II.2.4) Description of the procurement

Birmingham City Council is the largest local authority in Europe and one of the largest social landlords in the country with a stock portfolio of approximately 60,000 properties. The Council wishes to establish a contract to provide a day to day repair service,

(including 24 hours cover for emergency repairs); repair work to void properties prior to reletting; cyclical repairs; planned maintenance and improvement programmes; retrofit works to the Council's housing stock to reduce carbon impact, disabled adaptations; inspection services; planning supervisor services; design specification; work planning and quality control, together with customer relations and the appropriate financial and administrative support. The scope of the gas and heating installations, servicing and maintenance workstream will include providing an annual service to all appliances, in line with the Council's statutory obligation. The specification requires a full service and not just a safety check and to carry out all gas and heating repairs and supplying and fitting any parts. Obsolete boilers are currently replaced at the discretion of the Council through its capital programme. The Call Management function will be carried out by the Council's inhouse corporate contact centre function supported by Contractors with an out of hours service (call handling and carrying out emergency repairs). Contractors will be expected to work with the in-house service and interface with its systems to provide an effective repair reporting facility. The contract will be for a period of five years with the option to extend for one further period of five years. The Council will be using bespoke contract terms, which will contain a no-fault break clause provision. Pricing will be based on a 'price per' approach (PPP/ PPV/PPGH), with a limited set of exclusions, a basket rates for planned works and standalone projects separately priced. The Council is committed to providing quality services to customers. Contractors are expected to assist the Council in achieving and furthering this objective through continuous service improvement and improving value for money. The Council has established key performance indicators which the contractors will be expected to consistently meet. Under this contract the contractors and their supply chains will be required to actively participate in the achievement of the Contracting Authority's social, economic and environmental objectives. Accordingly, contract documents may relate to social, economic and environmental considerations.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

Duration in months

60

This contract is subject to renewal

Yes

Description of renewals

The contract will be for a period of five years with the option to extend for one further period of five years.

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5

Objective criteria for choosing the limited number of candidates:

At the conclusion of the Selection Questionnaire stage, the intention is to arrive at a shortlist of five Applicants for each Lot, being the five highest scoring compliant Applicants to take forward to the ISIT stage. The Council reserves the right to shortlist six Applicants for each Lot, where the percentage difference in score between the fifth and sixth Applicant is less than 2%. For the avoidance of doubt, whilst the Council intends to shortlist the five highest scoring compliant Applicants, should fewer than five Applicants successfully pass the requirements of the Selection Questionnaire, this will not affect the Council's ability to proceed with the procurement process (having regard to the provisions of Regulation 65).
