Lot 2: Surrey prisons - HMP Send, HMP/YOI Downview, HMP Coldingley, HMP/YOI High Down and HMP/YOI Bronzefield

Lot 6: South East CYP establishments - Lansdowne Secure Children's Home (SCH), Swanwick Lodge SCH, Oasis Restore Secure School and the South East Framework for Integrated Care Community Services.

The contribution of service users who have first-hand experience of using the health and wellbeing services within the secure settings is essential to the delivery of effective services and informing the commissioning process. The Commissioner is committed to listening and acting upon the voice of the service user in the design, delivery and ongoing performance of health and wellbeing services.

The key aims of the Service are:

- To ensure all service users are able to effectively contribute to the continuous improvement of health and wellbeing services, as well as being supported to have an independent voice, through various forms of engagement and regular feedback to secure setting management, the healthcare providers and commissioners
- To enable Commissioners to receive clearly the voice of their service users to inform decision-making in relation to healthcare provision in South East secure settings
- To help commissioners and healthcare providers ensure that patient/service user outcomes for patients in the South East secure settings are equivalent to those in the wider community.
- To hold commissioners and healthcare providers to account around their delivery against statutory duties.

The service will be expected to consult / engage with service users on the full range of health and wellbeing services delivered within the establishments via delivery of both on-site and remote service user engagement / participation activities.

The service must hold independence from other (e.g. healthcare) service provision in the specified secure settings in order to have the ability to act as an independent and critical friend.

The Lived Experience Services will be expected to support Commissioners and facilitate service user involvement in procurement processes for the provision of healthcare services within the establishments (as required over the life of the contract).

Currently, there are no planned procurement processes scheduled within the South East Detained Estates. Should this position change, the Commissioners will engage in dialogue with the successful provider to understand the financial implications (if any) of the required procurement support and the relevant contract/s may be varied to include additional funding, if required.

It is anticipated that the contracts will commence on 1st July 2025. The Contracts will be for an initial term of 3 years (36 months), with an option to extend for a further 3 years, at the sole discretion of the Commissioner.

- To enable Commissioners to receive clearly the voice of their service users to inform decision-making in relation to healthcare provision in South East secure settings
- To help commissioners and healthcare providers ensure that patient/service user outcomes for patients in the South East secure settings are equivalent to those in the wider community.
- To hold commissioners and healthcare providers to account around their delivery against statutory duties.

The service will be expected to consult / engage with service users on the full range of health and wellbeing services delivered within the establishments via delivery of both on-site and remote service user engagement / participation activities.

The service must hold independence from other (e.g. healthcare) service provision in the specified secure settings in order to have the ability to act as an independent and critical friend.

The Lived Experience Services will be expected to support Commissioners and facilitate service user involvement in procurement processes for the provision of healthcare services within the establishments (as required over the life of the contract).

Currently, there are no planned procurement processes scheduled within the South East Detained Estates. Should this position change, the Commissioners will engage in dialogue with the successful provider to understand the financial implications (if any) of the required procurement support and the relevant contract/s may be varied to include additional funding, if required.

It is anticipated that the contracts will commence on 1st July 2025. The Contracts will be for an initial term of 3 years (36 months), with an option to extend for a further 3 years, at the sole discretion of the Commissioner.

TUPE may apply.
