Contract

## **Potential migration levels of mineral oil hydrocarbons (MOAH and MOSH) from food**

Food Standards Agency

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-001291

Procurement identifier (OCID): ocds-h6vhtk-06017e

Published 8 January 2026, 9:52am

### **Scope**

### **Reference**

C407605

### **Description**

There is currently limited UK capability to measure MOSH/MOAH levels in foods.

To evaluate dietary exposure and possible migration levels of MOSH/MOAH, methodology for the determination of MOSH/MOAH in foods needs to be established.

The objective of this current piece of work is to apply methods for the detection of MOSH/MOAH within food and ascertain any potential migration levels from food contact materials and as environmental contaminants in food.

The development of these methods and their subsequent validation will allow the FSA to determine the risk to the consumer from exposure from foods which have been contaminated with MOSH/MOAH and additionally respond to incidents.

## **Contract 1. Potential migration levels of mineral oil hydrocarbons (MOAH and MOSH) from food contact materials and background environmental contamination**

### **Supplier**

- [Fera Science Ltd](#)

### **Contract value**

- £99,643.91 excluding VAT
- £119,572.69 including VAT

Below the relevant threshold

### **Date signed**

7 January 2026

### **Contract dates**

- 8 January 2026 to 26 February 2027
- Possible extension to 9 April 2027
- 1 year, 3 months, 2 days

Description of possible extension:

The Buyer may extend the Contract for a period of up to 6 weeks by giving not less than 10 Working Days' notice in writing to the Supplier prior to the Expiry Date. The Conditions of the Contract shall apply throughout any such extended period.
