Particular suitability

Small and medium-sized enterprises (SME)

Other information

Description of risks to contract performance

The scope may include enabling works necessary for drainage repairs and, if required, extend to other regions to maintain service continuity during peak demand.

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

Extreme and unavoidable urgency

This interim contract is required to maintain essential responsive repairs during a peak period following organisational merger. The urgency arises from unforeseen demand levels that could not reasonably have been anticipated. Failure to act would risk non-compliance with statutory obligations under the Landlord and Tenant Act and compromise resident safety. A competitive procedure is not possible within the time available; therefore, a direct award is necessary to ensure continuity of service while a fully compliant long-term procurement is completed
