II.2.1) Total final value of contract(s)

Value: £1,604,463

Excluding VAT

Section IV: Procedure

Type of procedure

Negotiated without publication of a contract notice

Justification for the award of the contract without prior publication of a contract notice

1) Justification for the choice of the negotiated procedure without prior publication of a contract notice

No tenders or no suitable tenders in response to: negotiated procedure competition

All tenders submitted in reply to an open procedure, a restricted procedure or competitive dialogue were irregular or unacceptable. Only those tenderers were included in the negotiations which have satisfied the qualitative selection criteria: yes

The periods for the restricted procedure and the negotiated procedure with prior publication of a contract notice are incompatible with the urgency resulting from a crisis: no

Extreme urgency brought about by events unforeseeable by the contracting authority/entity: no

The works/goods/services can be provided only by a particular tenderer for reasons that are:

technical

The contract concerns research and development services other than those referred to in the regulations: no

The products involved are manufactured purely for the purpose of research, experiment, study or development: no

Additional works/deliveries/services are ordered under strict conditions: no

For supplies quoted and purchased on a commodity market: no

New works/services, constituting a repetition of existing works/services: no

Contract related to the provision of air and maritime transport services for the armed forces deployed or to be deployed abroad: no

The Ministry of Defence ('the Authority'), intends to place a Contract of up to 7 years with SEA Limited ('SEA') for In Service Support to Combat System Highway. The estimated

value of this contract is £3,820,000.

It is considered that this Contract can be placed using the Negotiated Procedure without Prior Publication of a Contract Notice pursuant to Regulation 16(1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011 for Technical Reasons. SEA is the Design Organisation (DO) for the Combat Systems Highway (CSH), a legacy safety critical system and has provided support to the CSH since 1984. As such, SEA is the only entity with the requisite in-depth technical knowledge, expertise and specific know-how as well as the tools, test equipment and means necessary to fulfil this requirement. It is considered that to utilise another contractor which does not have access to these resources could present significant safety risks for the Ministry of Defence. Without access to the proprietary documentation, technical drawings, tooling and test equipment, specific manufacturing processes and knowledge and expertise, any goods provided by another entity would require new testing, new verification, and validation to ensure that the Safety and Suitability for Service of the system, operational performance and effectiveness, and the interoperability is not compromised and that the Safety Case for the system is not invalidated. This would all be at a disproportionate cost and time to the Authority.

IV.2) Award criteria

IV.2.1) Award criteria

Lowest price

IV.2.2) Information about electronic auction

An electronic auction has been used: no

IV.3) Administrative information

IV.3.1) File reference number attributed by the contracting authority

703990450-RT

IV.3.2) Previous publication(s) concerning the same contract

Voluntary ex ante transparency notice

Notice number: [2022/S 000-021978](#) of 10 August 2022

Section V: Award of contract

Contract No

703990450

V.1) Date of contract award decision

30 November 2022

V.2) Information about offers

Number of offers received

1

Number of offers received by electronic means

1
