Predictive Decision Support Tool for 12 Sqn the UK-Qatar Joint Typhoon Sqn

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development

Explanation:

The UK Ministry of Defence intends to award a contract to Inzpire Limited for the value of £248,000.00 pursuant to the Defence and Security Public Contracts Regulations 2011 (DSPCR 2011) using the negotiated procedure without prior publication of a contract notice for the provision a Lonestar Predictive Decision Support Tool. This procedure is considered justified for technical reasons under regulation 16 (1)(a)(ii) of the DSPCR 2011. The high number of uncertainties anticipated in the relevant context will require a Stochastic based machine learning modelling tool due to its superiority in dealing with unknown factors. The Lonestar decision tool has been identified as the only product currently available on the market which uses Stochastic modelling in the relevant context. The use of probabilistic modelling is not suitable due to the nature of the requirement.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession
