II.2) Description

II.2.2) Additional CPV code(s)

- 43135000 - Subsea equipment

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The SALMO Team within the Ministry of Defence (MOD) have a potential requirement to procure a deep-sea winch system, in order to carry out its core salvage activities. The

intent is that the system should be capable of object recovery to a depth of 6000m.

The intended procurement is for one stand-alone winch system capable to 6000m, including spooling system, active heave compensation and power source. The system is to be readily deployable via road transportation and air freight.

There is a requirement for the system to be procured and supported via a UK prime contractor.

The next stage will be to invite interested companies to outline their ability to fulfil the capability to the Authority.

If you are interested in attending, please submit expressions of interest to deshipscomrcl-salmo-multiuser@mod.gov.uk by Friday 31st January 2025.

SALMO plan to issue a contract notice and contract award for this requirement in financial year 2025/2026.

In issuing this PIN and engaging with the market, neither SALMO nor the MOD are committing to carry out any procurement in relation to the information stated in this PIN.

II.3) Estimated date of publication of contract notice

20 June 2025

Section IV. Procedure
