II.2.4) Description of the procurement

Cabinet Office is responsible for the management of the Civil Service Pension Scheme (CSPS) and the Royal Mail Statutory Pension Scheme (RMSPS) - the third and sixth largest pension schemes in the UK respectively. The CSPS is currently administered under contract by MyCSP Ltd and the contract is due to expire on 31 December 2021. Additional work has become necessary between early 2021 and mid 2023 In order to

allow the contracting authority to meet its obligations in response to the McCloud judgment on the transitional protection elements of the 2015 public sector pension scheme reforms. This cannot be carried out by an alternative provider for economic and technical reasons without causing significant inconvenience or substantial duplication of costs for the contracting authority. Accordingly, the contracting authority has entered into an agreement with MyCSP to extend the contract by two years. The RMSPS is currently administered under a separate contract with Capita, which expires in September 2023.

To inform the procurement, Cabinet Office is undertaking pre-market engagement and would welcome views from suppliers on: Delivery Model, Service Transformation, Transition, Technology, Commercial models and risk appetite.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- Additional deliveries by the original supplier

Explanation:

Cabinet Office is responsible for the management of the Civil Service Pension Scheme

(CSPS) and the Royal Mail Statutory Pension Scheme (RMSPS). MyCSP Ltd administers the CSPS, and the contract expires on 31 December 2021. Additional work has become necessary to allow Cabinet Office to meet its obligations in response to the McCloud judgment on the transitional protection elements of the 2015 public sector pension scheme reforms (the “2015 Remedy”). An alternative provider cannot deliver this work for technical reasons, and without causing significant inconvenience or duplication of costs. The principle technical issue is the need to administer the 2015 Remedy from early 2021 alongside the core scheme administration, which timeline precludes the opportunity to procure and transition the services to an alternative provider. It is expected the 2015 Remedy will take three years to complete. Continuing with the current provider allows the Cabinet Office to meet the immediate needs of scheme members who have already taken pensions and may need to have their pensions adjusted under the 2015 Remedy or who have been denied ill health retirement pensions which may be granted due to the 2015 Remedy. In addition to meeting the needs of those retiring over the coming few years. For a third party to deliver the 2015 Remedy separately from the core pension administration would require substantial duplication of costs and be technically difficult due to the need to; replicate the scheme calculations through a second pension administration system; transition and duplicate scheme data; maintain two parallel databases; and interface data between two administrators to ensure consistent and accurate communication with members and employers to calculate the benefits. Accordingly, Cabinet Office has entered into an agreement with MyCSP to extend the contract by two years and to deliver the 2015 Remedy programme. Cabinet Office expects to commence a new procurement exercise for the administration of both CSPS and RMSPS in Q2 of 2021. As set out in the additional information section, Cabinet Office will carry out pre-market engagement to inform the procurement exercise for replacement CSPS and RMSPS contract(s).
