- Assessment & Formulation
- Trauma Stabilisation
- Emotional & Practical Support

- Talking Therapies, Counselling

 - o Talking therapies and counselling
 - o Trauma Processing interventions e.g Narrative Exposure Therapy, EMDR, Trauma focused CBT, somatic therapy.
- There is consistent use of clinical tools to determine the correct therapeutic pathways for individuals within the specialist sexual violence support offer and beyond.
- Locality Partnership Panels are convened for each local authority area between the sexual violence providers, domestic abuse providers and mental health to determine pathways for individuals who do not clearly fit within the specialist sexual violence pathway and/or require additional support.
