## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Provision of Highways Asset Management Solution & Associated Services

Reference number

DN651427

#### **II.1.2) Main CPV code**

- 48000000 - Software package and information systems

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

Leicester City Council (LCC) is seeking to procure an integrated Highways Asset Management System (HAMS), to support its teams in the management and maintenance of its primary highways assets. The solution will also have the potential to be expanded to support teams managing non-highway assets.

LCC has for some time used the Yotta Mayrise system and the AMX – Bridge Management System, to manage its highway and bridge network, respectively. At present they are hosted in the Council's on-premise data centre. These systems and the management of the assets are supported by several other systems and solutions. Some of which are digitally integrated, some are not.

The scope of this procurement exercise is to provide LCC with a HAMS that will meet the requirements of the following teams:

- Highways Management and Inspections
- Highways Maintenance
- Bridges and Highway Structures
- Street Lighting

- Flooding and Drainage
- GIS
- Finance

### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UKF21 - Leicester

### **II.2.4) Description of the procurement**

Leicester City Council (LCC) is seeking to procure an integrated Highways Asset Management System (HAMS), to support its teams in the management and maintenance of its primary highways assets. The solution will also have the potential to be expanded to support teams managing non-highway assets.

LCC has for some time used the Yotta Mayrise system and the AMX – Bridge Management System, to manage its highway and bridge network, respectively. At present they are hosted in the Council's on-premise data centre. These systems and the management of the assets are supported by several other systems and solutions.
