Scope

Description

Milton Keynes College wishes to procure the design and construction of the following works:

The replacement of Air Handling Units and associated ductwork on the roof of the main building at Bletchley Campus, and the replacement of all associated pipework and heat emitters within the building. The project scope includes remedial work to the existing roof, builders work in connection with services, strip out of the existing heating plant, integration of the new heating system with existing air source heat pump plant, new environmental controls, and commissioning of the completed installation.

Design information for the project is contained within the tender pack.

The tender pack can be obtained from Craig Pullen - craig@cpconsulting.org.uk
