Southern Water is a highly regulated business with formal, established reporting cycles to the Environment Agency, Ofwat and the Drinking Water Inspectorate and other stakeholders. Our regulators' assurance requirements continue to evolve and those of Ofwat particularly are increasing significantly for AMP8 reporting.

We are therefore seeking partner organisations to help meet our regulators' developing requirements and support an increase to our already significant assurance programme over the next five-year AMP. These companies will enhance our existing framework, maintain consistency of delivery and be effective and accountable for the services they provide.

To understand the extensive assurance programme we will be building on, you can find more information on our website here: Assurance Information - Southern Water
