Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

(NU/1831) Supply of an AFM with PFM

Reference number

DN651596

II.1.2) Main CPV code

- 38510000 - Microscopes

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Biomedical Engineering research hub in the School of Engineering, as well as other research groups in the Faculty of Science, Agriculture and Engineering and Faculty of Medical Sciences at Newcastle University, require AFM with PFM capabilities capabilities to support a wide range of research activities related to Medical Technologies.

Therefore, we are looking to purchase an AFM-PFM equipment that will enable us to nano-characterise new biomaterials and technologies for tissue engineering, analysis cell-cell and cell-materials interface in dry and wet/liquid state (e.g. property measurements of hydrogels, cells and tissues) and explore new healthcare research frontiers on the nanoscale. This purchase is being funded by the Wolfson Foundation.

The scope of this contract is for the supply, delivery and installation of the equipment detailed in the Invitation to Tender documents to the University, with after-sales support and 12 months warranty and maintenance.

Expressions of interest in this project can be made by registering via the University's etendering portal at: <https://procontract.due-north.com/Advert/Index?advertId=1f5383a9-af95-ed11-811c-005056b64545>

The contract reference is NU/1830

The deadline for expressing an interest in this tender is Tuesday 14th February 2023 at 16:00 hours GMT

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC22 - Tyneside

II.2.4) Description of the procurement

The Biomedical Engineering research hub in the School of Engineering, as well as other research groups in the Faculty of Science, Agriculture and Engineering and Faculty of Medical Sciences at Newcastle University, require AFM with PFM capabilities capabilities to support a wide range of research activities related to Medical Technologies.

Therefore, we are looking to purchase an AFM-PFM equipment that will enable us to nano-characterise new biomaterials and technologies for tissue engineering, analysis cell-cell and cell-materials interface in dry and wet/liquid state (e.g. property measurements of hydrogels, cells and tissues) and explore new healthcare research frontiers on the nanoscale. This purchase is being funded by the Wolfson Foundation.

The scope of this contract is for the supply, delivery and installation of the equipment detailed in the Invitation to Tender documents to the University, with after-sales support and 12 months warranty and maintenance.

Date

17 February 2023

Local time

2:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.7) Conditions for opening of tenders

Date

17 February 2023

Local time

2:30pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.4) Procedures for review

VI.4.1) Review body

Newcastle University

Newcastle upon Tyne

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The University will incorporate a standstill period at the point information on the award of the

contract is communicated to tenderers. That notification will provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into.

The Public Contracts Regulations 2015 (SI 2015 No 102) provide for aggrieved parties who

have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland) within 30 days of knowledge or constructive knowledge of breach
