- 72317000 - Data storage services

II.2.3) Place of performance

NUTS codes

- UKM - SCOTLAND

Main site or place of performance

The City of Edinburgh

II.2.4) Description of the procurement

Centralised offsite storage of Council records has been a long-standing requirement, which has become essential over the years due to office rationalisations and increasing compliance requirements around Scottish public sector records management.

The Council requires new arrangements for its offsite storage and management of its paper records. This is a recurring need and breaks down as follows:

- Secure offsite physical storage arrangements for up to 65,000 boxes at the start, but aiming to reduce this significantly over a 10 year period.
- Routine and emergency access requirements to boxes and files, both onsite and by delivery to multiple Council office locations via dedicated transport.
- Online inventory management solution that manages both boxes and individual files (where required), including audited and authenticated disposal and retrieval processes, legal holds, classification by business function and data sensitivity, and record retention policy management.
- This solution must also provide self-service access to a wide range of Council staff that need to store, retrieve / return and dispose of boxes stored under this arrangement.

Under the Public Records (Scotland) Act, 2011, the Council is required to create, manage and apply record retention policies to all of its records. Currently the Council has over 900 individual retention policies – covering adoptions through to waste site management.

II.2.14) Additional information

This is a Prior Information Notice. Please register your interest in the notice if you are interested.

There are no Tender documents available at this stage.

II.3) Estimated date of publication of contract notice

1 March 2021
