I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Nature Based Solutions - Water Utilities - Treatment

II.1.2) Main CPV code

- 45252000 - Construction works for sewage treatment plants, purification plants and refuse incineration plants

II.1.3) Type of contract

Works

II.1.4) Short description

The purpose of this PIN is for market evaluation only and is not a call for competition.

Severn Trent Water (STW) are investigating the market for nature-based treatment solutions, as part of the Green Recovery Programme, for potential deployment of solutions to be delivered through the enhanced funding for additional scope beyond AMP7 requirements.

The overall objectives of this PIN are for STW to understand the existing solutions and innovative or developmental technologies relating to natural methods of treating water and waste and to identify potential delivery partners operating in the market.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45232421 - Sewage treatment works
- 45232430 - Water-treatment work
- 45252100 - Sewage-treatment plant construction work

- 45252120 - Water-treatment plant construction work
- 45252127 - Wastewater treatment plant construction work
- 45252130 - Sewage plant equipment
- 45252200 - Purification plant equipment
- 45252210 - Water purification plant construction work
- 71320000 - Engineering design services
- 71800000 - Consulting services for water-supply and waste consultancy
- 90420000 - Sewage treatment services

II.2.3) Place of performance

NUTS codes

- UKF - East Midlands (England)
- UKG - West Midlands (England)
- UKK1 - Gloucestershire, Wiltshire and Bristol/Bath area
- UKL - Wales

II.2.4) Description of the procurement

The purpose of this PIN is for market evaluation only and is not a call for competition.

Severn Trent Water (STW) are investigating the market for nature-based treatment solutions, including but not limited to: wetlands, reactive media, algae bioreactors and catchment management. STW are particularly interested in solutions not yet identified, so encourage the involvement of parties who can contribute with additional or innovative solutions.

STW recognises the speciality of nature-based treatment solutions and to this end wish to understand from potential delivery partners the following considerations: existing and novel nature-based treatment solutions; experience and outcomes of previous projects involving the design, construction or goods supply to nature-based treatment solutions; current business capability and proprietary expertise relating to nature-based treatment solutions; current capacity for delivery of nature-based treatment projects; best practice delivery

models to minimise risk and maximise success.

STW places great emphasis on the role of the supply chain to deliver its business needs. For this reason, STW intends to engage interactively with potential delivery partners during the period of 14th February to 4th March 2022, in a format to be advised upon assessment of responses to this PIN, to gain feedback on the considerations detailed above. Involvement in any supplier engagement activity is strictly by registration no later than 12:00PM on 9th February 2022. To register for engagement with STW relating to nature-based treatment solutions, please provide company and contact details using the designated registration form - <https://forms.office.com/r/cf6sZprWgt>.

Registered organisations will be informed of the format and specific timing of engagement sessions once the above registration deadline has passed. Any request for involvement received after the deadline may not be considered, at the sole discretion of the Utilities.

STW reserves the right to publish any materials shared or discussed during supplier engagement. If you are not comfortable sharing information in open discussions or with your information being shared by STW with other suppliers, then you must state this through the registration form. Please be advised that any inability to share information may mean that STW has to exclude you from any resultant procurement process to avoid any unfair advantage.

STW reserves the right to cancel the supplier engagement process if there is little or no participation up take. Should a supplier engagement event be determined as the format of engagement then arrangements shall be confirmed, and a list of attendee organisations will be published prior to the event, any request to be excluded from this list must be submitted with your registration.

Following the supplier engagement process STW may, at its discretion, conduct a formal procurement exercise. Please note that there will be no obligation on STW to launch such an exercise nor does participation in this supplier engagement process guarantee STW will enter into any contractual relationship with any individual companies.

II.3) Estimated date of publication of contract notice

14 January 2022

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.2) Time limit for receipt of expressions of interest

Date

9 February 2022

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.3) Additional information

Please note that involvement in any supplier engagement activity is strictly by registration no later than 12:00PM on 9th February 2022. To register for engagement with STW relating to nature-based treatment solutions, please provide company and contact details using the designated registration form - [<https://forms.office.com/r/cf6sZprWgt>]. Should you experience any issues with the registration form please contact [zach.reade@severntrent.co.uk].
