Procurement for Services related to COVID-19

Reference number

PU-21-0140

#### II.1.2) Main CPV code

- 79311000 - Survey services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

The Office for National Statistics ('ONS') has a requirement to procure Services related to COVID-19. ONS was commissioned in April 2020 to conduct the COVID-19 Infection Survey collecting the data which informs HMG's policies and operational interventions regarding the COVID-19 pandemic. CIS is a repeated cross-sectional household survey with additional serial sampling and longitudinal follow-up which provides an estimate of the proportion and number of people living in private households who would have had COVID-19 in the last week based on trend modelling. The study is led by DHSC and ONS and draws on the world-leading scientific expertise of the University of Oxford. CIS is the flagship surveillance study and the key source of COVID-19 infection data, incidence and antibody prevalence in UK communities. We work with key stakeholder partners; PHE, PHS, PHW, the Joint Biosecurity Centre, Ministers, SAGE, and the wider UK Test & Trace programmes to inform required policy and operational interventions.
