General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Provision of Highways Asset Management Solution & Associated Services

Reference number

DN651427

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Leicester City Council (LCC) is seeking to procure an integrated Highways Asset Management System (HAMS), to support its teams in the management and maintenance of its primary highways assets. The solution will also have the potential to be expanded to support teams managing non-highway assets.

LCC has for some time used the Yotta Mayrise system and the AMX – Bridge Management System, to manage its highway and bridge network, respectively. At present they are hosted in the Council's on-premise data centre. These systems and the management of the assets are supported by several other systems and solutions. Some of which are digitally integrated, some are not.

The scope of this procurement exercise is to provide LCC with a HAMS that will meet the requirements of the following teams:

- Highways Management and Inspections
- Highways Maintenance
- Bridges and Highway Structures
- Street Lighting

- Flooding and Drainage
- GIS
- Finance

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKF21 - Leicester

II.2.4) Description of the procurement

Leicester City Council (LCC) is seeking to procure an integrated Highways Asset Management System (HAMS), to support its teams in the management and maintenance of its primary highways assets. The solution will also have the potential to be expanded to support teams managing non-highway assets.

LCC has for some time used the Yotta Mayrise system and the AMX – Bridge Management System, to manage its highway and bridge network, respectively. At present they are hosted in the Council's on-premise data centre. These systems and the management of the assets are supported by several other systems and solutions.
