Body governed by public law

I.5) Main activity

Other activity

Nature Conservation

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

REQUEST FOR TENDERS - Wingtra One GEN II UAV and Associated Equipment

II.1.2) Main CPV code

- 35613000 - Unmanned aerial vehicles

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Contracting Authority (Ulster Wildlife) wishes to purchase The a Wingtra One Gen II and additional equipment including payload to be supplied and delivered as set out in section 3 of the RFT.

Ulster Wildlife are one of the organisations leading the way in peatland restoration and conservation works in Northern Ireland. Restoring peatland habitats requires detailed preliminary survey work in order to develop bespoke plans for conservation efforts. The hydrology of the sites is key to restoration measures and conservation success. One of the crucial tools we use in order to map sites including their flowpaths, drainage channels, bare peat areas and invasive species pressures is using UAV's or drones.

The Wingtra One Gen II would allow Ulster Wildlife to capture orthophotography and develop digital surface models for much larger areas than we currently have capability and equipment for which in turn will allow us to carry out more widespread restoration efforts and make our workflow more efficient.

II.1.5) Estimated total value

Value excluding VAT: £35,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 38296000 - Surveying instruments
- 71353000 - Surface surveying services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Northern Ireland

II.2.4) Description of the procurement

The Contracting Authority (Ulster Wildlife) wishes to purchase The a Wingtra One Gen II and additional equipment including payload to be supplied and delivered as set out in section 3 of the RFT.

Ulster Wildlife are one of the organisations leading the way in peatland restoration and conservation works in Northern Ireland. Restoring peatland habitats requires detailed preliminary survey work in order to develop bespoke plans for conservation efforts. The hydrology of the sites is key to restoration measures and conservation success. One of the crucial tools we use in order to map sites including their flowpaths, drainage channels, bare peat areas and invasive species pressures is using UAV's or drones.

The Wingtra One Gen II would allow Ulster Wildlife to capture orthophotography and develop digital surface models for much larger areas than we currently have capability and equipment for which in turn will allow us to carry out more widespread restoration efforts and make our workflow more efficient.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £35,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

End date

21 March 2025

This contract is subject to renewal

No
