Economic operators shall be required to satisfy minimum standards of economic and financial standing. To determine these standards,

economic operators shall:

(a) in response to SPD, Question Ref. 4B.1.a provide the specified annual turnover for the last two years of trading, or for the period which

(b) in response to SPD Question Ref 4B6 provide the name, range and score of nine financial criteria for each year for the last two years of

trading, or for the period which is available if trading for less than two years; and

as filed at Companies House (or equivalent if not a UK registered company). For the avoidance of doubt, if an economic operator fails to

provide accounts relating to its last two full years of trading that are due to have been filed, that economic operator will be excluded from

this procurement competition.

Where Economic Operators have not yet been trading for a full two year period, such that filed accounts are not yet due and available, and

limited only to that circumstance, the required information to support (a) to (c) above may take the form of appropriate third party /

statements setting out turnover, profit and loss, cashflow (current and forecast) and the economic operator's credit facility position. Note

there will, however, be a negative scoring implication as noted below and in the Additional Documents.

This information has been requested to enable Transport Scotland to perform their own assessment and confirm the financial ratios

submitted. Ultimately, ensuring the correct score is allocated, and to ensure no misinterpretation. Where there exist differences in ratios,

between those provided and those calculated by Transport Scotland, clarification will be sought.

Minimum level(s) of standards possibly required

Economic operators shall be required to satisfy minimum standards of economic and financial standing. These are described below:

Evaluation Criteria Ratios (Question Ref. 4B.6)

The following nine evaluation criteria shall be scored, for each year for the last two years of trading, or for the period which is available if

trading for less than two years:

1. Acid Test Ratio 2. Cash Interest Cover Ratio 3. Return on Capital Employed 4. Operating Profit Ratio 5. Net Worth 6. Gearing 7. Annual Contract Value to Turnover 8. Filed Accounts 9. Audit Report

The scoring mechanism can be downloaded via the Additional Documents, located within the Additional Notice Options of the Public Contracts Scotland portal (www.publiccontractsscotland.gov.uk). For the purpose of calculating the Annual Contract Value to Turnover ratio the estimated value in II.2.6 of this Contract Notice shall be adopted. Similarly, the duration of the contract shall be 24 months.

The nine evaluation criteria will be individually scored and given a total aggregated score,

out of a possible 50 marks, for each year of trading. Subsequently, each year's score will be weighted, with the most recent ("Year 1") weighted at 2/3rds and the previous ("Year 2") weighted at 1/3rd, and then aggregated to form an overall score for the two years out of 50 marks. If the economic operator is trading for less than 2 years, their financial ratios for the most recent full year of trading will be weighted at 2/3rds scored out of the total 50 marks. If the economic operator is trading for less than 1 year the information provided under III.1.2) b), will be prorated up to 1 year to calculate financial ratios for the full year and this will be weighted at 2/3rds and scored out of the total 50 marks. A submission shall be marked as a FAIL and will not be considered further if the score achieved by an economic operator (either a single economic operator or a group of economic operators) is less than 25 marks, out of the potential total aggregated score of 50 marks. A submission shall be marked as a FAIL and will not be considered further if the economic operator is unable to provide appropriate information to enable the calculation of the financial ratios. Where the submission has been submitted by a group of economic operators, the information submitted by each group member will be evaluated in the proportion of the percentage shareholdings or percentage equity/interest of each group member and a score determined for such group of economic operators on that basis. A "group of economic operators" is defined as an unincorporated consortium or joint venture. Insurance (Question Ref. 4B.5)

In response to Question Ref. 4B5 a, b and c economic operators must confirm they already have or can commit to obtain, prior to the commencement of the framework agreement, the following levels of insurance: Professional Indemnity Insurance = 10 million GBP Public Liability Insurance = 10 million GBP Employer's (Compulsory) Liability Insurance = 10 million GBP In responding to Question Ref 4B.5 a, b and c, where the economic operator responds "No, and I cannot commit to obtain it" they shall be marked as FAIL and shall be excluded from this procurement competition.

III.1.3) Technical and professional ability

List and brief description of selection criteria

Under Question Ref. 4C.1 of the SPD economic operators shall be required to insert suitable responses to Statements (a), (b), (c), (d) and (e) demonstrating that they have the required minimum standards of eligibility and technical and professional ability. Answers to these

statements shall be answered by Single Economic Operators or by Groups of Economic Operators (Group Members should not respond

individually).

minimum standards (either they answer 'No' or fail to provide an acceptable response) shall be excluded from the procurement

competition.

The responses to (c), (d) and (e) shall be assessed on the basis of a score from 0 – 5, with a minimum threshold. The scoring criteria can be

downloaded via the Additional Documents, located within the Additional Notice Options of the Public Contracts Scotland portal

(www.publiccontractsscotland.gov.uk).

A submission shall be marked as FAIL and will not be considered further if the score achieved for any statement is less than 2. Where a response is 2 or greater it shall be weighted in accordance with the following weightings: Statement (c) = 40%; Statement (d) = 30%; Statement (e) = 30%;

The weighted scores shall be aggregated to calculate a score out of 100 for the 3 statements. Words in excess of the maximum word limit for each statement will neither be considered nor scored.
