Scope

Description

Establishing a new Centre for AI Measurement. The Centre will host a programme of work to:

- a) Establish a centre of excellence focussed on enabling and accelerating the creation of new testing and evaluation tools for AI systems (the Centre for AI Measurement).
 - b) Create a programme of research and development on good practice, evaluation and performance measures for AI systems, with a focus on highly capable AI systems.
 - c) Support industry in developing, validating and verifying new products and services for AI assurance.
 - d) Coordinate knowledge sharing and communication within the AI assurance sector, those furthering the science of measurement with regard to AI, and international partners.
-
