## **Section VI. Complementary information**

### **VI.3) Additional information**

The modification is not substantial within the meaning of Regulation 72(1)(e): it does not render the contract materially different in character – it is limited to the same type, scope and nature of works in the same geographic area; it does not introduce conditions which would have (a) allowed for the admission of other candidates, (b) allowed for the acceptance of another tender, or (c) attracted additional participants - the change in value is not significant and is unlikely to have changed the outcome of the procurement; it does not change the economic balance in favour of the contractor - Network is satisfied that the estimated compensation is reflective of market costs and does not amount to an over-compensation; and it does not extend the scope of the contract considerably.

## **VII.2) Information about modifications**

### **VII.2.1) Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The contract is extended by a period of six (6) months, and will expire on 31 January 2024. The estimated value of the contract is increased by approximately £6,000,000 (six

million pounds). The scope and nature of the works will remain unchanged and the works will be carried out in the same geographical region.

### **VII.2.2) Reasons for modification**

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

Network's R&M works are provided by MCP and another contractor (the Second Contract). Wider market issues have caused difficulties with delivery and the Second Contract is being ended. This (and the need to reallocate outstanding work from the Second Contract) could not have been foreseen by Network, acting diligently, when the contracts were entered into. The modification does not alter the overall nature of the contract, nor does it increase the price by more than 50% of the original value.

### **VII.2.3) Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £16,000,000

Total contract value after the modifications

Value excluding VAT: £22,000,000
