Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Engineering and Technology Solution Marketplace Dynamic Purchasing System

Reference number

C12362

II.1.2) Main CPV code

- 71356000 - Technical services

II.1.3) Type of contract

Services

II.1.4) Short description

This notice is created to highlight the changes to the existing Engineering Solutions Marketplace Dynamic Purchasing System - original TED publication reference 2019/S 177-431310.

This relates to CTM Ref: 11627, 11628, 11629, 11630. URL address

Updated May 2025:

- End date extended to 23rd February 2029 for all categories.
- New categories added:-
- Lot 5 - Robotics
- Lot 6 - Artificial Intelligence

- Lot 7 - RAI Services
- Lot 8 - RAI Infrastructure

Amendments made to Selection questions to streamline application process.

UKAEA added to contracting authority.

Updated CPV codes to include CPV codes that reflect Robotics and AI.

Update January 2026:

New categories added:-

- Lot 09 - Configuration Management
- Lot 10 - Engineering Design Services
- Lot 11 - Plant Modification and Implementation
- Lot 12 - Safety Case

Changes to CPV codes for Design Services.

Short description

Instead of

Text

Members of the shared service alliance are seeking to embed a more optimal method for the procurement and deployment of engineering and technology solutions. The engineering and technology solutions marketplace dynamic purchasing system (DPS) is to access a greater breadth of capable supply chain organisations to utilise existing and commonly used engineering and technology solutions to address identified business challenges. The engineering and technology solutions marketplace DPS will look to create greater visibility of work packages to the supply chain to enable greater competition to achieve improved outcomes and value. There are eight (8) categories in the dynamic purchasing system.

- 1) Digital;
- 2) Engineering services;
- 3) Asset maintenance and management;
- 4) Manufacture.
- 5) Robotics
- 6) Artificial Intelligence
- 7) RAI Infrastructure
- 8) RAI Service

These categories are broken down into a number of sub-categories (identified in the procurement documents) for which candidates can apply for pre-qualification to gain access to award stage work packages.

Members of the shared service alliance are seeking to embed a more optimal method for the procurement and deployment of engineering and technology solutions. The engineering and technology solutions marketplace dynamic purchasing system (DPS) is to access a greater breadth of capable supply chain organisations to utilise existing and commonly used engineering and technology solutions to address identified business challenges. The engineering and technology solutions marketplace DPS will look to create greater visibility of work packages to the supply chain to enable greater competition to achieve improved outcomes and value. There are twelve (12) categories in the dynamic purchasing system.

- 1) Digital;
- 2) Engineering services;
- 3) Asset maintenance and management;
- 4) Manufacture.
- 5) Robotics

- 6) Artificial Intelligence
- 7) RAI Infrastructure
- 8) RAI Service
- 9) Configuration Management
- 10) Engineering Design Services
- 11) Plant Modification and Implementation
- 12) Safety Case

These categories are broken down into a number of sub-categories (identified in the procurement documents) for which candidates can apply for pre-qualification to gain access to award stage work packages.

Description of the procurement

Instead of

Text

There are eight (8) categories that form of the engineering and technology solutions marketplace DPS, these are:

- Asset maintenance and management
- Digital
- Engineering services
- Manufacture
- Robotics
- Artificial Intelligence

-- RAI Infrastructure

-- RAI Services

These categories are then broken down into a number of sub-categories. These are detailed in the procurement documentation.

The engineering and technology solutions marketplace is limited to use on procurements with a maximum overall value of £4,999 999 GBP that fit within the scope of the categories described within the 'Engineering and Technology Solutions Marketplace DPS'. There is no lower limit on the overall value of work packages.

Please look for complete tender management reference numbers 11627,11628,11629 and 11630.
