Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Supply of Precast Segmental Smoothbore Shaft Linings

II.1.2) Main CPV code

- 44114200 - Concrete products

II.1.3) Type of contract

Supplies

II.1.4) Short description

Severn Trent Water (STW) are interested in hearing from suppliers that can manufacture and have stock of Precast Segmental Smoothbore Shaft linings for construction in new Shaft Tank storage solutions for infra and non-infra sites. These would be to install across the STW network.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 44610000 - Tanks, reservoirs, containers and pressure vessels

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Diameter of available designed and stocked Precast Segmental Smoothbore Shaft linings include, but not limited to, 6m to 25m.

Features of the stocked product are expected to include, but not limited to:

- Designed to relevant standards and regulations for water storing concrete structures suitable for wastewater.
- Proven design that has been fitted and in use in the UK Water Industry or equivalent industries
- Supplied product suitable for underpinning, caisson and chimney construction methods
- Supplied product shall include appropriate jointing and sealing features to deliver a watertight structure

Please send any case studies to us of your previous experience in this type of supply of goods to enable us to analyse the supply chain and assist us in developing a sourcing strategy.

II.3) Estimated date of publication of contract notice

1 July 2025

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.4) Languages in which tenders or requests to participate may be submitted

English
