VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

Precise information on deadline(s) for review procedures:

The PHSO will incorporate a minimum 10 calendar day standstill period at the point information on the award of the contract/framework is communicated to tenderers. This period allows unsuccessful tenderers to seek further debriefing from the contracting authority before the contract commences. Applicants have two working days from notification of the award decision to request additional debriefing and that information has to be provided a minimum of 3 working days before the expiry of the standstill period. If an appeal regarding the award of the contract has not been successfully resolved, the Public Contracts Regulations provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern

Ireland). Any such action must be brought promptly (generally within 3 months). Where a contract has not been entered into the Court may order the setting aside of the award decision or order the contracting authority to amend any document and may award damages. If the contract has been entered into, The Court may only award damages.
