Section I: Contracting authority

I.1) Name and addresses

Kent County Council

Sessions House

Maidstone

ME14 1XQ

Email

sccommercialteam@kent.gov.uk

Country

United Kingdom

Region code

UKJ4 - Kent

Internet address(es)

Main address

<http://www.kent.gov.uk>

Buyer's address

<http://www.kent.gov.uk>

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

SC24002 Road Asset Renewal Contract (RARC)

Reference number

DN707530

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

This contract focuses on asset management and serves as the principal delivery method for planned road pavement renewal and reconstruction works across Kent. These works are required to effectively manage KCC's pavement assets by replacing deteriorated areas which have reached the end of their useful life.

The scope of work at each site typically involves:

- Cold milling of the top layers of the road structure
- Repaving with an asphalt surface and/or binder course
- Adjustments to covers and replacement of road markings and road studs as needed.

For sites near traffic signals, there may be a need to replace the traffic loops. Anticipated working conditions include road closures and night-time operations, with defined time restrictions in place.

The scope of work also includes some ad-hoc road reconstruction and civils projects

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKJ4 - Kent

II.2.4) Description of the procurement

This PIN is being published to advertise a potential upcoming opportunity. The aim is to undertake a Market Engagement exercise to inform the contract, scope, and the upcoming procurement for the RARC contract.

The RARC contract focuses on asset management and serves as the principal delivery method for planned road pavement renewal and reconstruction works across Kent. These works are required to effectively manage KCC's pavement assets by replacing deteriorated areas which have reached the end of their useful life.

The scope of work at each site typically involves:

- Cold milling of the top layers of the road structure
- Repaving with an asphalt surface and/or binder course
- Adjustments to covers and replacement of road markings and road studs as needed.

For sites near traffic signals, there may be a need to replace the traffic loops. Anticipated working conditions include road closures and night-time operations, with defined time restrictions in place.

The scope of work also includes some ad-hoc road reconstruction and civils projects

II.3) Estimated date of publication of contract notice

1 March 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
