Options: Yes

Description of options

The initial contract term shall be 5 years, with the option of extending for up to five one-year periods.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to restricted procedure
- The products involved are manufactured purely for the purpose of research, experiment, study or development

Explanation:

It is considered that the award of the contract without prior publication of a contract notice in the UK e-notification service is lawful in accordance with regulation 16(1)(a)(i) of the DSPCR 2011, because of the absence of suitable applications. The Authority previously intended to compete the requirement for White Fleet Management Services following the restricted procedure under the DSPCR (Tender 707920450) and a Contract Notice was published accordingly (Notice reference: 2024/S 000-033614). However, the Authority received only one application to participate in response to the Contract Notice, from Babcock Land Defence Limited.

Therefore, in light of the absence of suitable applications to enable the requirement to be competed, the Authority discontinued the original procurement (Tender 707920450) and in accordance with regulation 16(1)(a)(i), intends to award the contract to Babcock Land Defence Limited using the negotiated procedure without prior publication of a contract notice, on the basis that the original terms of the proposed contract offered in the restricted procedure are not substantially altered in the negotiated procedure.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession
