The local authorities want to Develop a new, innovative, and sustainable model for home care as part of a new commissioning strategy. With that aim we will be holding a market engagement event to share the vision for the future applying the learning from all stakeholders from the previous five years of the contracts and learning from the Covid-19 pandemic

With this shift, we want to host a series of engagement opportunities with existing and potential providers, which includes a market engagement event.

This event will provide an opportunity to discuss proposed models and how services will be delivered in the future. We want the market to help support and develop:

- The Council's intentions to delivering on its Direct Payment Strategy to enable people who want to self-direct and manage their own care and support.
- Develop a new, innovative, and sustainable model for home care as part of a new commissioning strategy
- Understand the market's readiness for digital delivery of care coordination, payments system for care, onboarding of providers, digital quality assurance and how the use of technologies can support greater independence.
-
