The output from this PIN will inform the approach AWE will take to procure Works, Services and Goods to sustain and enhance key facilities within the AWE estate in order to enable capability through increased reliability, and predictability. Through a pre-market

engagement event and further discussion with interested suppliers AWE shall clarify and develop the contract value, contract structure and sourcing strategy (procedure).

Please note that this PIN and the subsequent pre-market engagement event is not a call for competition, and should any procurement result, appropriate procurement documentation will be released at that stage. AWE will hold a preliminary engagement event with a presentation to provide details to interested parties about our requirement. This shall be on a date and timing to be confirmed. AWE shall, post Market Engagement, inform suppliers who shall be required to engage with AWE security process and sign the AWE Security Aspects Letter. AWE hold reservation of rights to reject any supplier who does not meet our minimum security standards.
