, the value of the Framework in the notice is not in any way an accurate estimate of the value of works to be awarded and the total spend could vary considerably from this estimate, in either direction.
