Section II: Object

II.1) Scope of the procurement

II.1.1) Title

LUV01227 EO Datahub Datastreams

Reference number

LUV01227

II.1.2) Main CPV code

- 72300000 - Data services

II.1.3) Type of contract

Services

II.1.4) Short description

This ITT is primarily intended to address the ways in which commercial satellite data providers can interface with the EODH and its users effectively by bringing some key data providers into the EODH programme. The EODH sets particular store by data quality and in data standards. For all data sets, including commercial ones made accessible through this ITT, we ask for descriptions of data quality and for lists of applicable documents for the Catalogue of Quality Information that the EODH will build. For this ITT, bidders will only need to provide quality descriptions for commercial data sets that they will provide. Finally, bidders should indicate their willingness for their data to be included in data quality exercises such as assessments of calibration quality, e.g., as undertaken in the European Space Agency Third Party Missions assessments. High quality, trustable data is important to many users.

II.1.5) Estimated total value

Value excluding VAT: £916,667

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKF21 - Leicester

Main site or place of performance

Leicester

II.2.4) Description of the procurement

This ITT is primarily intended to address the ways in which commercial satellite data providers can interface with the EODH and its users effectively by bringing some key data providers into the EODH programme. The EODH sets particular store by data quality and in data standards. For all data sets, including commercial ones made accessible through this ITT, we ask for descriptions of data quality and for lists of applicable documents for the Catalogue of Quality Information that the EODH will build. For this ITT, bidders will only need to provide quality descriptions for commercial data sets that they will provide. Finally, bidders should indicate their willingness for their data to be included in data quality exercises such as assessments of calibration quality, e.g., as undertaken in the European Space Agency Third Party Missions assessments. High quality, trustable data is important to many users.
