- 32000000 - Radio, television, communication, telecommunication and related equipment

II.1.3) Type of contract

Supplies

II.1.4) Short description

This is notice of a forth coming opportunity for a Systems Integrator (SI). The SI will be required to fit out facilities and provide equipment, installation services and some minor works where needed. The University is seeking an SI who will provide a turnkey facility for the My World project.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45300000 - Building installation work
- 51000000 - Installation services (except software)
- 72000000 - IT services: consulting, software development, Internet and support

II.2.3) Place of performance

NUTS codes

- UKK1 - Gloucestershire, Wiltshire and Bristol/Bath area

II.2.4) Description of the procurement

MyWorld builds on the production, technology and research strengths of the Bristol & Bath creative cluster and its universities. A £46m, 5-year programme with 30 partners, built on

three primary pillars: The Creative Continuum R&D framework; accessible knowledge and facilities; and sustainable and inclusive growth.

MyWorld will create a world-leading collaborative environment with innovation at its core. At the heart is its R&D framework, spanning the creative continuum of production, delivery and consumption.

State of the art research facilities, linked to existing university infrastructure, are currently being built at 'The Sheds Research Hub' in the University of Bristol Temple Quarter Enterprise Campus. These facilities will be coupled with an operational structure that seamlessly supports both commercial and research usage.

The University of Bristol is seeking to procure the services of a Systems Integrator to deliver the equipment design, procurement, fit-out and integration, and commissioning of The Sheds Research Studio (350m²), Production Gallery (55m²) and Edit Suites (46m²); and an Instrumented Auditorium (140m²) for audience monitoring. These facilities need to be operational by Q1 2023 to meet the MyWorld research programme.

MyWorld will enable us to address some of the big creative-technology challenges facing our sector. For example: research expertise enabling new media formats to be pioneered; building collaborative and interactive worlds with seamless interfaces between the physical and virtual; delivering these new experiences to massive audiences across networks of the future; understanding immersion and the real impact of new technologies, enabling us to create more engaging experiences; and fully exploiting the use of AI to transform the production and delivery of new experiences.

II.3) Estimated date of publication of contract notice

1 March 2022

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section VI. Complementary information

VI.3) Additional information

The University is seeking to hold a Market Engagement event on the 20th of January 2022 with all interested suppliers.

Any interested suppliers should register their interest on the University's e-procurement portal (<https://tenders.bris.ac.uk/web/login.html>).

Once registered, suppliers should access project 'itt_947 - My World Systems Integrator Market Engagement ONLY' to register their organisation's interest for the market engagement event. All further information and communication with interested parties will be sent under this project event.
