Price

#### **II.2.11) Information about options**

Options: No

#### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
  - protection of exclusive rights, including intellectual property rights

Explanation:

The rig design, software and associated AI analysis rights are owned by Blue Abacus and Cefas would not be able to purchase software / AI analysis compatible with this elsewhere. BRUVS supplied by the Blue Abacus are already used in certain Overseas Territories and this purchase for Cefas would ensure that by buying the same equipment, software and AI analysis services, the data will be collected and analysed consistently with data already collected and analysed in the other Overseas Territories. Purchase of these BRUVS would support the ability to create a cross territory BRUV network as part of the Blue Belt Programme. It is therefore critical that the data informing the management and conservation of a range of species and habitats is collected in a consistent, comparable and statistically robust manner.

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: No

---

## **Section V. Award of contract**

### **Contract No**

Cefas20-21

A contract/lot is awarded: Yes

### **V.2) Award of contract**
