II.2.4) Description of the procurement

NHS Talking Therapies Service – Suffolk Prisons (HMP Highpoint, HMP Warren Hill and HMP Hollesley Bay)

This Prior Information Notice (PIN) serves to inform the market of provider organisations in the field of mental health, well-being and talking therapy services, that NHSE East of England Health and Justice are looking to procure in the future an NHS Talking Therapies service.

It is planned that the proposed procurement will contain one lot.

The service shall provide prison orientated, evidence-based psychological therapies to prisoners in the three Suffolk prisons with 'common' mental health problems - aligned to the NHS Talking Therapies Manual (2023) (formerly known as Improving Access to Psychological Therapies (IAPT)).

The service shall be flexible and responsive to the population needs and operate a bio-psychosocial model of care; taking an individual's needs into consideration to plan holistic and integrated interventions to improve wellbeing. The service will work closely with the

other prison healthcare providers (primary healthcare, mental health, and psychosocial substance misuse) and the Integrated Care System (ICS) to ensure this is implemented effectively. This shall include a tiered approach to support, dependent on need, employing warm handovers and single trusted assessments to other services which can support people's mental health and wider determinants of wellbeing.

Scope

The service will take a 'needs led' approach, such that prisoners with needs that can be met by the service should be offered and engaged with it. Further to this, the service will proactively engage with prisoner population groups where there are recognised risks, low rates of engagement or health inequalities. The service shall also offer opportunities for all who access the service to be involved in participation forums to facilitate co-production and service user involvement with service improvement projects.

II.2) Description

- 85312500 - Rehabilitation services

II.2.3) Place of performance

NUTS codes

- UKH - East of England

II.2.4) Description of the procurement

SARC Talking Therapies

The overall objective of the service is to reduce the mental distress experienced by survivors because of sexual assault or abuse, and to positively impact their mental health and wellbeing. This will be achieved by providing rapid access to short-term psychological interventions to support male and female adults and children. The access criteria for this service is those who have attended the SARC from the immediate aftermath to 12 months of a sexual offence, whether the incident is subject to criminal justice proceedings or not.

II.3) Estimated date of publication of contract notice

1 March 2024
