**II.1.4) Short description**

Proposals are sought by UK Research and Innovation's (UKRI's) Science and Technology Facilities Council (STFC) for the supply of High Power Laser Mirror Substrates for use as part of the EPAC Project. The tender documents describe the technical specification for tender reference UKRI-2502 to provide the substrates. All related documents should be read and understood in order to bid. The core requirement of the initial batch of substrates is estimated at £400,000 GBP to £500,000 GBP (excluding VAT). The options, that UKRI may choose to procure at a later date, of a 2nd and 3rd batch, makes the total potential spend via a contract to be up to £1.5M GBP (excluding VAT).
