Services

II.1.4) Short description

LNER are on a journey to revolutionise the digital customer experience for rail travellers in the UK and further afield. Our customers' digital and online booking needs are evolving quickly, and we are looking to procure a supplier to join us on this exciting journey to develop and support our LNER Website and App under a single contract, helping us build on synergies and efficiencies across both channels. We need be able to provide our customers with a slick, intuitive, mobile-first experience for searching, comparing, and booking rail tickets and extras, as well as being able to manage their bookings online and find information about our services.

LNER run long-distance high-speed services on a route that stretches over 900 miles, and

a key part of our ambitious digital transformation programme is to develop our online channels (specifically Web & App) and search presence further to become market-leading in the transport industry, and to allow us to accelerate and deliver our innovative digital roadmap.

We are reprocurring to provide a renewed basis for continued online investment in our Website and App over the next 3 years - this will encompass the management and evolution of our full retail ecosystem & middleware components, ongoing support and maintenance, a website rebuild, CMS administration, SEO management, accessibility, and development of projects from inception through to delivery.

The new arrangement aims to be in place by Summer 2023, to build on our vision of a world-class, mobile-first digital offering which will provide a best-in-class experience for retailing solutions that are scalable and reusable with the ability to white label as required. We expect that this will include significant development to improve on the design and effectiveness of our current digital channels.
