II.1.1) Title

Workforce Management System

Reference number

DN186

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

South Central Ambulance Service NHS Foundation Trust (SCAS) is seeking to procure a fully supplier hosted, managed and onward going developed, Software as a Service provided Workforce Management Software System for use by all UK Ambulance Trusts.

All UK Ambulance Trusts currently use GRS and there is a desire to seek a solution which will provide a total workforce management solution, incorporating the functionality currently provided by other interdependent systems.

SCAS, as lead Contracting Authority, is seeking to appoint a Supplier by 6th April 2021 who will be responsible for developing an all-encompassing system suitable for use by all Ambulance Trusts for a go live date for SCAS, and potentially at least two other Ambulance Trusts, of 1st April 2022.

Please see the following link for details of all the Ambulance Trusts who may draw down on the contract:

<https://aace.org.uk/uk-ambulance-service/map-of-nhs-ambulance-services/>

The Authority seeks bids from organisations which can demonstrate experience of providing a complex Workforce Management Software System for use with a wide range of different personnel and who, whether or not they currently provide services to the NHS, can demonstrate:

i) a clear understanding and appreciation of:

- the complexities of the NHS;
- the Agenda for Change;

- NHS Terms and Conditions;
 - The substantial range and complexity of the personnel employed and the differing terms under which they are employed;
 - The interplay within the NHS marketplace and the interaction between the Department of Health, NHSE, NHSI, Clinical Commissioning Group and many other groups.
- ii) High levels of competency in developing and continually updating a system to deliver 100% accurate information in terms of hours worked by differing personnel;
- iii) The ability to ensure effective, live and accurate integration between hours worked and the Authority's payroll system.
- iv) Proven methodology for delivering the changing needs of an NHS body which employs a wide range of different personnel needing to take account of the Working Time Regulations and the interplay between annual leave, absence, TOIL, overtime, rostering and self-rostering.
- v) The expertise to delivery effective and accurate integration with and data feed from the worked hours data to the Trust's Payroll provider system.

SCAS intend letting a contract for up to 10 years (an initial 5 years from the point of award on 6th April 2021 and then four years from go live on 1st April 2022 with the option thereafter to extend by multiples of one year up to a further five years).

Other Ambulance Trusts would have the option of drawing down on the ensuing contract during its lifetime with the intention of a co-terminus date for all those Trusts utilising the contract opportunity.

SCAS intends that the contract will involve a proactive Ambulance user group who will agree on the development pathway for each following year in conjunction with the Supplier for the benefit of all participating Trusts and, ultimately, the Trust's patients.

The system purchased by SCAS will also be made available to Isle of Wight NHS Trust as part of a co-operation set up between the two public bodies under Regulation 12(7). The procurement of this third-party supplier via a fully compliant OJEU process means that no private supplier has been placed "at an advantage vis-à-vis its competitors."

II.1.5) Estimated total value

Value excluding VAT: £29,640,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 48450000 - Time accounting or human resources software package

II.2.3) Place of performance

NUTS codes

- UKJ1 - Berkshire, Buckinghamshire and Oxfordshire

II.2.4) Description of the procurement

South Central Ambulance Service NHS Foundation Trust (SCAS) is seeking to procure a fully supplier hosted, managed and onward going developed, Software as a Service provided Workforce Management Software System for use by all UK Ambulance Trusts.

All UK Ambulance Trusts currently use GRS and there is a desire to seek a solution which will provide a total workforce management solution, incorporating the functionality currently provided by other interdependent systems.

SCAS, as lead Contracting Authority, is seeking to appoint a Supplier by 6th April 2021 who will be responsible for developing an all-encompassing system suitable for use by all Ambulance Trusts for a go live date for SCAS, and potentially at least two other Ambulance Trusts, of 1st April 2022.

Please see the following link for details of all the Ambulance Trusts who may draw down on the contract:

<https://aace.org.uk/uk-ambulance-service/map-of-nhs-ambulance-services/>

The Authority seeks bids from organisations which can demonstrate experience of providing a complex Workforce Management Software System for use with a wide range of different personnel and who, whether or not they currently provide services to the NHS, can demonstrate:

i) a clear understanding and appreciation of:

- the complexities of the NHS;
- the Agenda for Change;

- NHS Terms and Conditions;
 - The substantial range and complexity of the personnel employed and the differing terms under which they are employed;
 - The interplay within the NHS marketplace and the interaction between the Department of Health, NHSE, NHSI, Clinical Commissioning Group and many other groups.
- ii) High levels of competency in developing and continually updating a system to deliver 100% accurate information in terms of hours worked by differing personnel;
- iii) The ability to ensure effective, live and accurate integration between hours worked and the Authority's payroll system.
- iv) Proven methodology for delivering the changing needs of an NHS body which employs a wide range of different personnel needing to take account of the Working Time Regulations and the interplay between annual leave, absence, TOIL, overtime, rostering and self-rostering.
- v) The expertise to delivery effective and accurate integration with and data feed from the worked hours data to the Trust's Payroll provider system.

SCAS intend letting a contract for up to 10 years (an initial 5 years from the point of award on 6th April 2021 and then four years from go live on 1st April 2022 with the option thereafter to extend by multiples of one year up to a further five years).

Other Ambulance Trusts would have the option of drawing down on the ensuing contract during its lifetime with the intention of a co-terminus date for all those Trusts utilising the contract opportunity.

SCAS intends that the contract will involve a proactive Ambulance user group who will agree on the development pathway for each following year in conjunction with the Supplier for the benefit of all participating Trusts and, ultimately, the Trust's patients.

The system purchased by SCAS will also be made available to Isle of Wight NHS Trust as part of a co-operation set up between the two public bodies under Regulation 12(7). The procurement of this third-party supplier via a fully compliant OJEU process means that no private supplier has been placed "at an advantage vis-à-vis its competitors."

At this stage there is no definite commitment from the other Ambulance Trusts to draw down under the Contract being let by SCAS, but a number of Trusts have expressed direct interest with at least one other Trust with a current Contract that is due to expire on 31 March 2022, enabling them to utilise the Contract scheduled to start on 1 April 2022.

The estimated value is based upon all thirteen Ambulance Trusts drawing down on the ensuing contract.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £29,640,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

6 April 2021

End date

31 March 2026

This contract is subject to renewal

Yes

Description of renewals

The Contract may be extended by up to a further 60 months in increments of 12 months to be agreed with the successful supplier.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

Section IV. Procedure
