II.1.4) Short description

We would like to invite people to come to an informal event during the morning of February 22nd to work with us to think through what is needed to provide a sustainable MSK Community service for Greenwich which meets the diverse needs of our population. We know that there are some aspects of the current offer that don't work as well as they need to. We now have the opportunity to co-design and commission a new model for the provision of MSK Community services for Greenwich that can address this. We want to shape our thinking in collaboration with a diverse mix of people who will bring different perspectives, ideas and experience, so we are inviting interest from a wide-range of organisations.

We must ensure integration with all those providing other services that link to MSK Community services in Greenwich, for example, secondary care Orthopaedic or Rheumatology services, so that the service model is robust and people experience a seamless service when moving between different parts of the system.

We will provide further details (eg. venue, etc) to organisations expressing an interest - please let us know if you would like to attend by emailing: annie.norton@selondonics.nhs.uk no later than 31st January 2024.
