Services

II.1.4) Short description

NHS Arden and Greater East Midlands Commissioning Support unit on behalf of NHS England wish to procure under Lots four All Tiers Stereotactic Radiosurgery / Radiotherapy (SRS /SRT) Services – (Intracranial) all ages, including paediatric oncology services covering England.

SRS/SRT are methods of delivering doses of precisely targeted intracranial radiotherapy treatment and used for a wide range of malignant and benign intracranial conditions, as setout

within NHS England clinical commissioning policy. This comprises Tier 1-2 indications of cerebral metastases, non-skull base meningiomas, skull base tumours including Vestibular Schwannoma and meningioma, pituitary adenoma, and the Tier 3-4 indications including arteriovenous malformations, trigeminal neuralgia and paediatric CNS tumours. The prevalence of these conditions varies from less than one per 100,000 population to up to 30 per 100,000.

The two Service Specification include a tiered service model, based on clinical indication prevalence and complexity and groups together more common, less complex conditions (called Tier 1&2) and less common and more complex conditions (called Tier 3&4).

The two service specification, cover:

(i) Tier 1 & 2 indications for adults; and

(ii) All tiers, all ages and all conditions as this better reflects service provision and pathways. This procurement is focused on the ALL Tiers, all ages Service Specification ONLY.

The Lots will cover the whole of England based on the following Geographies:

1. Lot 1: North England and North West England
2. Lot 2: South Yorkshire and Midlands
3. Lot 3: Greater London, East of England and South England
4. Lot 4: South West of England

II.1.5) Estimated total value

Value excluding VAT: £83,500,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2) Description

II.2.1) Title

Lot 1 North England and North West England

Lot No

1

II.2.2) Additional CPV code(s)

- 85100000 - Health services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The objective of this procurement is to commission four Lots All Tiers Stereotactic Radiosurgery / Radiotherapy (SRS /SRT) Services – (Intracranial) all ages, including paediatric oncology services covering England. The eligibility criteria, lotting structure and

scope of services are detailed in this document. Bidders must be located within the Lot geography for which they are bidding. Bidders are only required to deliver the Tier 1 and 2 services within the geographical catchment area served by the neurosurgical service in which they are based and not for the whole Lot geography.

On completion of the procurement process, NHS England will complete a Market Engagement exercise scheduled, to follow the outcome from this procurement process for the remaining Tier 1 & Tier 2 services which will be open to all bidders.

In order to be eligible, bidders must ensure that:

- a) The Service is delivered as part of an integrated neurosurgical and oncology service located within the same geographical area or city serving a population of at least 2 million in order to generate 100 SRS/SRT Tier 1&2 cases per year.
- b) The Service is delivered as part of an integrated paediatric neurosurgical and oncology service, commissioned to provide Paediatric Photon Radiotherapy located within the same geographical area or city to a Children's Cancer Principal Treatment Centre (PTC)
- c) The neurosurgical centre must host the full range of specialist intracranial Multi-disciplinary Teams (MDT) for all clinical indications for adult and paediatric intracranial tumours, namely, combined Neurosciences Brain and Central Nervous System (CNS) MDT, and / or the individual neuro-oncology MDTs, skull base MDT, and pituitary MDT, neuro-vascular MDT and Paediatric oncology MDTs as listed in Table 1.2.
- d) The Service must deliver the complete range of SRS/SRT treatments including paediatric oncology indications (Table 1.2) and participate in the full range of specialist neurosurgical MDTs and generate a minimum annual activity volume of: (i) 100 SRS/SRT Tier 1 and Tier 2 cases; plus (ii) circa 200 Tier 3 and Tier 4 (combined) cases.

SRS/SRT are methods of delivering doses of precisely targeted intracranial radiotherapy treatment and used for a wide range of malignant and benign intracranial conditions, as set-out within NHS England clinical commissioning policy. This comprises Tier 1-2 indications of cerebral metastases, non-skull base meningiomas, skull base tumours including Vestibular Schwannoma and meningioma, pituitary adenoma, and the Tier 3-4 indications including arteriovenous malformations, trigeminal neuralgia and paediatric CNS tumours. The prevalence of these conditions varies from less than one per 100,000 population to up to 30 per 100,000.

This tiered service model is based on clinical indication prevalence and complexity and groups together more common, less complex conditions (called Tier 1&2) and less common and more complex conditions (called Tier 3&4).

The two service specifications, cover:

- (i) Tier 1 & 2 indications for adults; and
 - (ii) All tiers, all ages and all conditions as this better reflects service provision and pathways.
- This procurement is focused on the ALL Tiers, all ages Service Specification ONLY.

The Lots will cover the whole of England based on the following Geographies:

1. Lot 1: North England and North West England
2. Lot 2: South Yorkshire and Midlands
3. Lot 3: Greater London, East of England and South England
4. Lot 4: South West of England

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £20,725,500

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

1 October 2024

End date

30 September 2031

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

Bidders will be required to adhere to the recommendations detailed in the NPSA report 'Towards Safety in Radiotherapy' and will be required to meet the Pre-Assessment Radiotherapy Quality Assurance Requirements by June 2024 at the latest. Bidders will be required to complete external Radiotherapy Quality Assurance (RTTQA) prior

to contract award.

On completion of the procurement process, NHS England will complete a Market Engagement exercise scheduled, to follow the outcome from this procurement process for the remaining Tier 1 & Tier 2 services which will be open to all bidders.

The duration of this contract will be for a period of 5 years with the Commissioner having the option to extend the Contract for up to a further two years. Providers wishing to be considered for the delivery of these services will need to respond to the provider selection documentation and submit responses prior to the deadline stated in this notice. The ITT documentation including a questionnaire is available through the Atamis (Health Family) portal:

<https://health-family.force.com/s/Welcome>
(<https://health-family.force.com/s/Welcome>)

The reference is C220364 and the closing date for completed ITT responses is 12:00pm, midday on Friday 23rd February 2024. There will also be an opportunity to attend a market engagement event via Microsoft Teams at 13:00pm on Thursday 25th January 2024. If you would like to participate in this event, please email:

josselin.canevet@nhs.net

by Wednesday 24th January 2024. All slides and questions and responses will be made available to all bidders following the event.
