Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Network Equipment and Security Framework

Reference number

Proc2387

II.1.2) Main CPV code

- 32400000 - Networks

II.1.3) Type of contract

Supplies

II.1.4) Short description

JSL wishes to establish a multi-supplier framework agreement to supply, install, support and maintain network equipment from a number of different manufacturers. The framework agreement will be for the supply and support of a broad range of wired and Wi-Fi network equipment including devices with Firewall capabilities, low-end customer premises equipment (CPE), mid-range enterprise, and high-end carrier-class type equipment supporting up to 100 Gigabit Ethernet and above. It also covers converged network adapters, interface modules, transceivers, access points, VoIP products, etc, associated ancillary goods including, but not limited to software, cabling and installation; and associated services including but not limited to development days, project management and fully managed solutions. It is expected that specific Lots of the ITT will require vendor endorsement letters, please ensure that this is considered when the opportunity is published. Please register with our etendering portal as the opportunity will be published on there - <https://uk.eu-supply.com/login.asp?B=JISC>

II.1.6) Information about lots

This contract is divided into lots: Yes

II.2) Description

II.2.1) Title

Lot No

1

II.2.2) Additional CPV code(s)

- 32400000 - Networks

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

JSL wishes to establish a multi-supplier framework agreement to supply, install, support and maintain network equipment from a number of different manufacturers. The framework agreement will be for the supply and support of a broad range of wired and Wi-Fi network equipment including devices with Firewall capabilities, low-end customer premises equipment (CPE), mid-range enterprise, and high-end carrier-class type equipment supporting up to 100 Gigabit Ethernet and above.
